> Outline of Work Mixed. The outline of the winter's work seemed nextricably mixed, as renators and con-

gresamen met in friendly conferences, with the prospect of tariff revision in office for the month of November: the special session that is to assemble trol on all tariff problems, even with the great increase in membership that is to come with the new congress.

The reassembling of the house drew together a host of men, long prominently identified with republican affairs in that Agricultural college endowment body, to whom the elections had brought political disaster. Among them were Nicholas Longworth of Ohio, John Dalgell of Pennsylvania, Ebeneper J. Hill of Connecticut and John A. Why Women Are Not RICH.

Man is a millionaire many times over in the possession of blood cells. Woman is not quite so rich, for scientists have proven that the normal man has five million—the woman only four and a half million to a cubic millimetre of blood.

A decrease in number of red blood corpusales and a person "looks pale"—in
fact, is anaemic, the blood does not get the right food and probably the stomach in
disordered.

Ore R. V. Pierce found years ago that a glyceric extract of golden seal and Oregon grape roots, queen's root and bloodcoot with black observybark, would belp the assimilation of the food is the stomach, coerced liver ills and in Nature's own way increase the red blood corpuscies. This medicine he called Dr. Pierce's Golden Medical Discovery. By assimilating the food caten the system is nourished and the blood takes on a rich red color. Nervousness is only "the cry of the starved nerves for food," and when the nerves are fed on rich red blood the person looses those irritable feelings, sleeps well at night and is refreshed in the moraing.
