The supplies now are somewhat variable as to quality, being mostly fairly good. The total western slaughtering was 385,000 hogs, compared with 360,000 the preceding week. For the corresponding time last year the number was 465,000. From March 1 the total is 14,720,000, against 16,600,000 a year ago. a decrease of 1,390,000 hogs. It thus appears that the eight months of the summer season, ending at the close of this month, will fall short about 2,000, 000 hogs of the high record of western slaughtering last year.
