The August of the Committee o OMAHA. Dec. 14. 1912.

There was a rumor on the floor yesterday that war had been declared between dustria and Servia. This caused many shorts to cover and it also developed a demand from investors. On a denial of the war fumor by many concerns in the trade there was heavy selling and the sarly buyers were obliged to accept losses. The exportable surplus in Argentina was again the subject of considerable discussion, as a leading implement house made the figures quite amail, while the correspondent of the Rosenbaum Grain combany at Heunos Aires placed the surplus at 140,000,000 bushels. The latter estimate was looked upon by the trade with more or less favor. These figures compare with an estimate of 111,000,000 bushels as the surplus of that country which was sent out to the wheat trade of the world by Broomball on Thursday and which was looked upon with disfavor by conservative and well-posted grain men. In addition to the enlarged Argentina exportable wheat surplus a cable was received from Heynos Aires which reported the weather there as clearing. This same table said that there is considerable uncertainty as to the final grop outcome, as well as the exportable surplus, and that these conditions are keeping the markets of the old world in an unsettled that reported an improved inquiry, but used that would-be buyers were returning to meet any advance in prices. The export business via the gulf was of moderate proportions, and James Carruthers of Montreal reported an improved inquiry. Dut was the loaded out during January. The wheat market is in a position where granuline was news or crep losses in the Argenting to meet any advance in prices. The extensity has been which reported the same time they have been suffering severe losses, for something to turn up that will help them out of the rut in which many believe they are now hidden. Cash wheat influence they have been suffering by the country, with the shipping demand of small proportions, and with export bids out of line, that plants are the same than the pr

Wheat displayed moderate attempth at first en account of Buenos Ayres reports of unsettled weather, that led to some anxiety about the Argentine harvest. There were also advices that export business was being done at Kamsas City. His clearances, from the eastern reabord tended further to help the bulls.

Increasing stocks at Minneapolis caused the wheat market to react a little in favor of the hear side, but no actual weakness developed until peace cables were at hand. Larger traders did most of the salling, with commission houses buying aparingly on the decline.

May wheat ranged from syndemic to soin, closing his down, at 25 c.

Flans of lillinels railroads to move a larger amount of corn eased the market for that erreal. The weather and increased rural offsrings counted also against the bulls. May fluctuated between themses of the pulls. May fluctuated between themses of the decline.

Quantook a downward turn, owing to a lack of demand. Outside limits topohed for May were like and Steller. The close at the first named figures meant a decline of his from last night.

Although provisions started firm because of hog receipts being light, the market later felt the affect of selling by packers. At the finish January pork showed the greatest change, a fail of the

London Stock Market.

LONDON, Dec. 14.—American securities provided the sensation of the week on the stock exchange. The decline of 18 points in Union Pacific, without a definitely known cause beyond heavy New York selling, but the market in a state of chaos for a time. Fortunately, deally care here were principally spectators, but the market fears the outcome of condinated selling in other sections to meet losses in the American departments. Amalgamated Copper and Canadian Pacific also slumped badly, but the rest of the list remained comparatively quiet and closed from 1 to 6 points lower. Canadian Pacific loss 5 and Union Pacific II points.

Clearing House Bank Statement.

NEW YORK, Dec. 14.—The statement of the actual condition of clearing house banks and trust companies for the week shows that they hold \$8,074,650 reserve in excess of legal requirements. This is an excess of legal requirements. This is an exact of \$5,009,450 from last week. The statement follows:

Actual condition—

ber 3, and only about half of what showed up a week ago, two weeks ago or on the same day last year. The quality in general was very fair for this time of the year.

With such a light run at the yards the packer buyers were the chief factors in the trade and set out bidding prices about a nickel lower for the bulk of the good hogs. It was a case of sellers asking a little more money with packers bidding a triffe lower, and after some dickering a compromise was made, the majority of the offerings moving at a range of prices steady with yesterday's general market in other words the bulk of the hogs sold around \$1.0027.15, with several loads reaching \$7.20, top for the day and identical with yesterday's highest price. On the whole the early movement was active, with trade apparently slowing up some at the close. The pens were cleared in good season.

The average price of hogs today makes the general run of sales around 40346c lower than the end of last week, the bulk of the hogs a week ago bringing prices at \$7.5037.30, as against \$7.1037.15 today, as compared with \$7.20 today. Receipts for the week were fairly large, there being around \$2.700 head yarded, as against \$6,400 head last week, \$4.200 head two weeks ago and \$5.300 head during the same week last year.

SUPREME COURT SYLLABI

J. Hamer. J. concurs separately as to conciusion, but dissents as to reasons given.

1. Where parties entitled to the possession of land, in arranging for the commencement of an action to recover such possession, execute to their atterneys a quit claim to an undivided half of such land under an agreement that such deed is to be held as security only, for the services to be rendered by such attorneys in their behalf, such deed is in effect a mortgage and does not render it necessary to join the grantees therein named as plaintiffs in such action.

2. "The decision of questions presented to this court in reviewing the proceedings of the district court becomes the law of the case, and, for the purposes of litigation, settles conclusively the points adjudicated." Anheuser-Busch Brewing association against Hier, 61 Neb. 582.

3. In the trial of an action in electment where the undisputed evidence clearly establishes the right of possession to be in one of the parties to such action, it is not error for the court to direct the verdict.

4. The instruction given by the trial

swes brought \$4.35, as compared with \$4.40 last Friday. The consensus of opinion is that prices on fat sheep in general are quotably 150725 higher than values at the end of last week.

The feeder demand was limited most of the week, the only inquiry for anything on that order being for shearing lambe or for short fed stuff, to be taken to the country for the second time.
