This page is recognized as the best medium for advertising materials used in the construction or furnishing of a home. It is the only "Home Builders" page in the state, and brings results that no other paper can guarantee. Words are beautiful, but results speak the most potentially.

The beauty and comfortableness and convenience of any home or building is marred unless the plumbing and heating equipment is of a high standard. Continual trouble with plumbing fixtures is one of the sources of much worry and expense for the owner of a building. Today builders are making sure when they put in the heating and plumbing appliances that the work is well done—that the firm which does the work is known for the character of its results. The firm of J. J. Hanighen Company, 617-23 South Fourteenth street, stands as one of the leading heating and plumbing establishments in the middle-west. Practically all the work done in the large buildings of this city has been in charge of the Hanighen company. The standard of the work and the fine quality of it makes this firm a leader. The views above give an idea of the beauty and practical utility that is attained by the Hanighen Co.

The Kewanee Smokeless Firebox Boiler will keep your own premises clean—it will keep you from being offensive to your neighbors—it will help you to observe the city's smoke laws and save you approximately one-quarter of your fuel bill. That ought to be enough for any self-respecting business man who believes in the laws of health and business.

This boiler comes within the provisions of the strongest smoke ordinance in America. And not only that, but it likewise gives you the maximum amount of steady heat and adds comfort to its other benefits. The Kewanee Firebox Boiler is generally known to be the best heating boiler in the world. Now add to it the device to prevent smoke and you have the greatest boiler that science has ever devised.

If you want definite proof and the names of men who have bought this boiler and profited by it, write to us and we will send you fac simile letters from big firms everywhere, together with figures that can't lie. We will also give you the reports of Robert W. Hunt & Company, the engineers, who have tested the Kewanee Smokeless Firebox boiler on several occasions and know just what it is and what it can do. "The proof of the pudding," etc.

KEWANEE BOILER COMPANY
