

DUN'S REVIEW OF TRADE

Trade in United States Gives Evidence of Further Expansion.

STATISTICS TELL OF ACTIVITY

Large Volume of Business Doing in Primary Dry Goods Market, with Practically All Prices Well Maintained.

NEW YORK, Nov. 23.—R. G. Dun's Weekly Review of Trade today says:

Trade in the United States shows further expansion, reports from different sections and all statistics of traffic and exchanges speaking loudly of a great activity that in many respects is bounded only by the limit of capacity.

In iron and steel the leading interest is operating at above the par capacity. Current book orders continue to exceed production, with railroad requirements forming a large share of the new business. Estimates indicate that more than 2,000,000 tons of rails have already been closed for next year while Chicago reports the sale of 30,000 tons of cast materials, practically all of which is for delivery during the second half of 1913.

In the primary dry goods market there is a large volume of business, with prices in practically all instances well maintained. Jobbers of cotton goods are making liberal purchases of domestics and staples for the winter season. Cottons have stiffened. In woollens there is an active demand for overcoatings for immediate delivery and desirable goods bring full market rates. Considerable business has been offered for the mills for the heavyweight season, but comparatively few orders have been placed. A very active trade is moving in worsted knitting yarns and cotton yarns have sold freely at firm prices.

BRADSTREET'S TRADE REVIEW

Business Channels Running Full, with Optimism Predominant.

NEW YORK, Nov. 23.—Bradstreet's today says:

Trade channels are running full, with optimism predominant and this despite widespread evidences that the year is a bar to fullest activities in final distribution. Still in this very matter of unseasonably high prices, there is a degree of complaint, it is to be noted that mild climatic conditions are and have been in high degree favorable to agriculture and transportation interests.

The strength of prices and of demand in the textile trade is a subject of interest. Dry goods are in active demand from mill to retailer though mild weather hampers retail demand for heavy weight goods. Cotton goods are strong and print cloths and brown cottons have advanced in price with commission men in the yarn trade, both cotton and woolen lines are strong and active. Raw wool of the old clip is in heavy supply, in normal demand and firm in price.

Best reports as to jobbing and retail trade come as heretofore from the northwest and southwest, and where house trade has fallen off, as in the case of some middle range orders have more than made good the deficit.

Southern trade, as heretofore, tends to lag somewhat behind the other sections. Real slowiness is manifested only at a few southeastern points.

Operations in the iron and steel lines continue as active if not more active than heretofore.

Business failures in the United States for the week ending November 21 were 238 against 300 last week and 238 in the like week of 1911; 212 in 1910, 217 in 1909 and 193 in 1908.

Business failures in Canada number thirty-six, which contrasts with thirty-three for last week and thirty-four in the like week of last year.

Wheat, including flour, exports from the United States and Canada for the week ending November 21 aggregate \$714,537 bushels, against \$717,884 last week and \$692,440 the week last, for the twenty-one weeks ending November 21, exports are \$1,563,732 bushels, against \$1,578,815 in the corresponding period last year. Corn exports for the week are \$5,464 bushels, against \$4,624 last week and \$4,821 in 1911. For the twenty-one week

Four Generations in Omaha

STANDING: MRS. EARL WALLACE, SEATED: MRS. LOUISE LEEDER AND MRS. ELIZABETH CHRISTIE, MISS LORRAINE WALLACE IN FRONT.

Mrs. James Christie, a resident of Omaha since 1891, celebrated her eighty-seventh birthday at the home of her daughter, Mrs. Charles Ahlquist, 2215 North Nineteenth street, Monday. Four generations gathered to the celebration—Mrs. Christie, Mrs. Louise Leeder, her daughter; Mrs. Earl Wallace, Mrs. Leeder's daughter; and Miss Lorraine Wallace, Mrs. Christie's great-granddaughter.

Mrs. Christie was born in Dundee, Scotland. She came to America shortly after her marriage and settled in Philadelphia, where she lived until she came to Omaha. Her husband was employed in the Union Pacific shops until thirteen years ago, when he died. Mrs. and Mr. Christie at first made their home at Thirtieth and Cass, "where the other people were."

"It was nothing but a cornfield out here," she said, "and we wouldn't have ventured out this far without the men-folks, for fear of Indians."

ending November 21, corn exports are 1,018,224 bushels, against 1,002,550 last year.

McMANIGAL ON OMAHA JOB

McNamara Censures Him Because it Was Not Done at Exact Time.

CHILD PLAYS WITH DYNAMITE

McNamara Laughs When He Sees McManigal's Little Girl Playing with Explosive and is Ordered to Leave.

INDIANAPOLIS, Ind., Nov. 23.—Explosions of nonunion structures in Milwaukee, Omaha and Springfield, Mass., were explained by Orin E. McManigal at the "dynamite conspiracy" trial yesterday as having been done by him shortly before he and James B. McNamara, arriving in Detroit, to "clean up" that city were arrested with suit cases filled with dynamite.

When McManigal destroyed part of the Douglas county court house at Omaha on March 24, he said he was "called down" because he did not cause the explosion to occur at exactly the same hour James B. blew up a job at Columbus, Ind., a telegraph signal having been arranged to send word, when he was ready to John J. at Indianapolis.

For weeks before his arrest he testified, he had observed he was being followed and had seen strange heads appearing around the corners of elevator shaft in the iron workers headquarters in Indianapolis.

Surrounded by Detectives. "I told James B. before we started for Detroit, that William J. Burns had detectives after us, that detectives were even coming up near the vault where we stored the dynamite and that one of them followed me on the street when I was going with a suitcase of dynamite to blow up the South Chicago job," said McManigal.

McNamara said if he saw any more of them we would go to Chicago and rent a room next to Burns' office, put an electric wire through the walls and arrange to set off a bomb at Burns' desk when he was sitting there. That would end our troubles with him, he said. "I told him I did not think we would ever do anything of the kind or get near Burns. That was about April 5, 1911," McManigal said. He and McNamara were arrested seven days later.

For blowing up an unloading hoist and damaging a steamer near the docks in Milwaukee on March 16, with a loss of \$2,000. McManigal said, he received the compliments of John J. McNamara for the "best job he ever did."

Girl Plays with Dynamite. McManigal's story of finding his little daughter in the kitchen of his home in Chicago playing with eighty one-pound sticks of dynamite which he had left on a radiator to thaw was told by him today. The girl, he said, was on the floor with the dynamite and James B. McNamara, the Los Angeles Times dynamiter, was testing a battery on the door bell.

"J. B. laughed when he saw my little girl toying with the explosive," said McManigal. "He said, 'Tell papa what she is doing.' My little girl replied: 'Why, it's dynamite. I know it won't hurt me,' and kept on playing. She said she had seen boys in a vacant lot kicking about sticks that looked like dynamite."

"The way J. B. laughed made me mad and I ordered him out of the house," Joseph Schwartz, Chicago, was arrested this afternoon on a federal warrant charging him with attempting to obstruct justice by intimidating Cornelius J. Crowley, Monica, Pa., a government witness in the dynamite cases. Crowley said Schwartz in the presence of a detective told him not to testify to the truth.

Schwartz after his preliminary hearing before the United States commissioner was held to the federal grand jury. Crowley, who was called to testify concerning nitro-glycerin hidden by the dynamiters at Rochester, Pa., testified that Schwartz accosted him in the federal building and attempted to induce him not to testify.

Schwartz denied the charge, saying he had only remarked he had "rather have his heart cut out than be McManigal."

Term in Prison for Man Who Broke Monte Carlo Bank

PARIS, Nov. 23.—Charles Wells, alias Lucien Hiverre, James Burns and Deville and known also as "the man who broke the bank at Monte Carlo," was sentenced today in the correctional court to a term of five years in prison and to pay a fine of \$69 for fraud.

Wells was arrested at Falmouth, England, last January for a bucket shop swindle in Paris, out of which he is said to have realized 1,000,000 francs (\$20,000). His scheme was to promise to pay investors 1 per cent per day on all money deposited with him. When he had obtained a large amount from victims he decamped. Previously Wells had purchased a magnificent fitted steam yacht and it was on board this vessel in Falmouth harbor that he and a woman companion were arrested. Later he was brought here for trial.

Wells is credited with twice breaking the bank at Monte Carlo in the early 90s. Two of his coups were made five one day. His winnings were said to have been about \$300,000.

Miners Victorious in Kanawha Strike

CHARLESTON, W. Va., Nov. 23.—What is believed to forecast the end of the great coal strike in the Kanawha coal fields of West Virginia was announced today in a signed wage agreement between the union miners and the officials of the National Bituminous Coal and Coke company. The agreement practically recognizes the union, provides for an increase of about 21 per cent in wages, reduces tonnage, permits the miners to organize, provides for a nine-hour workday and gives the men now on strike preference if they should desire to return to work.

WESTERN SUFFRAGISTS VICTORIOUS IN CONVENTION

PHILADELPHIA, Nov. 23.—Through the defeat of a constitutional amendment providing that the delegate present from each state or affiliated organization should cast the full vote to which that state or organization is entitled, provided that at least one-fifth of the delegates were present, delegates from the western states were victorious today in the first contest that has developed in the women's national suffrage convention.

NEGRO HELD FOR SELLING PICTURES TO OMAHA MEN

MINNEAPOLIS, Minn., Nov. 23.—(Special Telegram.)—Joshua Everest Perry, a negro, was arrested today, charged by the government with sending obscene pictures by express in interstate commerce to Omaha. Bail was fixed at \$5,000. A hearing will be held tomorrow. Through information furnished the inspector's office by Detective Martinson and Duffy of Minneapolis, a package of pictures addressed to Harry Altshuler, Omaha, was traced through the mails. The package was called for by Altshuler and John H. Keck, both of whom were arrested in Omaha.

TWO TROUSER BUTTONS WERE DECAUX'S MASCOTS

Although Charles Decaux claimed to have been robbed of \$5, all the money he had, he showed greater concern over the safety of two small trouser buttons at the police station than he did over the \$5,000. "Save them two buttons; put 'em in the package!" he yelled when the officers were putting his effects into a package after he had been searched. The two little black buttons had been overlooked on the sergeant's desk. "I have to have

Pimples Ruin Good Looks

But Cheer Up! In a Short Time Stuart's Calcium Wafers Transform Worst Complexions Into Perfect Loveliness.

Many a sigh and heartache have been caused by pimples. But never mind. You will shortly get rid of all those spots and blemishes by using Stuart's Calcium Wafers.

The action of these Wafers is wonderful. They make the skin become out just as your lungs expel impurities. Every minute of the day and night the wonderful Wafers keep the pores busy.

Instead of clogging the pores in the form of pimples, blackheads, eczema, rash, liver spots and other skin eruptions, these impurities cease to gather, they dry up and Nature soon gives the skin the bloom of youth and health.

If you would have a beautiful complexion, please stop using cosmetics. Can you not realize how they plaster up the pores? Were you to cover your entire body with such a mask, you would die in a day or two.

Stuart's Calcium Wafers are very pleasant to the taste, are put up in convenient form to carry, and can be obtained at any drug store, at 50 cents a box.

Make your dreams of a lovely complexion come true. In a short time a very bad complexion is transformed to perfect loveliness.—Advertisement.
