For a Small or Moderate Sized Apartment

How to furnish a small room without overcrowding it has been a vexing problem to many a dweller in the modern apartment.

This problem has been solved not by reducing the size of ordinary furniture, but by creating a new style in which economy of space is combined with a beauty of design that is really surprising.

We have been among the foremost in the sale of this furniture and have a wide and varied assortment either in full sets or in single pieces.

Within Home with the Decorator

So many homes are decorated and furnished with so little display of aesthetic taste that one often wonders whether the owner and his wife really care for beauty, comfort and feeling in their decorations and furnishings. Since man's home is his castle—his place of greatest pleasure and joy—it should represent all that is beautiful and comfortable and cheering in the way of surroundings. Suggestions for making home all of this can be obtained from competent decorators and designers, often at no

expense at all. It really is a sad neglect when a home of today is built and furnished without being the direct supervision of high-class decorators and furnishers. The photographic reproductions above show the excellent character of the home decorating and furnishing done by Colling & Laier, Omaha's newest decorators. This firm is splendidly equipped to take care of the most pretentious home or of the most modern cottage. They really make home-homelike—make it what it should be.—Advertisement.

Are You Going To Move Into That New Home This Fall?

If so, guard against having your furniture scratched or probably broken by having us do your moving. Our large vans and experienced men will eliminate all cause for worry. "The Father of Modern Gas Lighting"

is the honor attributed to F. A. Winsor, an Englishman. In 1807 he introduced Gas for street lighting in England, illuminating Pall Mall. In 1809 he promoted a company for general Gas Lighting, and in 1810 he was given a charter by Parliament.

In Omaha

there are houses which were built when the use of Gas was not so general, and the fact that they are still standing shows that they were built with good material. Such houses should

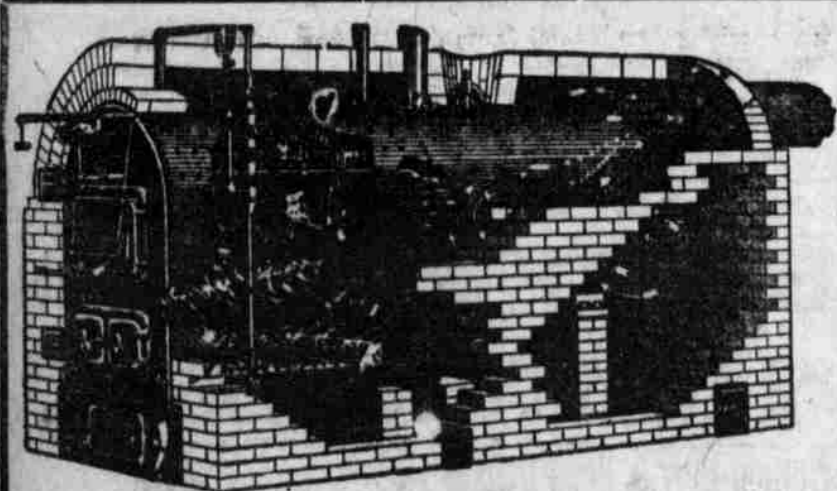

Have Modern Gas Lighting

If you are the owner of such a house, you will increase its selling or rental value by having it piped for Gas, or if you live in the house yourself, you will add greatly to your comfort.

Have Your House Piped for Gas NOW

We will supply and install Gas piping of good quality and fixtures of convenient size, durable material and attractive designs, including all necessary glassware at attractive prices and liberal terms. Send for our representative and have him estimate. This will place you under no obligation whatsoever.

Omaha Gas Company

The Kewanee Smokeless Firebox Boiler makes it pay you owners of buildings to be good citizens. It not only does away absolutely with smoke but saves you a big burden of fuel expense which is now burning up profits. It puts you away inside the city's smoke ordinance which is going to be rigidly enforced.

Tests made by Robert W. Hunt & Co., engineers of the highest standing as you know, show a saving of 23% in using Pocahontas coal in a Smokeless boiler as compared with the standard firebox boiler. More perfect combustion is the secret of the coal saving. Perfect combustion prevents smoke. You can't burn it. You've got to stop it before it begins. And this is the one boiler in the world that absolutely prevents it within the meaning of the stoutest smoke ordinance in existence.

Further tests made by Hunt & Co. show an efficiency with the Kewanee Smokeless Firebox Boiler using Pocahontas coal of 74.9% and with Illinois coal of 74.3%. Tests made by the University of Illinois with a cast-iron sectional boiler show an efficiency using Pocahontas coal of 57.42% and with Illinois Lump coal of 51.7%. Now then you have the facts. Choose between them. The smoke ordinance has got to be observed and you can observe it with distinct profit if you use the Kewanee Smokeless Firebox Boiler—but you can't do it in any other way.

Write for catalog containing full detailed descriptions and sizes and prices. It will give you an interesting half hour and a mighty profitable one.
