Considering the liberal receipts the trade was rea-sonably active and pretty much all of the early receipts changed hands in good season. While buyers picked up a few of the and feeding order, became a little easier, and in spots possibly a trifle lower. The late business was rather quiet compared with the early trade. A clearance of the offerings was made in very fair choicest feeders at prices that were about steady, the feeling on stock cattle and feeders generally was not very strong.
