Omaha Cornhuskers Get Behind Giant Entertainment for Visitors.

STILL MORE VAUDEVILLE ACTS

Local Committee Makes Arrangements to Have Fine Program for Amusement of All and Does Not Neglect Eat, Either.

In their efforts to put on the finest banquet and entertainment of its nature ever attempted, the Cornhusker alumni of Omaha have arranged a fine program of amusements, which includes acts by players from the best variety and legitimate playhouses of the city. Only yesterday another act was added, two players from "The Auto Girls" company, now resting in Omaha a week before opening an engagement at the Krueger, were placed on the list of special attractions. Another cabaret entertainer also was engaged, bringing the total number of players up to a high count.

The professional performers are enthusiastic about the big affair and "The Alpha Four," now appearing at the Gasety with the Ed Lee Wroth show, have arranged some special songs and will present with their own piano player. The amusement feature of the program is to be started promptly at 7 o'clock, this being done in order that some of the performers may return to their playhouses in time to begin the evening engagements.

Not Much Speaking.

The Cornhuskers have put the spotlight on the oratory and no man is going to talk more than five minutes. A few prominent men are to speak, but there will be little after dinner talking. It is to be a get-together-for-Nebraska banquet and entertainment and the committee is arranging all matters so that everyone present will have a splendid time. The total list of visitors who will be present runs up higher than 150 and the number of persons present at the banquet probably will be more than 300. Practically all the local alumni of the state school have bought tickets, making the affair a certain success.

Sumner officiating, to restore the chapel to its condition of sanctity.

The robbers entered the cathedral by breaking a window. The crash of the glass awoke Sister Jeanette, in a dormitory adjoining, and she notified the dean, but as he hurried into the chapel the robbers escaped through a window with the gold and silver pieces they had taken from the altar.

CONTROL OF BIG BUSINESS

Bristow Has Plan for Supervision of Interstate Corporations.

LIKE COMMERCE COMMISSION

New Board of Seven Would Control Companies and Individuals with Annual Receipts of Five Millions.

WASHINGTON, Jan. 6.—Senator Bristow of Kansas presented to the senate today a proposal for an industrial commission of seven members to take over the work of the bureau of corporations and exercise control over all persons, firms or corporations doing an interstate business with gross receipts of more than \$5,000,000 per year. Explaining the bill to the senate, he said that it proposed to create a body similar to the Interstate Commerce commission, to have the same power over industrial concerns that the latter exercises over the transportation companies.

"The purpose is to protect the people with some degree of promptness from the extortionate practices of powerful corporations without destroying the business they represent," he said. He declared the proposed commission and the powers given to it would not "interfere with his business operations if such operations are along honest and creditable lines." He declared that the Standard Oil and Tobacco trust cases had demonstrated that the courts were ineffective for the supervision of big business.
