

MEMBERSHIP CAMPAIGN IS ON

Commercial Club Probably Will Enter New Rooms Without Debt.

HUNDRED MEMBERS THE MARK

Nearly Half of This Number Has Been Secured and Committees Chase Prospects Up Alleys and Buildings.

If the membership committee of the Commercial club secures the 100 new members it set out to get three weeks ago, and it looks as if it will, the club will go into the new quarters in the Woodmen of the World building Monday free from debt.

At the last meeting of the committee fourteen new members were brought in, bringing the total up to fifty-two since the last campaign started. The members are going everywhere to get members—waylaying men on the street, chasing them up alleys, over sign boards, and up the sides of buildings to get them to join.

Many of these committeemen are deserting their own businesses to secure the added list of members for the club. The committee is composed of two teams, each working under a captain. Competition between the two is stiff.

At the meeting of the membership committee yesterday twelve more members were added to the roster. This addition brings the total up to sixty-four, new members and leaves only thirty-six names to be secured before the club enters the new quarters.

Guy L. Cramer, who was high man in the last campaign when 55 members were added to the club roster, is captain of one team, and T. L. Davis, his nearest competitor last spring, is captain of the other team. The team scores so far are: Cramer's team, 18; Davis' team, 21.

Several members have been brought in by members of the executive committee of the club and officials in the business offices. The membership committee will meet at the club rooms every noon until the 100 names are secured.

Dr. Howell Accepts Omaha Pastorate

Dr. A. D. Cloyd has received a telegram from the Rev. W. Jasper Howell of Columbia, Mo., in which the latter accepts the call to the pastorate of the First Baptist church of Omaha. The church for the last six months has been without a minister, but two weeks ago sent a letter to Dr. Howell offering him the pastorate of the church. Dr. Howell for some time has been pastor of the First Baptist church at Columbia. He will come to Omaha in the very near future.

BURLEY TAKES DOWN NEAT SUM ON THE RED SOX

Fred Burlingum of the Merchants hotel was one of the good winners when the Red Sox captured the world's championship. Burley had won \$775 on different games of the series and had \$250 bet on the Boston team for the result of the series. Burley's position for the final game was that he would be either \$25 or \$255 winner. He took it all.

HAIR CAME OUT BY HANDFULS

Terrible itching. Began with Rash. Dandruff Literally Covered Scalp. Entirely Cured by Cuticura Soap and Ointment Within One Month.

2023 Chest St., St. Louis, Mo.—"For five years I suffered with itching of my body and scalp. My trouble began with a rash on my lower limbs which was very annoying and my scalp was literally covered with dandruff. My hair used to come out by the handfuls and the itching of my body and scalp was terrible. I had used almost all the skin remedies on the market with no result, when I wrote for a little Cuticura Soap and Ointment and it gave me instant relief. Within one month's use of the Cuticura Soap and Ointment I was entirely cured. I cannot describe one strand of my hair coming out and I have not had a minute of sleep since using the Cuticura Soap and Ointment, which entirely cured me of itching of my body and scalp in its worst form. I also find the Cuticura Soap a benefit in shaving." (Signed) Charles Judlin, Dec. 8, 1911.

TEACHERS INVITED TO INSPECT U. P. BUILDING

Five thousand Nebraska school teachers have been invited by General Manager Ware of the Union Pacific railroad to visit and inspect the new headquarters building during the convention next month. Mr. Ware suggests to Superintendent Greff that the teachers visit the big building any time between the hours of 8:35 and 12 o'clock noon and 1:30 and 5:30 o'clock in the afternoon and not later than 10 o'clock Saturday. The invitation gives the teachers permission to visit the building any time they can.

Miss Alice Davis of South Omaha, who has been studying piano for two and a half years with Wager Swayne in Paris, had a serious accident on the Canada crossing the Atlantic. The ocean was unusually rough and when walking the deck on the second day out from Liverpool, which she left October 5, Miss Davis slipped and fell, breaking her leg.

She was given temporary care by the ship's physician, and on landing last Monday in Montreal telegraphed her parents, Mr. and Mrs. G. Warren Davis, who met her in Chicago Wednesday morning. They took her to Lakeside hospital, had X-ray examination made of the broken limb and had it put into a cast. Miss Davis arrived in Omaha yesterday and will be incapacitated for some time.

Water Commissioner Howell and Attorney Webster of the Water board will immediately ask the court for a hearing on their application for an injunction enjoining the Union Stock Yards company from building a water plant in South Omaha and furnishing packers with water.

Mr. Howell believes that under the instructions of the court, which compelled the Water board to assume ownership of the South Omaha division of the water plant and furnish the stock yards with water, the Water board is given a monopoly on this service and will seek to prevent the erection of a competing plant. Rates of water furnished the packing houses were increased July 1 and some have withheld payment of money due while experts from the east have been investigating and attempting to show that the Water board could furnish this service at the old rate.

Solomon to Probe Into Police Court Release Scandal

Police Commissioner Ryder has appointed Emmet G. Solomon, the deputy city and county treasurer, special investigator in the "police court scandal" case and has given him instructions to make a full report and to spare "neither friend nor foe of the administration." "Solomon will get to the bottom of the case," said Ryder, "and when he has found out all the facts he will make a report and we will act on that report."

Mr. Ryder said he would make no comment on the charges that prisoners had been released on forged papers, but he would not hesitate to act when the facts were uncovered.

Solomon has been given full power to investigate in any channel that in his opinion will lead to the disclosure of the city official or "outsider" who has been forging the police judge's signature to "releases."

Ratekin Loses Bet and Must Roll Ball Through the Streets

C. F. Ratekin, superintendent of the Omaha Ice and Cold Storage company, has been placed in a humiliating position owing to losing a bet on the Giants in the final game of the world's series. Ratekin made a bet with C. F. Perkins, manager of the association bowling alleys, whereby if the Giants lost he would roll a bowling ball around the principal streets of Omaha. Mayor Dahlman has issued a warning to the patrolman not to stop Ratekin when he starts rolling today. And the mayor also wrote in his note to Police Chief Dunn, "It serves Ratekin right for betting on the Giants."

WATER BOARD ASKS COURT TO RULE ON INJUNCTION

Secretary Wait in Letter Reveals the Situation He is in

Secretary of State Addison Wait in a letter to the republican state committee has revealed something of the puzzling situation in which he finds himself with regard to placing electors on the ballot in proper form. He acknowledges receipts of the resolutions in which the state committee objected to the six mossie electors going on the ticket as republicans, and demanding the substitution of the six chosen by the state committee. He says he realizes the justice of the contention, but claims to be powerless to act.

"You know that this department has no jurisdiction," he writes, "when it comes to the question of eliminating one set of candidates who have been duly elected at the primary by placing another in their stead. While I know as well as you do the justice of your contention, yet this department is powerless to change in any way the results of the primary election."

"I have placed on my certificate to be forwarded to the county clerk, the names of the six men who were forwarded by you as candidates by petition, but I am confronted still with the puzzling proposition as to the two candidates who were nominated in the primary as republicans. I have thought it would be advisable to group the various presidential electors together who were for Roosevelt, and the same with those who were for Taft, but I find under the law that I am not permitted to give petition candidates a party name, hence the two republican candidates whom you named by petition will either have to go on by petition and omit the word 'republican,' or go on as republicans and omit the word 'petition.' If you will counsel with these two men and ask them which way they prefer it would relieve the situation somewhat for this department. In order to have them grouped with the other six electors they would have to be by petition."

Gold Dust not only cleans, but sterilizes

Gold Dust does more than wash the surface—it digs deep after germs and hidden particles of dirt and decay. It purifies and makes everything sanitarly safe. Neither dirt nor germs can live where Gold Dust has made its appearance.

Gold Dust needs little help from you; it does most of the work alone. It is a vegetable-oil soap in powdered form, to which are added cleansing and purifying ingredients which get busy the moment they touch the water.

Use Gold Dust for all cleansing purposes. It saves time, saves labor, saves backs, and saves money.

CALDWELL WANTS HIS MONEY

Court House Contractor Says He Will Lose \$40,000 on the Job.

COMMISSIONERS ALL FEEL PROUD

Building Looks Entirely Different Since the Scaffolding Has Been Torn Away—Many Taxpayers Are Inspecting It.

When George W. Caldwell returns from Chicago today he will more than likely be given an answer from the court commissioners regarding the request Caldwell & Drake, general contractors, who built the court house, for an advance on estimates.

Mr. Caldwell has declared to members of the board that he will lose about \$40,000 on the construction of the new court building, and that he would like to have advanced to the firm a part of the money that is held back on estimates.

In the contract for the building it is stipulated that 15 per cent of awards of estimates shall be withheld by the commissioners until the building is finally accepted. Caldwell & Drake's share of the \$1,000,000 contract amounts to \$300,000 and of the latter amount 15 per cent, or about \$150,000, is being withheld by the county. It is for a part of this money that a plea is being made.

Whatever the decision of the commissioners will be as to releasing a portion of the money, the commissioners now seem to be more kindly disposed toward the contracting firm than they have been for months. This feeling has come about since the scaffolding and rubbish has been cleared from the building and the true magnificence of the structure revealed.

Commissioner Lynch declares that it is one of the finest and will compare favorably with any other building of its kind in the United States. He says that it would be impossible again to secure such a magnificent building for the money. All the scaffolding used to put up the mural paintings has been torn away, and the force of workmen now left are putting on the finishing touches in various parts of the building. Every day thousands of people are thronging through the spacious halls admiring the colossal architecture, the splendid furniture and paying particular attention to the murals. The colorings are magnificent and fascinating to all who visit the building.
