Playgrounds Being Filled Up and Equipment Added as Scholars Provide It Through Their Own Contributions.

Organized play in the school departments of the city has won the commendation of Superintendent of Instruction N. M. Graham, who is successful in his plans of the work done by the teachers in this line.

John McKale, chief of the fire department of South Omaha, will inaugurate a movement this winter looking to the creation of a pension system for the fire department similar in some respects to the one now in operation in Omaha.

For the time being the department has been in the habit of giving occasional dances and entertainments in order to raise funds sufficient to do any work among themselves.

Whipping Post for Criminals Favored In Baldwin's Talk

RICHMOND, Va., Dec. 4.—Restoration of the whipping post for certain classes of criminals and sterilization for others were advocated by Governor Baldwin of Connecticut today in an address before the fifth annual governors' conference.

Gov. Shafroth of Colorado in which Governor Shafroth advocated lenient but certain punishment to criminals and cited his own state as an example where this system had worked well.

Governor Shafroth declared severe punishment had proved no deterrent to crime. Certainty of punishment, in his opinion, with an opportunity to shorten the sentence through labor and good behavior, not only punished the criminal, but served alike as a deterrent against future crimes and incentive to reform.

HOW TO PRESERVE YOUTH AND BEAUTY.

One great secret of youth and beauty for the young woman or the mother is the proper understanding of her womanly system and well-being. Every woman, young or old, should know herself and her physical make up.

The womanly system is a delicate machine which can only be compared to the intricate mechanism of a beautiful watch which will keep in good running order only with good care and the proper oiling at the right time.

Very many times young women get old or run down before their time through ignorance and the improper handling of this human mechanism. Mental depression, a confused head, backache, headache, or hot flashes and many symptoms of derangement of the womanly system can be avoided by a proper understanding of what to do, in those trying times that come to all women.

Mrs. G. H. WILLIAMS, of Lynchburg, Va., writes: "It is six years since my health gave way. I had female trouble and all the doctors (I employed three) said I would die. I was not able to do my work, had to hire someone all the time. Finally, I read in the papers about Dr. Pierce's Favorite Prescription, and decided to try it. I had not taken but one bottle until I found it had done me good. I took, in all, five bottles of Favorite Prescription and two of Golden Medical Discovery, and now I am able to do all my housework, and have gained fourteen pounds. I advise all women who suffer from female trouble to use your Favorite Prescription. It is the only medicine on earth."
