FARM & BANCH LANDS FOR SALE. GRAIN AND PRODUCE MARKET

Russia Offers Wheat in Increased Volume to Balkan States.

ARGENTINE IS A BIG FACTOR

Although the Weather Continues Favorable Over the Corn Belt the Movement to Market is

Reported as Light. OMAHA, November 30, 1912 From the present outlook nothing short of war will help the wheat buils out of their present holdings. In the face of the present situation in the Balkans. Rissus is offering its wheat in increased quantities and growers there are willing to meet the views of buyers in order to place at least a part of the grain that is now available and for which the sale is

quite slow.

Russian holders fear the Argentine will come to the front with its usual rush of receipts of new wheat and that the southern hemisphere growers will force their grain upon the markets of the world, and that in order to dispose of a portion of their surplus, Russia will be found to cut the price at which Argentina has disposed a goodly portion of its grain, in our own northwest the receipts are certain to continue right up until they are partially cut off by storm, weather and the stocks then are likely or grow larger, and larger, it may be said until they are partially cut off by stormy weather and the stocks then are likely to grow larger and larger. It may be said that Canada is turning every stone in order to get rid of a part of the wheat now held in that country. The situation of Buffaio could hardly be more discouraging to the holders than at the present. The harbor there is as tight as a drum because of so many boatloads of wheat held there and there is no help for this condition until next spring, when the railroads are given the grain to haul to the seaboard for export. Cash wheat is \(\frac{1}{2}\)0 for \(\frac{1}{2}\)0 lower.

seaboard for export. Cash wheat is 1/40 lower.
The dountry offerings of corn continue light. The weather is perfect and continuation of the same undoubtedly will bring about a free movement. Traders say they can see nothing bullish, however, and continue to favor sales of May corn on all hard grades. The corn market opened lac higher in Argentina this morning cash corn was unchanged.

There may be free covering by oats shorts during the present week. The receipts continue moderate, but traders see nothing in the general outlook. Cash oats were lac lower.

CATTLE-Receipts today were of no consequence, practically nothing at all being received in the yards. For the week the receipts foot up 18.425 head, being a failing off of 14,000 head as compared with

failing off of 14,000 head as compared with last week, but larger than a year ago by over 2,000 head.

The supply of desirable steers was very moderate throughout the week, and as there was a good buying demand prices gradually strengthened up until at the close of the week the market is right around 25c higher than it was a week ago. This is true of good westerns as well as of confeds.

Cows and helfers were active sellers all the week and they too, have shown about the same advance as heef steers, being generally 25c higher than last week. The market as a whole has been in very satisfactory condition, trade being active

market as a whole has been in very sailsfactory condition, trade being active.
The supply of stock cattle and feeders throughout the week was at no time very large, but still the intervention of a hollday naturally kepa a good many would-be buyers at home. Still the market has steadily firmed up and at the close of the week is 25c higher than last week.

Quotations on Range Cattle—Good to choice beef steers, \$5.2595.75; common to fair steers and the speculators were made around \$5.7597.75; and at \$7.80 top for the day, which was paid for a few good loads. A little later in the morduing the packers resorted to their bearish tactics and in the end the bulk of the packers droves was picked up at figures around \$7.6907.75. Today's their bearish tactics and in the end the bulk of the packers' droves was picked up at figures around \$7.6037.70. Today's trade differed from yesterday's market in that prices became lower towards the close instead of getting better, closing values snowing practically all the early advance lost. On the whole the movement was fairly active and the pens were fairly well cleared in very good season. Be-

was fairly active and the pens were fairly well cleared in very good season. Receipts for the day foot up in the neighborhood of 123 cars or 9,250 head, as compared with 7.716 head last Saturday, 6,498 head two weeks ago and 6,748 head on the same day a year ago.

For the week the supply amounts to, in round numbers, 48,290 head, as against 69,400 head last week, 48,290 head two weeks ago, and 34,699 head during the same week a year ago. The average price of hogs at the close of the week is about steady with a week ago, the bulk of the hogs today selling at a range of \$1,600,776, as against \$7,600,779 last Saturday.

110 ... 6.75 94.....)47 ... 7.40 SHEEP-As usual on a Saturday no fresh supplies of sheep and lambs arrived at the vards this morning, thus values femalized nominally the same as on Friday's market.

One of the outstanding features of this week's trade has been a marked falling off in the receipts as compared with the previous week and the same time two week's ago. The supply however, was

weeks ago. The supply, however, was considerably larger than for the corresponding week a year ago. Chiefly under the influence of a very meager supply of decent killers the fat lamb and sheep ponding week a year ago. Chiefly under the influence of a very meager supply of decent killers the fat lamb and sheep trade was active on most days and values have shown a substantial advance over the close of last week. All this improvement in the local trade has taken place in spite of the fact that the eastern trade in dressed mutton has shown weakness and some uncertainty during the greater part of the week. Closing quotations on fat lambs are fully styles nigher than a week ago, with the best fed wetern lambs on Friday's market selling readily at \$7.55 as against \$7.25 on Monday, Really prime lambs were exceptionally scarre on most days of the week and sold at the highest point yesterday. Fartially in symistry with inphe, prime handyweight yearlings have also shown considerable improvement, the advance on them amounting to fully half a dollar. A double deck of the best fed yearings reached \$2.50 yesterday, as compared with \$1.75 during the previous week. When considering the size of the receipts there was a very creditable showing of fat ewes and wethers are a good strong quarter higher than the close of last week, mostly everything of that class meeting with a ready sale. The highest price paid for fat ewes was \$4.30, while wethers commanded as much as \$4.60.

The feeder lamb and sheep trade has been active and while there has been some change in prices on lambs, very little, if any, improvement is noticeable on sheep. The market on the general run of lamb offerings may be regarded as about logico better than prices prevailing at the nd of last week. The grades of feeder lambs weighing from \$9 to 60 pounds sold up to \$8.50, while the bulk has been active and while there has been some change in prices on lambs, very little, if any, improvement is noticeable on sheep. MISS MAGEE MAKING PLANS

Fund Raised for Mission by Wrestling Carnival to Pay Expenses,

BUILDING WILL BE IMPROVED

Work of Mission Doubles When New Quarters Are Occupied-Many Rooms in Need

of Repairs. Proceeds of the charity wrestling carnival, to be given for the benefit of the City mission on the night of December 20, will be devoted to clearing away miscellaneous debts on the mission, meeting running expenses of the winter months and making needed repairs and improvements in the new building, lately acquired by the mission. So said Miss Nellie Marce, superintendent of the mission, yesterday afternoon as a conference with Peter Lock, who is financing the carnival, and the committee of newspapermen which will superintend the sale of seats and look after all other finances

for the mission.
"It will be a godsend to us." said Miss Magee. "We certainly shall be able to put the money to good use. It will not be used for Christmas dinners or toys for the children. These are provided for, "We don't care what it is used for." said Mr. Lock. "After you get it we are through. You know how to use it to advantage and we don't. There won't be any strings to it. I don't care what you do with it.

Mission Work Donbled. "This is a large building we have," said Miss Magee. "It is going to cost a good deal to maintain it, but it will be worth all it will cost. You see we can't go to the people who have made this building possible for us with requests for further help. The building is not in the best of condition. It needs repairs. Some alterations must be made. We shall not be able to utilize it all this winter or next spring, because we have not the funds to get it into shape. The building should be theroughly cleaned. You can't teach

cleanliness in a dirty building, your know." "Since we came into this building our work has doubled. That, of course. means increased expense. It must be met some way. Everything cannot be done at once, we know that. What you are doing for us will help a let. It will put us on our feet and enable us to take long steps toward establishing different departments of the work that looked to be a long way off before your benefit was decided upon."

Repairs Needed.

Miss Magee showed the committed through the new building-four stories and basement. Many of the rooms cannot be occupied to advantage until carpenters and cleaners have gone over them. When the funds are available to nake necessary atterations and purchase necessary furniture and equipment Miss Magee plans to fit up a domestic science room, in which girls will be taught plain cooking; class rooms for boys and ment a dormitory for women who are without work and are in need of temporary shelter; and many other department rooms which will make possible extension of the

mission's work.

tells a story of love and politics. Mr. Belasco has staged many plays of this type, but none of them has surpassed, it is said, this story of the political struggle between Robert Gray and Mathew Culver for the office of United States district attorney-nor does the story end with the political contest. Of course the pretty wife of Senator Rutherford figures strongly in the play, as does the Senator himself. The dramatic moments Egg Plant, fancy Florida, per doz., 11.50.
