

THE SOCIETY OF THE BEE-HIVE

By MELLIFUGIA. Thursday, Oct. 24, 1912.

IF YOU happen to notice several young women in a theater party, each wearing a handsome corsage bouquet, you may know that they have just come from a dinner party given by a certain popular young bachelor.

This chap always gives small parties, usually having from four to ten guests, but the appointments are always perfect. Although he entertains at least once a week, there is always something original and novel, either in the menu or in the floral decorations.

Last week he entertained at a dinner party of eight guests at the Hotel Loyal, followed by a box party at the theater. At this dinner he introduced a new corsage bouquet and one was given to each young woman present. The new bouquet is called the Pompadour.

In the center is an American Beauty rose, around this a row of small white blossoms, then a double row of English violets, and another row of white flowers, then a row of pale pink carnations, each tied with a tiny bow of pink illusion, the entire bouquet, which resembles slightly "the old-fashioned bouquet," is tied with a large illusion bow.

At an informal little supper party recently this young bachelor, who is quite a motor fiend, had everything on the table representing some part of a motor car. In the center of the table was a miniature automobile made of cake.

The young women friends of this ingenious bachelor are anticipating the next dinner party and wondering, "what next?"

Denounces Starvation Pay

United Presbyterian Synod Goes on Record on Many Matters.

UPHOLDS THE ALBERT LAW

Is Against Public Dances and Vulgar Theaters—Would Have More Religious Services in the Homes.

Public dances, vulgar theaters and starvation wages for men and girls are denounced as principal causes of human wretchedness in the report of the permanent committee on reform of the Nebraska and Colorado synod of the United Presbyterian church, which was adopted by the synod. The synod is now in session here. The report makes a plea for fewer church services on Sunday and the substitution of some services of the old-fashioned Sunday study of scriptures in the home. Declarations regarding the liquor traffic, the social evil and other matters are contained in the report, the principal paragraphs of which are as follows:

We regret the tendency on the part of the people and on the part of many professing Christians to use the Sabbath as a day of pleasure and profit. Men need the atmosphere of religion more than Friday. They need God more than they need golf. We would therefore sound a note of warning that there can be no prosperity of home, church or country, lacking a keeping of the fourth commandment, and we would suggest that maybe too numerous church services of the Sabbath day interfere with the old time Sabbath in the home, when the entire afternoon and evening of the day was spent in the family study of the scriptures, the repeating of the catechism and the singing of God's praises. We recommend a return of the home to the old time Sabbath observance and a regard of all calls that interfere. The sinfulness of the licensed liquor traffic is coming home to our people as never before. Everywhere men and women are realizing "that no man liveth to himself," and that this business of making money for evil every individual and every home in the nation.

We view with distress the multiplying of attractions such as the public dance hall, vulgar picture shows and more vulgar theaters, where boys and girls congregate and where by physical contact and suggestion the baser passions are inflamed and fed, and multitudes of boys and girls are ruined physically, mentally and morally. These iniquitous places of amusement are simply recruiting stations, which by easy stepping stones lead our young people to dens of vice and into the life of shame. Another cause which is responsible for driving many young women from the path of virtue is the failure of employers to pay a living wage. This committee does not believe that there is any place in heaven for the man who knowingly withholds from his employe that which justly belongs to him.

The paying of starvation wages to young women is not uncommon. It is a crime against which the word of God cries out and we hope the ministry of our church will not be silent. We denounce all individuals who rent their property for the purposes of prostitution and we would earnestly welcome the fullest publicity of the names of such persons in every city and town of the synod.

We definitely resolve that we oppose any attempt to repeal the Albert law as it appears upon the statute books of the state of Nebraska. The segregated district with its premium on blackmail and its public commercializing of human degradation is more unchristian than any method yet openly proposed as a cure or an alleviation of the social evil.

WOMAN SLIGHTLY BURNED WHEN DRESS CATCHES FIRE

Mrs. Joseph Magnano, 1313 Pacific street, was slightly burned yesterday when her dress caught fire while she was filling a gasolene stove. Mrs. Magnano was preparing breakfast at the time of the accident and when her dress caught fire her husband smothered the flames with a blanket. Damage to the house amounted to about \$100.

PASTORS TO HELP CAMPAIGN

Anti-Tuberculosis Day to Be Observed in Local Churches Sunday.

MOVEMENT IS A NATIONAL ONE

National Society for Study and Prevention of Tuberculosis Backed by Preachers and Trades Unions.

Mrs. K. R. J. Edholm, secretary of the Nebraska Anti-Tuberculosis league, has been busy for some time past arranging with the pastors of the churches of Nebraska for the observance of "Anti-Tuberculosis Sunday," which falls this year on October 27. This is part of the campaign of the National Society for the Study and Prevention of Tuberculosis, the ministers being asked to preach a special sermon on that occasion, giving their congregations something of information in regard to the work of preventing the spread of the great white plague, as well as what is known about providing a cure for those who are already affected. So far, Mrs. Edholm has circulated over 700 ministers in Nebraska, and has received refusals from but eight. Many of the ministers have written in most enthusiastic endorsement for the work. It seems a little strange, though, that any of them should be opposed to a work that is endorsed by scientific men as well as sociologic leaders all over the world, but one minister writes in from the state "I am not in sympathy with the method you are using."

ELEVATORS INTERFERE WITH SPEAKERS AT CLUB

Not all is satisfactory about the new clubrooms of the Commercial club the house committee as well as officials of the club has something to worry about.

At the meeting Wednesday noon, at which the first public speaker was heard in the new quarters, it was noticed by the members that the rumble of the machine which operates the elevators of the building directly above the club's dining room, would have drowned the speakers' voice had he not had an unusually good one.

Those who sat in the remote corner of the room had to restrain their nerves to hear Governor Hadley of Missouri, who was the speaker. Club attaches now are wondering what will be the effect when a speaker whose voice lacks the penetrative quality of Governor Hadley comes to address the organization. At the smoker Wednesday evening it was noticed that the rumble from the operation of one elevator interfered somewhat with the speaking also. Efforts probably will be made to see if the "stage thumper" cannot be kept out of the club's dining room.
