CONSTANTINOPLE, Oct. 17.-The Turkish cabinet assembled today to consider the note sent by Greece, which has been just received, as the Turkish minister at Athens refused to transmit it. Similar action to that taken against Servia and Bulgaria probably will be taken against Greece, as the note was found to be identical with those received from Sofia and Belgrade.

general throughout the Balkan peninsula. Turkey, which for a week or more has been fighting with Montenegro, this morning issued a formal declaration of hostilities against Servia and Bulgaria. Greece was not mentioned in the official

locument delivered to the Servian and Bulgarian legations at Constantinople and the Greek minister has not been asked old daughter of Captain Derusha. to leave the Turkish capital, as were his Servian and Bulgarian colleagues. The Turkish minister, however, left Athens without the usual formalities. Fighting between the Turkish and Greek armies has begun on the frontier.

Turkey's withdrawal of its troops from the immediate vicinity of the Greek frontier and the omission of Greece from the declaration of war were doubtless dictated by Kiamil Pasha, president of the council of state, real head of the Turkish government. He has been desirous all along of avoiding a fight with Greece, whose interests, as he recently told the Greek premier, are identical with

those of Turky. In its declaration of war, Turkey place the blame on Bulgaria and Servia. Although Turkey has anticipated the Balkan states and ordered a simultaneous advance of its army against Bulgaria

MEXICO CITY, Oct. 17 .- A crisis has been reached in the affairs of Mexico and President Madero's administration is at a critical point. The resignation of his cabinet was demanded in the Cham ber of Deputies last night by Deputy Querido Moheno, but the president of the chamber refused to permit discussion and the motion will come up today. General Feliz Diaz, nephew of the exiled ex-president, is in undisputed control of Vera Cruz, Mexico's most important seaport. Reports have reached here of new uprisings in various parts of the republic, including the city of Hachuca, fifty-five miles from the capital. Besides this the loyalty of the army is

So far advanced are the plans of Diaz and his supporters that they are said room and talked twenty minutes with to have already selected a provisional cabinet. In order to crush the rebellion of Feliz Diaz at Vera Cruz, not only have the federal armies from the north and south been commanded to converge on that city, but General Joaquin Beltran, who has been stationed at Espranza, between the capital and Vera Cruz on the Mexican railway, for the purpose of operating against the rebel general, Aguilar, has been ordered to move on Vera Crus.

From Mexico City itself two military reports, and 100 per cent represents the Rubio Narvetto, with twenty-four pleess determined by the last five years everof artillery, have been sent to General age.

The general public does not seem inclined to share the optimism of the government. It is considered not improbable that some part of the army ordered against Feliz Diaz will join him instead of fighting against him. This belief found Free of Contempt of fighting against him. This was about the time the so-called Harriman fund was/collected. George B. Cortelyou, chairman of the notional committee in 1904 was questioned about John D. Archbold's testimony that the Standard Oil company contributed \$100,000 to the republican fund that year. Cortelyou said the question had been brought to his attention by letters and telegrams from President Roose velt in the last days of the campaign of Auto Turns Turtle 1904. When he spoke to Treasurer Bliss about it, the latter had said there had

been no such contributions. Thought Case Covered.

Cortelyou said that he had not thought it necessary to go to Bliss with further telegrams from the president inquiring about the Standard Oil cetributions be cause he supposed that Bliss' original statement covered the case. "I told the president just what Bliss told me," he said.

Coreelyou could not remember Bliss having arranged for him to meet some of the Standard Oil people. He said be never had asked J. P. Morgan for any contributions for any purpose Cortelyou said he knew little of the so

called Harriman fund, but insisted it was raised entirely for the New York state committee. He denied that early in the 1904 campaign he had promised B. B. Odell, jr., \$300,000 for the state campaign Cortelyou denied he had ordered the books of the 1904 campaign destroyed or that any gathering or committee of New York financiers was formed to underwrite the republican campaign. He disagreed with George R. Sheldon's estimate that 78 per cent of the 1906 republican fund was contributed by corporations and isclared the bulk of the fund was giver

by large individual contributors. Cortelyou at length defended his connection with the 1904 campaign. President Roosevelt was not active in the management of the campaign, he said. The cam paign was directly in his charge as chair (Continued on Second Page.)
