ENSIGN ALEX M. CHARLTON, son of Mrs. A. G. Charlton, who is chief engineer on the United States steamship Nashville, had a most interesting experience last week when his ship was used as the press boat at the naval review in New York harbor.

On the morning of the review the Nashville carried Secretary of the Navy George L. Von Meyer and his staff, with seventy-five newspaper men. In the afternoon the trip was made past the fleet again when President Taft reviewed the boats.

"The following afternoon," Ensign Charlton writes, "we were anchored near the Statue of Liberty while the ships steamed out to sea, which was a most impressive sight." The Nashville is again enroute to the southern waters, where she will spend the winter.

Another interesting experience of which Ensign Charlton writes was at San Domingo at the time Secretary Knox made his visit. He at that time acted as aide to United States Minister Russell.

Ensign Charlton is enroute to southern waters on board the Nashville.

Beautiful Flowers at Club Opening.

Myriads of cut flowers in the decorations of the quarters of the Commercial club made it truly a splendid opening of their new home Monday evening. Not only did the flowers add to the affair, but the good wishes which accompanied them made them doubly so.

A huge bunch of American Beauty roses, which was the gift of Mr. George E. Haverstick, president of the club, was one of the most beautiful of the floral gifts. The gorgeous yellow and white chrysanthemums which transformed the stairway into a floral bower, were the gifts of Mr. George H. Kelly and Mr. William R. Wood.

One of the large bunches of American Beauties, which was used as the centerpiece on a table in one of the reception rooms, was the gift of the membership committee.

The American Beauty roses which were used in the decorations throughout the rooms expressed the good wishes of the United States National bank, First National bank, Paxton and Gallagher and several prominent firms of the city.

Taft Men in State Will Vote Strong

Secretary Amos Thomas of the republican county central committee has just returned from Grand Island, where he spent the latter part of last week on business. "My observation is," said the secretary, "that there is a very large Taft vote out in the state that is keeping still, but will be heard from on election day. The bull moosers, of course, are noisy, and it don't take many of them to make a great noise. They have no organization in Grand Island, but those who are strongly for Roosevelt are talking about it enough to make themselves conspicuous.

"The democrats naturally talk a great deal this year, because it is the first time they have had a candidate that they think has a show. The Taft people, however, know Taft's record and know the prosperous condition of the country at present, and they will just go to the polls and vote for a continuation without bothering to talk about it beforehand. There are hundreds and hundreds of voters out in the state who have had some little inclination to change, but of late have come to think that it would be much better to continue the present administration."

JAIL INSPECTION WAITS LATENSER'S RECOVERY

Because of illness of John Latenser, county building architect, the county commissioners postponed inspection of the new county jail on the top floor of the new building. The inspection will not be made until the architect recovers. Mr. Latenser's illness is said not to be serious. It is in the nature of a nervous reaction from overwork.

Serpentine Crepe

Is the Economical Mother's Friend

With no other fabric can the mother dress herself, her daughters and younger children so economically, so richly and with so little labor, as with Serpentine Crepe.

The very many beautiful printed patterns, as well as the plain shades, always rich and effective, give almost unlimited scope for the exercise of color schemes to suit individual tastes, from the more conservative to the most pronounced—from black to the scenic beauty of wreaths and flowers and foliage. The permanency of both the colors and crinkle and the long wearing quality are guaranteed by the words

imprinted on the selvage of every yard.

No ironing is required—simply wash, shake out and dry any Serpentine Crepe garment and it is ready to wear again

A great saving in labor, time and money. The cost of Serpentine Crepe is so low that women can have an extensive wardrobe always ready for immediate use, yet feel that true economy has been exercised.

If anything, the designs this Fall are more beautiful than ever before. You will find them
