MACKAY HITS ALBERT LAW

Tells Women Legislators Know Not of What They Legislate.

WOMAN SUFFRAGE THE REMEDY

Women Might Increase Scale of Wages, Making Decent Living Possible—Saloon Club for Poor Man.

Rev. T. J. Mackay addressed the women of the current topics department of the Omaha Woman's club yesterday afternoon on the subject of the "Repeal of the Albert Law."

"A woman's opinion and the business end of a wage are two things which should be let alone," were the words which greeted the woman, but notwithstanding his adherence to the opinion Mr. Mackay announced that he was not a prohibitionist and did not believe that legislation alone would greatly diminish the social evil of the day.

"It is an age of reformers and every body is in the business," said Mr. Mackay. "When the country can provide social places for the poor man which will take the place of the rich man's club, then I am in favor of taking away the saloon, and not until then."

"That the red light district should not exist is the opinion of most of the Christian women of the city, who do not know the conditions nor the women of these places. Segregation is not right, yet they would put these poor unfortunates out in the street with nowhere to sleep, show them no better way to live, would not take them into the family, and yet they call themselves Christians."

"In solving the problems of social evils provision must first be made for the care of these unfortunates and then let the legislation begin. Give them work by which they will earn enough to live in a respectable way. The general opinion is to drive them out and get rid of them from the neighborhood where they are not desired, yet no suggestion is made for their welfare."

Asks a Question.

Mr. Mackay asked the question, "How many homes in the city would take an unfortunates woman into the family?" and answered it by saying that he did not think there were many. He said the women of the underworld are all over the city and in some of the best residence districts. He warned mothers that their sons are in greater danger now than ever by being led astray by these women.

"The men who framed and passed that law," said Mr. Mackay, "knew no more of the evil conditions of a large city than the women from the good homes of the city know about the conditions of lower Dodge street after 10 o'clock in the evening. A man may come from a dive and go into the best home in the city and the woman he has been with is shoved right down the road to hell."

Suffrage the Remedy.

The one thing which the speaker thought would do more toward helping the moral conditions of the country and doing away with the big social evil problem, is woman suffrage; the vote of the women would raise the scale of women's wages and allow them to live in a respectable way on a decent income. Help the victims in the masses and less legislation will be needed.

The negative side of the question was told by Mrs. C. J. Roberts, president of an Omaha chapter of the Women's Christian Temperance union.

"In segregating these immoral places we simply give them license to run and the police use their discretion in enforcing the law for these places of vice," said Mrs. Roberts. "Were Christian people to see to it that laws which are passed for controlling social evils were enforced conditions would be improved."

"At the close of the meeting a rising vote on the repeal of the law was taken and there was a unanimous vote against it."

BALKAN CRISIS MAY BE SETTLED WITHOUT GENERAL CONFLICT

(Continued from Page One.)

Balkan allies dropped out again at Salonika. The Bulgarians who followed the Greeks into the city telegraphed to King Ferdinand that the town was now under his sceptre. These incidents are arousing the ire of the Greeks, who have now called out the national guards of the class of 1896-7, indicating that they expect to be fighting for some time yet.

A letter received in London from a member of the American embassy in Constantinople depicts the terrible condition of the Turkish wounded arriving at the capital. The staff of the embassy assisted by the local branch of the American Red Cross society is taking care of some 2,000 of these wounded Turkish soldiers, but is greatly handicapped by the lack of hospital necessities.

The letter adds that the Turkish government has lost control of the city and seems helpless.

Wounded Die of Exposure.

One correspondent in describing the poor ambulance service of the Bulgarians, whose wounded are driven for miles in jolting ox carts says this is not the worst part of their suffering. He continues:

"After several battles the wounded were left lying on the bare fields where they had fallen for two or three hot days and bitterly cold nights and the worst sights in the hospitals are the rows of poor fellows with swollen and gangrened limbs for whom there is no hope of recovery."

The correspondent adds that many are dying from exposure and not from wounds.

An "Old Turk," writing to the newspapers to deplore the defeat of his country, says it would not have happened had Abdul Hamid been retained on the throne. He continues:

"Our true sultan has now returned to the city of the faithful and this fact has caused a greater sensation in the Ottoman empire than all the reverses our troops have suffered."

He predicts that Abdul Hamid within a few weeks will be restored to the throne in Constantinople and owing to the dissensions of the powers part of the Turkish empire will be saved to it.

Greeks and Servians Apart.

ATHENS, Nov. 12.—The Servian and Greek armies have not yet joined in front of Monastir, where it is reported 50,000 Turks, under Ali Risa Pasha, are preparing for a vigorous defense. The Greek gunboat Alphonse, patrolling the coast of Epirus, was fired on off Valona by concealed riflemen. The gunboat replied, destroying part of the customs house.

The king's consent has been asked to summon further classes of reserves to the colors. Bitter comment is appearing

CANAL TOLLS FIXED FOR FOREIGN SHIPS BY PRESIDENT TAFT
(Continued from Page One.)
fund of 1 per cent to retire the Panama canal bonds, and still find a yearly balance.
Heavy Foreign Traffic.
The Johnson report shows that a foreign traffic of about 9,000,000 tons may be expected through the canal during its first two years of operation; a traffic of more than 11,000,000 tons in 1920 and 14,000,000 tons in 1925. Although not maintaining that his estimate is final, Prof. Johnson declared that an increase of 60 per cent a decade in tonnage could be looked for and that this would make the canal self-sustaining in twenty years.
Prof. Johnson's defense of the \$1.20 rate for merchant vessels is based on several grounds. It reads in part as follows: "A toll of \$1.20 per net ton on loaded merchant vessels and a reduction of 40 per cent from the standard rate in the case of vessels in ballast will place the Panama canal on an equal competitive footing."
In the president's proclamation the rate upon war vessels was fixed at 50 cents a displacement ton and Prof. Johnson has this comment to make: "The tolls upon merchant vessels should be fixed low enough to enable the Panama canal effectively to promote the commerce of the United States and the world, but the United States government is not called upon to make the Panama canal tolls upon warships low for the purpose of lightening the naval burdens of foreign countries in sending their warships through the Panama canal; foreign nations should pay tolls high enough to cover costs and risks incurred by the canal authorities in performing the service rendered."
BODY OF CANALEJAS IN STATE
(Continued from Page One.)
however, did not know that Pardinias had arrived in the Spanish capital nor have they learned anything of his doings here before the crime.
The assassin worked at his trade as a painter in Tampa, Fla., for some time, having gone there from Havana, Cuba. He left Tampa as recently as last January and is assumed to have gone from there to Buenos Aires.
Reported from Cuba.
HAVANA, Cuba, Nov. 12.—Manuel Pardinias was deported by the Cuban government as an anarchist early this year.
TAMPA, Fla., Nov. 12.—Manuel Pardinias, assassin of Premier Canalejas of Spain, worked several months in the city last winter as a sign painter and decorator. Representatives of several foreign countries were warned at the time to watch him as he was known to have anarchistic tendencies. Pardinias was from Havana.
SOLDIER COMMITS SUICIDE AFTER TWO DAYS' DEBAUCH
SHERIDAN, Wyo., Nov. 12.—(Special Telegram.)—A two days' carousal came to a tragic close this afternoon when David S. Ingle, a private in Company F, Eighteenth infantry, stationed at Fort Mackenzie, shot and instantly killed himself in a house in the north end of the city. The bullet entered the right temple before committing the deed. Ingle wrote a letter to his mother in Indiana indicating his intention of ending his life.

Wilson Praises Address by Taft
PRINCETON, N. J., Nov. 12.—President-elect Wilson said today that in his informal visit with the New Jersey congressional delegation at Trenton he had been able to talk only with William Hughes, senator-to-be from New Jersey and Representative Tuttle as to what they thought of an extra session of congress. Both had expressed themselves in favor of the extra session, he said.
The governor read President Taft's speech in Washington predicting that under a democratic administration the south would have a greater share in the national government and that sectional lines would tend to disappear. "It was a very generous speech," he remarked.
Judge Will R. King, democratic national committeeman from Oregon, had an appointment with the governor today.

Wilson Takes the Lead in California
SAN FRANCISCO, Nov. 13.—Wilson took the lead over Roosevelt in California at 10:45 this morning with a plurality of forty-seven votes. With thirty-eight counties officially reported out of fifty-eight, and five precincts missing, four of them in Wilson territory, the grand totals stood: Wilson, 283,192; Roosevelt, 283,148.
These figures did not include a further gain for Wilson of sixty-four votes, resulting from the official canvass of the vote in Los Angeles county. The canvass there is about three-fourths complete.

TAKE THIS MAN'S ADVICE
TRY THE GREAT KIDNEY REMEDY
It always gives me pleasure to recommend anything that is right and so I feel it my duty to herald the praises of Dr. Kilmer's Swamp-Root.
For years I was troubled with kidney disease and it was so intense that I was bedridden for days at a time. I gave up all hope and doctors for miles around gave me no help. Incidentally I tried Swamp-Root. From the first it gave me relief and it was no time before I was able to be up and around and now I am perfectly well and able to work as I used to before my terrible sickness.
So now let me thank you for your wonderful discovery and take this opportunity to recommend it to all who suffer from kidney troubles.
Yours very truly,
WALTER SHIRVER,
Hope, Ark.
