GRAIN AND PRODUCE MARKET

Canada and South America Will Compete Sharply for Exports.

FEELING IN WHEAT IS BEARISH

While the Open Interest in Corn is Much Smaller Than it Was a Fortnight Ago it is Still of Importance.

Omaha: November 12, 1912.

The situation in wheat, as viewed from n inpartial standpoint, may be called uite bearish. The Buenos Aires market ontinues to decline because of a most ex-ellent crop promise in the Argintine Recellent crop promise in the Argintine Republic. The Canada wheat crop has
scarcely been touched, so that in the immediate future the country to the north
of us and South America will be sharp
competitors for the trade in Europe. The
United States has a large wheat surplus
and it will be necessary to absorb a good
portion of this grain in order to piace the
market where it cannot be attacked by
short sellers or bears. Receipts of 14,000,000
bushels of wheat at primary markets in

shorts where it cannot be attacked by short sellers or bears. Receipts of 14,000,000 bushels of wheat at primary markets in seven days, or double the receipts for the corresponding time a year ago, show that there are many in the trade who are willing to let god of their grain at present price levels. It has been nearly a week since the seaboard reported any takings of wheat by foreigners. There have been some lots sold to go abroad, but this wheat was largely, if not wholly, Canadian grain. Cash wheat was largely, if not make the semaller than it was a fortulant ago, it is still of considerable importance. The November government report was considered bearish by the trade, as is demonstrated the fact that the United States has raised a bumper crop of yellow carelias and that an export business of consequence must develop in order to place to show bearness this week, especially for May corn, which has the appearance of a safe sale on the hard spots. On a sharp break, some look for active buying of December corn especially if the weather is unsettled. Cash corn was legitive lower.

A large amount of oats have been exported in the absence of a bountiful supply of corn, and some countries abroad where oats have always been sparingly fed, have taken larger quantities than ever before in their history. Cash oats were ic higher.

Clearances of wheat and flour were equal to 68,000 bu; corn, 5,000 bu; oats, 55,000 bu.

Liverpool close: Wheat, 1%c lower; corn, 14,01%c lower.

price we are offering for will undoubtedly double their money within five years, besides having a most desirable suburban home in the meantime.

NEW YORK STOCK MARKET

Trading Becomes Weak After Four Hours of Irregularity.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Fraces on Board of Trade.

CHICAGO, Hl. Nov. II—Depression overspread the wheat market today in consequence mainly of less warlike tone of news from Europe. The close, though firm, showed a decline of % to % o net Latest trading left corn a shade to %c up, oats unchanged to lee lower and provisions varying from Saturday night's figures to a gain of 7%.

Wheat traders also had to confront world shipments a third larger than a year ago. A lively husiness with millers at Minneapolis led to some reaction, but the fact that harvesting in Argentina would begin within a fortnight spoiled the fally. December, which ranged from 8% to 8% c to 8% c, finished at the level last named, a loss of %c compared with forty-eight hours before.

Predictions of unsettled weather braced up the corn market. There were also dispatches from central and southern Illinois that mentioned disappointment at husking centers, December fluctuated between 8% c and 5% 500 c, closing firm 16% in the time of the mand. No. 2 yellow was quoted at 88 56 c.

Oats inclined to sag on account of the absence of export call. December sold from 31%c to 31% c, with latest quotations %c off at 31% 601% c.

Lower prices for hogs tended to pull down provisions. The chief setback was in January pork, 7% c.

down provisions. The chief setback was

Hours of Irregularity.

ALL RECENT GAINS WIPED OUT

Selling in Late Dealings Only Moderate and Decline is Altogether Gradual-Losses in London Dealings.

NEW YORK, Nov. 11,-After four NEW YORK, Nov. 11.—After four hours of irregularity, during which prices rose and fell within one point limits, today's stock market suddenly turned weak in the last hour, not only wiping out all gains but in several important instances, notably United States Steel, going under last week's low level. The selling in the late dealings was only moderate and the decline altogether gradual. The only previous break in the gradual. The only previous break in the monotony of the session was during the noon hour, when the list suffered a sharp reversal on news from Washington that reversal on news from Washington that the supreme court would router no de-cision today in the several suits of ospe-cial interest to Wall street, including the Union Pacific-Southern Pacific merser. Foreign conditions were negatively helpful to the day's reactionary move-ment. London's prices for American stocks showed more losses than gains and the British mersonalis had its and the British metropolis had its own troubles in connection with the fort-nightly settlements and the possible dissolution of the liberal ministry. Uncer-tainties growing out of the Balkan situa-tion were an added factor, not only in London, but at the French and German

capitals.

Call money touched 5 per cent towards the end of the day, but time rates cased a fraction by reason of last Saturday's better bank statement. The one cheerful note of the day was contained in traffic advices from the middle west, which showed that the business of the radiways are the institute only by the same and the limited only by the same are the same

ahowed that the business of the railways at the moment is limited only by the capacity of equipment.

Bonds were lower on a fair distribution of offerings. Total sales par value aggregated \$2.038,000. United States government bonds were unchanged on call.

London Stock Market.

LONDON, Nov. 11.—Money was dearer and discount rates were firm today. The Bank of England secured most of the St. 50.00 South African gold offered in the open market. The uncertainties of the European situation and the commencement of the sottlement in the mining section restricted business on the Stock exchange. Realising prior to the general carry-over caused woakness in shipping shares and Brazilian and home rails Russian and Servian honds were easy and copper shares were offered on bearish American statistics. Consols were steady. American statistics Consols were steady and unchanged and later in the forenoon advanced on light covering. During the rest of the session the market fluctuated irregularly and closed undecided. Lendon closing stock quotations:

season in the morning.

All the forders and stockers in the yards last week were cleaned up before the close, so that recollators and yard traders were entirely out of cattle this morning and were all anxious for fresh supplies. At the same time there were quite a number of country buyers in so that the demand for desirable grades at least was active. As a result the market was a little stronger man last week.

Quotations on native cattle: Good to choice beef steers, \$5.00g7.25; common to fair beef steers, \$5.00g6.60; good to choice cows, \$5.50g6.60; fair to good steers, \$5.00g6.60; good to choice cows, \$5.50g6.60; fair to good stades, \$4.50g6.60; common to fair grades, \$4.50g6.60; common to fair stockers and feeders, \$6.50g to choice stockers and \$6.50g to choice stockers and feeders, \$6.50g to choice stockers and feeders, \$6.50g to choice stockers and \$6.50g to choice stockers and feeders, \$6.50g to choice stockers and feeders, \$6.50g to choice stockers and feed

Visible Supply of Grain.
