Note the large amount of Reserve and Mortuary Funds in proportion to total losses sustained. Inasmuch as these funds are created for the purpose of paying losses in excess of an annual rate of one per cent of those insured, the security for the fulfillment of our contracts, in proportion to losses thus far paid, is in the ratio of more than \$4.00 to \$1.00.

Annual Cost at age 40 is \$10.00 per thousand (other ages in same proportion) plus a small initial expense.
