

THE MIDWEST LIFE

THE MIDWEST LIFE of Lincoln is a distinctive Nebraska company. It insures only Nebraskans and the premiums they pay the company are loaned back to them on their rich, productive farms.

The directors of The Midwest Life are to the "Manor born" They believe in Nebraska and the loyalty of her citizens to all worthy state institutions.

The company is located right in the midst of the people with whom it deals. It can serve them better, quicker and with less red tape than companies 500 to 1500 miles away.

It can deliver its policies much sooner after an application is received than they can. It can approve a request for the change in beneficiary before the home office of the eastern company is aware the policyholder wishes to make a change. It can pay a death claim while the eastern company is furnishing the blanks on which to make the proofs of death. Its aim is to render the people of Nebraska such excellent service that they will take a personal interest in the company and watch its growth with pleasure and state pride.

The Midwest Life has just placed on the market some new and very attractive policies. It will be worth while to investigate them.

The Security Mutual Life Ins. Co. Of Lincoln, Neb.

A HOME COMPANY

Its business is confined to the healthiest portion of the United States.

Its investments, except its office building, are confined to first mortgage loans, almost all of them on improved farms.

Its surplus in proportion to its liabilities is exceeded by very few, if any, companies its age.

It has not and will not indulge in special contracts, stock selling schemes or any of the "frills and furbelows" of recent years.

For these reasons this company can furnish safe and satisfactory indemnity at reasonable rates.

The policy of this Company has been in the past and will be in the future to conduct the business in a conservative manner at a reasonable expense rather than a large, reckless business at an extravagant expense.
