The board will withhold \$5,000 of the contract price until the Pauly Jail Building company of St. Louis makes the changes the board believes must be made before the jail will conform to the plans and specifications. The principal change the board requires is the placing of countersunk rivets where they are called for by the plans and specifications and where the board asserts they have not been placed.

The Pauly people may contend that their rivets are countersunk, refuse to change them, and go into court to collect. the remaining \$5,000, asserting that the other alleged variations from the plans are immaterial.

Jury Finds Wadum Shot Buck Howard in Self-Defense

Charles Wadum, who shot and killed his brother-in-law, W. M. (Buck) Howard, Tuesday evening at Wadum's home, 3001 Decatur street, was exonerated by a coroner's jury, which found that Wadum shot in self-defense. The jury also recommended that he be released from custody, which will be heeded by the police this evening.

All the evidence tended to show that Howard came to Wadum's home with the avowed intention of "cleaning up the place." It also showed that Howard came to the house and proceeded to carry out his threat by choking his wife, from whom he has been separated for over two years, and then striking her. After taking his spite out on his wife he turned his brother-in-law, James Waaum, cursed him and then beat him. After threshing James Wadum, Howard struck Carmen Keiser, a relative, in the face.

62 player-pianos have been sold---only 38 remain PART OF ESTIMATE RETAINED to be disposed of to this big club of 100 members

This is the largest player-piano club ever formed. It is the biggest player-piano event ever conceived in the history of the piano business. It is the first time in which player-pianos of such renowned makes have ever been offered for sale in such a wholesale manner. It is the first time, as far as knowledge goes, when such distinguished instruments have been offered for sale upon such popular terms of 9 dollars down and 2 dollars a week. Theretofore these great instruments have been offered upon such terms as would almost preclude even well-to-do persons from buying them. Now we come along and through the might of money and numbers, make it possible for any person of

What the Orkin Brothers playerpiano club means to the person who joins

The person who joins this club, in the first place, aside from any other consideration, gets a player-piano of known quality. There is no element of doubt or uncertainty. The Orkin Brothers Player-piano is as standard and staple as wheat. They are like 18 karat gold. The Orkin Brothers club player-piano is one of the pioneers of player-pianos. The Orkin Brothers club player-pianos has made the greatest strides of all player-pianos during the past 3 years. ¶ So, as we say, aside from any other consideration whatsoever, you can take your choice from the best line of playerpianos made-which is a good starting point, isn't it?

Comething specific about the Orkin **Brothers club player-piano**

G The Orkin Brothers club player-piano offered through this big club is the latest model. It has an 88note player-not a 65-note player. It plays the whole of the keys-not about two-thirds of them as did the old models. All late model player-pianos play 88 notes-the whole of the piano. As all regular pianos

have 88 keys-you wouldn't think of [buying a piano having only 65 keys

knocked him down and then proceeded to go after Charles Wadum.

Mackal

Charles Wadum has been suffering with cheumatism, for two months and was hardly able to walk. When he saw Howard beating his wife Wadum went to a front room and secured a revolver, which he put in his pocket. When Howard started after Charles Wadum the latter fired point blank, the ball entering Howard's heart and killing him instantly.

The jury after deliberating less than ten minutes returned a verdict of self-defense.

STERLING VALUE CASES, Frencer

would you? Then why would you buy a piano with 88 keys on the keyboard and a player built on the inside that will only play 65 keys?

The Orkin Brothers club piano is a

full size, upright grand, colonial design, and the player on the inside plays all the keys.

Then there is another point that should have special mention—the tempo artist lever. This one single device puts the Orkin Brothers club player-piano in a class by itself. It is this little is Called to Rest lever (about two inches long), and operated by the right hand, that makes a great piano performer out of every one. Instead of playing mechanically-with the tempo artist lever; you can play like

a great pianist. With the tempo artist lever you can control the time in which the piece you are playing should be played. With the tempo one brother, Henry Johannes of Balu- artist lever you give your playing every shade the composer intended. Let us suppose that there was not another single device on the Orkin Brothers Club Player-piano to make its player mechanism play like the human fingers (there are halt a dozen), let us discard them all, save this one alone-the tempo artist lever-still we would say that this one feature alone places the Orkin Brother Club Player-piano in a class unto itself.

If the The planes are of the most reliable and trustworthy sort-worth \$54 Orkin Brothers Club Player-Piano Club did not have another redeeming feature, this one of dollars each. We decided to sell the planes in this way, at 257 deliars and 56 cent. Do you know the regular terms on pianos like the Orkin Brothers Player-Piano? each We arranged to sell them without adding interest to the price asked. Let us tell you. Not less than 25 dollars down-and, more often, 50 dollars down-then 15 to 25 dollars We placed the payments at 5 dollars as the first payment, and 1 dol lar and 15 cents a week for the remaining payments. a month, with interest added at the rate of 6 to 7 per cent. We agreed to give club members their money back if a 30 days' trial of the plane was unsatisfactory. Club 9 dollars when you join, then 2 dollars a week without interest added-quite a difference, isn't there? We arranged a year's exchange privilage for members, which enables them to exchange their planes at any time within one year without mean-ing one penny's less. The keynote of this whole club proposition is, best player planos-best price-best terms-best everything. For the convenience of people who cannot come in during the day the store will be open evenings until Christmas We got up a life assurance feature for members, which cancels all payments in the evens of the dash of a club member. We figured out a rebate system so that those who want to pay faster than \$1.25 a week will prefit by it by getting a rebate of 15 cents in cash handed back for each and every week they pay in advance. **Orkin Brothers** Copyright 1913 by Stone & McCar-rick, Inc.
