REAL ESTATE GRAIN AND PRODUCE MARKET

Statistics to Come Forward on Wheat to Help Bears.

VISIBLE SUPPLY IS INCREASED Fractional Advance in the Prices of Corn During Last Few Days Due

to Buying by Professionals in Chicago. OMAHA, Dec. 2, 1912.

There is little doubt that the statistics to come forward on wheat today will greatly favor the bears. The visible supply will show a further pronounced increases and in addition to this there will be increases in the stocks at nearly all the principal markets of the country. It is said by those who have watched conditions most closely that the deliveries on the December contracts are from 1,000,000 to 2,000,000 bushels. The former figures, however, are selected as nearer the mark than the latter. World's shipments will be somewhat smaller, and a decrease in the amount on ocean passage is looked for and while these two litens may be said to favor the buils they are of little consequence at the present. While the recent rains in Argentina may possibly have ocused some losses to the new wheat crop, the yield there will be a bumper affair, and advices say that the quality will be excellent. The harvesting of wheat will commence in that far away country within a few days and it will be nushed as rapidly as possible until the harvesters reach the southern limits of the wheat belt. Steamers are said to be on their way to Argentina, having been assured cargoes of wheat, and, in addition to these supplies, Australia will soon become a larger shipper. These conditions point to the fact that the United States and Canada, both of which have liberal wheat stocks, will have to meet States and Canada, both of which have an liberal wheat stocks, will have to meet the figures of Argentina in order to dispose of grain now on hand and for which there is no demand. Cash wheat was 147% to lower.

there is no demand. Cash wheat was sirtle lower.
Following a long drawn out decline in the price of corn, there are more friends to be seen of this grain than in some time. The fractional advance in prices the last few days has been due chiefly to buying by Chicago professionals. Traders say they do not look for any important change in prices right away, but favor sales of the May option on hard spots. The weather has been fairly good in the last week over the belt, but snow and rain are looked for. Cash corn, to lower to it higher.

Liquidation by longs in December oats was on a liberal scale last week, but there is considerable of this selling yet to be done. The buying will likely pivot on the cash trade, which has dwindled down to smaller proportions. Cash oats unchanged to it higher.

Clearances were: Wheat and flour equal to 1.191,000 bu; corn, 55,000 bu; oats, 566,000 bu.
Liverpool closed with wheat

equal to 1.191.000 bu.; corn, 55,000 bu.; oats. 553,000 bu.
Liverpool closed with wheat \$4954d lower.
Primary wheat receipts were 2.131,000 bu. and shipments of 1.884,000 bu., against receipts, of 1.652,000 bu. and shipments of 192,000 bu. last year.
Primary corn receipts were 942,000 bu. and shipments of 514,000 bu., against receipts of 1.257,000 bu., and shipments of 500,000 bu. last year.
Primary outs receipts were 905,000 bu. and shipments of 224,000 bu., against receipts of 589,000 bu. and shipments of 512,000 bu., against receipts of 589,000 bu. and shipments of 415.0000 bu. last year.

NEW TORK, Dec. 2.—The supreme court's decision in the Harriman merger case upset the stock market today after a listless morning session. The announcement from Wachington was followed by an outburst of selling, with Union Pacific as the especial object of attack. There were inrea sales of Southern Pacific as well and virtually all of the favorable stocks, including industrials as well as railroads, shared in the movement. Union Pacific broke 25 points, Southern Pacific 1 and eRading, Steel, Amalgamated and other prominent shares a lesser amount. The market met with prompt support at the lower level and prices quickly railled. The decision was unexpected to many persons and the first implies was to sell, but on second thought there was a decided change in sentiment. Logses were largely made up, and the Harriman issues scored their best figures for the day. Union Pacific preferred was bought theavily and at one time showed a gain of 6%.

The upward movement was attributed to speculative buying on the theory that the court's ruling would necessitate a distribution of Union Pacific holdings of Southern Pacific. Some of the Harriman bond issues also advanced in the bellef that their retirement night be made necessary as a part of the adjustment which must now be made. Southern Pacific count's decision, however, opened up so many possibilities for speculation as to the effects of the readjustment that the trading element was confused and movements of securities were erratic. Before the class the market were erratic.

trading element was confused and move-ments of securities were erratic. Before the close the market became heavy again. The effect of the unfavoruble bank statement of last Saturday was shown in the continued stension in the money market. Call loans rose steadily from an in the continued steusion in the money market. Call loans rose steadily from an opening at 10 per cent until 16 per cent was touched. Late in the day the rates fell back to 8 per cent. Fingagement of a large share of the South African gold offered in London today by New York bankers did not serve to quiet appresensions as to the future course of money rates. Stocks were unaffected by money conditions, prices having held firm until the market was upset by announcement of the Harriman decision. The chief influence of high money rates was to reduce speculation on the Stock exchange to a minimum.

Some of the specialties developed marked strength in the early part of the day. Rubber rose to the high point touched in the movement last April and Tobacco issues were buoyapt.

Aside from the Harriman issues the general bond market was firm, although there was a shading on values in a few isolated cases. Total sales, par value, \$2,50,000. United States bonds were unchanged on call.

changed on call.

points rendered the market on cornfeds slow and weak and as much as 10c lower in some cases. The quality of the cattle was on an average not very good, which fact contributed somewhat to the general duliness of the trade.

Cows and helfets were slow in getting started and while buyers evidently wanted them they were includined to await later advices from other selling points before filling orders. Thus the trade dragged along during the greater part of the forenoon, but still the big bulk changed hands in fair season, Prices ranged anywhere from weak to as much as 10c lower.

There was a good demand for some lines and the season.

There was a good demand for stock cattle and feeders and buyers of that kind were out early in the morning, with the result that the market was reasonably active at prices right around steady with last week. As a matter of fact some of the most desirable cattle were stronger, if anything.

the most desirable cattle were stronger, if anything.
