Last Appeal Issued By Colonel Roosevelt

OYSTER BAY, N. Y., Nov. 4-At the end of the hardest campaign of his career in politics Colonel Roosevelt tonight made a final appeal to the voters of the country on behalf of the progressive ticket. Except for two speeches tomorrow in his home county he had ended the struggle which has kept him hard at work since he threw his hat into the ring last spring. He spent the day with his family and was so far recovered from his builet wound that his physician permitted him to go to church.

Colonel Roosevelt gave out his state ment under the date of November 4 as his appeal on the day before election. He urged every voter to read the progressive party's platform before going to the polls.

Nine Out of Ten Members of Local Board Bearish as to Wheat.

CASH CORN PRICE IS UNCHANGED

Onta Receipts Continue Reavy, but No Large Accumulation in Stocks is Taking Place in the Western States.

OMAHA. Nov. 4, 1912.

OMAHA. Nov. 4, 1942.

When the markets closed Friday nine out of ten members of the local trade were bearish in their views on wheat. What decline has been established has neither checked the movement or incrased the shipping demand, and prices are far from being at a level to invite export business. The Argentina crop is a factor and is coming on very fast under favorable conditions. After a long period of activity the flour trade is a little sluggish at this time. The trade is in a position where it will respond quickly to anything important in the way of bull news, but there is nothing of the kind in sight unless some complications arise in Europe over the attempted settlement of the Turk sh war. Cash wheat ligsc lower. The latest private reports by good authorities on the corn yields over the big shipping states are most flattering. The trade is now looking for an official report this month even more bearish than that given out for October. New corn is beginning to move quite freely. The acute situation in old cash corn is largely eliminated as a market factor. Brokers claim there is a big concentrated hooding in December corn, which, in all probability, cannot be supplied by the new crop movement. The action for the December option will depend very greatly on the character of the weather for the next thirty days. Leaving this element out of consideration, the feeling in the trade is bearish. Cash corn unchanged to 2c lower.

Oats receipts continue heavy, but no large accumulation in stocks is taking place. The big crop preciudes any large volume of speculative buying and traders expect prices to gradually sag to a lowel level. Cash oats were 'sc lower.

There will be no market in Chicago or Omaha, Tuesday, November 5, on account of election.

Prices on Board of Trade.

CHICAGO, Nov. 4.—Certainty of a huge increase in the visible supply brought about the lowest close of the season in wheat today. The windup was nervous at a net decline of %%%c to %%dc. Latest tradings left corn %6%c to 160%c down. oats of %6%c to me and provisions varying from 12%c lower to an advance of 16c.

Unrest about the Turkish situation gave wheat at first an appearance of strength. Although the visible supply total was withheld, the incomplete returns available showed beyond doubt that the outcome would be heavily in favor of the bear side. The gain in Chicago alone amounted to 781,000 bu. December ranged from 8%c to 90,000 be, with last transactions %91c net lower at 8%c even.

Predictions that the government crop estimate would be raised 25,00,000 bu. above the forecast issued October 1 had a depressing effect on corn. December fluctuated between 50050%c and 50%c, closing easy at 50%650%c, a net loss of %6%c. Cash grades were weak. No. 2 yellow, 57668%c.

London Stock Market, London Stock Market.

LONDON, Nov. 4.—The stock market was inclined to ease off during the early trading today, owing to Austria's attitude in the Balkan situation. American securities opened a fraction lower. A rally followed on covering, but selling was renewed later, and the list declined under the lead of Canadian Pacific. At noon prices ranged from unchanged to 2 points below parity.

MONEY—At 2873% per cent. NEW YORK, Nov. 4-Extreme duliness and irregularity marked the course of operations on the stock exchange today. For the greater part of the session trading was almost at a satnistil. Some stocks, notably St. Paul and the Hill issues, were moderately strong at the outset, while most other leaders, railways and indusmost other leaders, rallways and industrials, were heavy when not absolutely weak. Certain of the specialities, such as American Beet Sugar, American Sugar and American Woolen, whose affairs are largely dependent upon the tariff, recorded severe losses, which were partly regained before the close. American can and the Tobacco group, as well as some of the minor stocks, reflected verying degrees of pressure.

In the final hour, when call money, which had opened at 7 per cent, fell to 5

MONEY-At aggs, per cent. The rate of discount in the open market for short and for three months' bills

In the final hour, when call money, which had opened at 7 per cent, fell to 5 and later 3% per cent, the entire list moved forward until most losses were more than recovered. Lehigh Valley, St. Paul, Union Pacific and Steel led the rise, while Great Northern and Northern Pacific added to early gains, and Amalgamated, which had been among the heaviest of the leaders, also recovered. There was some shading toward the close, but the undertone continued firm. BOSTON, Nov. 4 - Closing quotations on Oct. the undertone continued firm. Canadian Pacific was weakest of the Canadian Pacific was weakest of the Americans in Lendon, where the market inclined to sag over renewed complications in the Balkan Situation.

While call money eased appreciably, time loans hardened, 6 per cent being bid for the longer maturities. All indications point to a firmer tendency for the balance of the year.

The bond market was narrow and increase. Contennial

HOGS-Speculators set the pace this morning and it was a lively one. The market opened earlier than usual and by 9 o clock it was practically over with so far as hogs in first hands were concerned. Speculators bought pretty much everything at prices that were 50/10c, most 19c, higher. A large proportion of all the hogs sold at \$7.5007.50, as against \$7.7007.80 on Saturday. The top was \$7.90, as against \$7.55 at the close of last week.

hogs have shown an advance. The low point last week was touched on Wednesday, when hogs on this market soid or an average of \$7.55, so that after allow-ing for improvement in the market to-day prices are around 25@30c higher than Representative sales:

SHEEP-Receipts this morning were very light for a Monday, being the smallest for a number of weeks and only about half as large as on the corresponding day last year. Other market points were also very moderately supplied, the decrease in receipts being due either to a decrease in receipts being due either to a decrease in receipts being due either to a decrease in the western run natural at this season of the year or possibly to the fact that shippers were staying home on account of the election.

Today's arrivals consisted very largely of feeders, there being only a moderate showing of killers. As there was a good demand on the part of local packers for lambs and ewes sold quite readily at prices that were around 2c higher than last week. On paper sales would really show more advance than that, but the quality today was pretty good. Western lambs sold up as high as 31.15, with ewes at 34.00. There were no fat wethers of yearlings, at least none of any consequence, to make a test of the market on that kind of stock.

The attendance of feeder buyers from the country is never very large on a Monday morning and it was only natural to expect a smaller number than usual today on account of election. Still there was a fair demand for feeders. The trade, however, opened slow and dull with the feeling about steady. Later on the market took on a little more life and there was a somewhat stronger feeling pretty much everything being cleaned up in reasonable season.

Quantions on sheep and lambs: Lambs, good to choice, \$6.75[7.15; lambs, fair to good, \$8.30[6.75; lambs, feeders, \$5.35[9.55]; yearlings, leavy, \$4.30[4.70]; yearlings, feeders, \$5.35[9.55].

Secretary of Cubs Kills Highwayman

CHICAGO, Nov 4.-Rutherford B. Cooke, assistant secretary of the Chicago National league base ball club, shot and killed one of two men who stopped him on Washington boulevard early this morning. Cooke said that two men in a motor car drove up to the sidewalk ahead of him and one leaped out and ordered him to throw up his hands. The base ball man drew a revolver from his overcoat pocket and shot the man dead The other man, according to Cooke,s acount, had not left the automobile and he threw in the clutch and sped away. Police found in the dead man's pocket an accident insurance policy made out to Edward Meyers, and a deputy sheriff's

AFFECTION FOR HORSE CAUSES SUICIDE ATTEMPT

BISBEE, Ariz., Nov. 4.-His remark which had been denied him, led Gler Shipley, a young miner, to kill the horse and then attempt to commit suicide, after gaining forcible possession of the animal. Early this morning Shipley went to the livery stable where the horse was kept, held up the man in charge at the point of a revolver, rode the animal into the hills and at a point five miles from town gave the horse a last feed of oats and then put a bullet through its head Lying down beside the dead horse, Shipley sent a bullet through his body just
