Two Officers Shot in Riot at the Jail in Marion, Iowa. CEDAR RAPIDS, Iowa, Jan. 4.—With a bottle of nitroglycerin in his hand, Harvey Lee, charged with burglary, held a squad of officers at bay in the county jail at Marion, six miles from here for nearly an hour early today. In the riot which followed Officer Charles Gillen of Cedar Rapids fell dead with a bullet wound through his breast and Detective John Cook was shot through the hand. Lee claimed he had no pistol and the officers today admitted they found no weapon on him. Who fired the shot which killed Gillen has not been ascertained. Later developments today in the attempted jail delivery at Marion indicate that the explosions came from within and that Lee had been provided with nitroglycerin by some visitor. Lee first blew off the lock of his cell and was attempting to blow out the bars in his window when the officers appeared. Sheriff Loftus was awakened by an explosion in the rear of the jail. Before he could dress a second explosion occurred. He then discovered that the telephone wires had been cut, but finally got into communication with the police department here. A squad of six officers was sent to the scene. After Gillen was killed, the remaining officers rushed Lee and overpowered him. The prisoners were demoralized, but had not attempted to escape. They were brought to Cedar Rapids for safekeeping. Sheriff's deputies are searching for the men who attempted to liberate Lee. The jail wall was only slightly damaged. The job apparently being the work of inexperienced men. Nitroglycerin had been used.

Five Persons Die, Two Injured When Train Hits Buggy

DENISON, Ia., Jan. 3.—Five persons were killed and two probably fatally injured when a Chicago & Northwestern train struck a buggy one mile north of here shortly before midnight. The dead are: JOHN EVERS, SIX-YEAR-OLD SON OF EVERS, JOHN REIMERS, MRS. JOHN REIMERS, FIVE MONTHS OLD BABY OF THE REIMERS. The injured, John Reimers, aged 6, and Minnie Reimers, 14, were taken to a local hospital, where, it is said, neither can recover. A sharp curve at a point just east of the crossing made it impossible for Engineer Charles Wheeler to see the buggy until it was too late to stop before striking it, he says. Neither of the two Reimers children was able to tell why their father started over the crossing as the train approached, but it is thought the cause of the sharp curve and that the noise of the vehicle made it impossible for him to hear the train approaching.

BUILDING IN CHEYENNE BLOWN DOWN BY GALE

CHEYENNE, Wyo., Jan. 4.—(Special.)—A fifty-mile-an-hour gale raged for several hours here during the middle of the day. The west wall of a brick dwelling belonging to Theodore Thiele, in the course of erection on Randall boulevard, was blown down at noon. The crash of falling bricks and timbers was heard for half a mile. That no one was hurt was due to the fact that Contractor Wines had his workmen had left the building to go to dinner before the wall fell.

On Thursday Judge Arthur handed down an opinion finding in favor of Mrs. Horner, who is entitled to all of the estate by reason of the agreement between her mother and Mr. and Mrs. Crisp by which she was to be legally adopted and was to become their sole heir. After Mrs. Horner's marriage Mrs. Crisp made a will cutting out three different heirs, including the property to Mrs. Maxwell, her brother's wife. Notice of appeal was filed by W. H. Killpack, attorney for Mrs. Maxwell, who has accepted the offer of the lawyer. The property involved is valued at about \$15,000. Council Bluffs, Omaha and Nebraska City High schools. They have a game scheduled with Whiting on January 17. Sheriff Lindsey performed his first official act yesterday. It was one of benevolence and mercy, although it involved a dispute with a bad tempered building contractor. The new sheriff got a call from J. C. Albertson, a farmer living four miles from town, telling of a sick man there who seriously needed attention. The man was a stranger, who gave his name as James McShanon. He was found early Thursday morning in a building near the city, where he had sought shelter. He was taken to the house and cared for and found to be ill from a severe attack of the grip. Sheriff Lindsey brought him to town in an automobile and placed him in Mercy hospital. A bulidog about a yearling age disputed the sheriff's right to take away the sick man or come upon the farm, and before the dispute was adjudicated the dog satisfied his ambition with a small piece of official trousers, which he carried away as a memento.

ARRANGEMENTS ARE COMPLETE

Session to Be Held During Latter Part of Present Month and in Charge of Experts from Ames. Arrangements were made yesterday for the Agricultural college short course to be held here, January 20 to 25. A meeting of the promoters was held at the court house and all final details worked out and the instructive course fully guaranteed. About thirty of the leading farmers of the county were present and each one had something to do or say. The small number whose names were found to be satisfactory to a yearling sale, which was conducted on modern scientific lines, was made president of the organization. Secretary Towne of the Commercial club acted as secretary and will also act as secretary of the organization. Representatives were appointed for every township in the county. Their chief duty will be to arouse local interest among the farmers and secure their attendance at the school. Each of these township heads was instructed to appoint six assistants, who will help sell the short course tickets. The short course will be in charge of experts from the Ames college and will be the regular part of the university extension work, a sort of enterprise that is bringing the university to the men who cannot go to the university. Fathers and sons will be enrolled among the pupils. C. S. Lyle, former pastor of the Methodist church at Logan, attended the meeting. He has left the ministry and is now a member of the Ames faculty. He made a most entertaining and instructive talk to the farmers, outlining the work of the university in doing through its extension work, and inspired all present with much of the enthusiasm he felt for it. A contract was made with the Auditorium company, by which the building and its annex will be used for the course. The company contracted to furnish the building, heated and lighted for the week for \$200. The annex is to be used for the instruction in stock raising, and the various animals used for the purpose will be housed there during the school. Mr. Lyle inspected the building in company with George F. Hamilton and E. L. Dugan, and became enthusiastic over its adaptability for the purpose of any other great public gathering. Regarding the acoustic properties, he declared it was the best building for public speaking he had ever been in. The full course of instruction will be prepared by the college men and will be announced later. You say you never read advertisements? Yes you do, you are now reading this. Well, here goes. Another Fatal Case of Spinal Meningitis

Yesterday morning Gertrude Elnora Hansen, 10 years old, died of cerebro spinal meningitis. The child was the daughter of Mr. and Mrs. P. C. Hansen, 218 South Nineteenth street. She apparently arose in her normal health Thursday morning, but became ill soon after. Her condition, however, was not such as to excite alarm, and a physician was not called until some hours later. The progress of the disease was so rapid that when Dr. Hombach was called it had advanced too far to permit any hope of relief by the administration of anti-meningitis serum. The child was taken ill at 9 o'clock and the true character of the disease could not be determined until 3 o'clock. Hypocritical ministrations of opiates were given at intervals of only a few minutes, but appeared to have no effect. The physicians pronounced it to be the disease in its most virulent form. Five weeks ago the child was operated upon for appendicitis and had only been out of the hospital three weeks. She had been away from home but very little and all attempts to locate the source of the contagion proved fruitless. The home is not far away from the Sheller residence, where the first case developed, but the families are not acquainted and the children have never met. Both families, however, send the children to the Second Avenue school. Mr. and Mrs. Hansen have three other children, the oldest 14 and the youngest 6 years of age. All are under strict quarantine. They lost two children in a recent 42-day epidemic of scarlet fever from the Sheller's school.

"Y" BASKET BALL TEAM DEFEATS CUBS, 32 TO 36

Before the largest crowd that attended a basket ball game this season the Council Bluffs Young Men's Christian association quintet defeated the Council Bluffs Cubs last night at the local "Y" by a close score of 32 to 36. The game was hotly contested from 11:30 o'clock until the referee's whistle at the final. Superior team work of the "Y" team was too much for the Cubs, though when they had chances at free throws they men failed to get the ball in the basket, and thereby lost many points that would have counted in their favor. The features of the game were the basket tossing of Montgomery, Crowl and Hendricks and the passing of Gertsen and Growl. Both Montgomery and Crowl scored the same number of points, each getting five baskets and six free throws. The Cubs took the lead when Gertsen shot the first basket, but the "Y" five soon passed them when fast basket shooting of Harry Crowl and "Doc" Hendricks put them in the lead. Score end of first half: Young Men's Christian association, 18; Cubs, 12. The Cubs gained a slight lead in the second half, but could not hold it, as they failed to score points on free throws. Each team scored fourteen points in this half. The "Y" quintet having a lead won the game by six points. Lineups: Y. M. C. A. Gertsen, Thomas, L. F. I. P., Morrison-Def. Hendricks, C. C. C., Montgomery, Growl, P. B. R. G., C. W. Smith. Goals from the field: Thomas 3, Crowl 5, Hendricks 6, Morrison-Gertsen 2, Montgomery 6, Deffenbaugh 2. Free throws: Ponda, 1; Peterson, 2; Gertsen, 2.
