## Regents Ask for Cash For State University

(From a Staff Correspondent.)  
LINCOLN, Dec. 19.—(Special Telegram.)—Partial removal of the university to the state farm, entire removal or enlargement of the present campus were three propositions proposed by the regents of the state university in their report filed with the governor today. They make no recommendations, but simply propose the different plans, and then put it up to the legislature.

The attendance at the university this year is 2,667, as against 4,624 last year. The apparent decrease is due to the fact that students of the school of music are not registered, as heretofore. Appropriations asked for are: Agricultural extension, \$2,000; repairs, \$40,000; substitutions, \$5,000; medical college, \$50,000; Curtis Agricultural school, \$50,000; and \$500,000 is asked for the purchase of land and additional buildings at the university farm; \$30,000 for North Platte substitution; \$10,000 for furnishings and fixtures for Omaha Medical school; \$15,000 for mounting and housing telescope; \$2,000 for bureau of botany; \$6,000 for conservation commission; \$3,000 for entomology bureau; \$10,000 for geological survey; \$15,000 for hog cholera serum plant, and \$10,480 for legislative reference bureau.

Prof. Bingham said the exploration was conducted chiefly at Machu Piccu, which was discovered on the previous expedition. The city stands on a plateau, surrounded by precipices 2,000 feet in height. A hundred burial caves and ruins of baths, houses and palaces were laid bare. Prof. Bingham added that the jungle will soon cover them again unless steps are taken by the Peruvian government to keep them open.

"On this trip," said Prof. Bingham, "we had a good deal of trouble with the Peruvian government. On the two expeditions I had previously made into Peru I had no trouble at all, but the ministry had changed and those in power at present were not at all friendly to American exploration."

Irene's mother last Sunday took her to Holmes square, a downtown playground for children. The mother left the square for a few minutes, Irene remaining, playing with other children in the swings. When Mrs. Justin returned the child was gone. Irene's playmates said a negro man and a negro woman had told Irene her mother was ill and wanted her at once, and that she had walked away willingly between the negroes. After searching the streets for an hour the mother reported the matter to the police. No trace of the girl has been found.

Stor's Triumph Beer  
BEST YOU CAN BUY

St. Louis, Mo., June 7, 1912.

Bankers Life Insurance Co.,  
Lincoln, Nebraska.  
Gentlemen:

Nothing makes me so seriously and meaningly "look backward" as the maturity of one of your Investment Bond Policies. With all my heart I certainly kicked myself for being such a "crazy mut" as I was at 21, in taking only a \$1,000.00 Policy.

Your man walked into my office with a check for \$426.95—just like it blew out of the sky. I only set myself back \$25.81 a year for twenty years; now you come along and give blame near all of it back to me and a brand new policy paid up for life, which is to draw me a few dollars dividend every year, and as I am pretty husky yet, I will no doubt get enough out of these dividends to put me up to the scratch. I paid you \$516.20; you paid me \$426.95; my insurance cost only \$89.25, or about \$4.46 a year for \$1,000.00.

Why didn't I take \$5,000.00 when I was only 21? I could have handled it just as well as not. I fooled away more than \$100.00 a year which might have gone into your hands in this splendid investment.

Now I am 41, and must pay nearly \$50.00 for the same policy, but, believe me, I am going to get in the game again and have given your man Hummel my order for a \$2,000.00 policy of the same kind, but will try to pay out in 15 years instead of 20 years this time.

So wishing you continued success and trusting all young men will see the wisdom of a policy in the Old Line Bankers Life of Nebraska, I am, sincerely,  
HARRY M. WILSON.
