Petroleum Coke

Why will you waste your time and lose your temper every morning, and all because you have to shake down and remove ashes and clinkers from your furnace. Eliminate these disagreeable features by burning PETROLEUM COKE.

We guarantee this fuel to be absolutely free from smoke, soot and ashes.

It makes a very intense heat and we believe that if you will give this coke a trial you will never burn any other fuel in your furnace. Just think of it, no ashes to contend with, no shaking of furnace, no clinkering and it will hold fire over night just as well, if not better, than hard coal and lasts just as long.

If this interests you (and we believe it will) call us up and let us tell you of many more features about this Coke.
