Some choice offerings made a top of \$7.25. To describe the market in another way the majority of the heavy grades moved around \$7.2097.35, mixed loads \$1.1007.15, and light stuff from \$1.10 down. As the quality of the supply in general was not as good as yesterday values are really better than the figures indicate. Trade was more active and not hearing so uneven as on the preand not nearly so uneven as on the pre-vious day. Recause of so much fluctua-tion on Tucsday's market it was possible to pick out sales this morning that looked weak, some steady and others higher and on that account comparisons were hard to make. While trade displayed no more than a fair degree of activity a satisfactory clearance was made in good

scason.

Receipts amounted to about 108 cars or 7,300 head, being almost twice as large as last Wednesday, but less than half what arrived on the same day one year ago. For the first three days of the week the supply was about the same as during the same time last week, but only

PIGS.

SHEEP-More strength developed in the sheep trade this morning and as a re-sult the bulk of the lambs and aged sheep suit the bulk of the lambs and are a heap sold anywhere from strong to as much as logisc higher. This advance took place in spite of the fact that receipts were again of fairly liberal volume, there being a broad demand for anything at all desirable as killers. The most improvement was noted on fat yearlings as a bunch sold as high as \$7.50 during the first hours. Ewes also sold to a good advantage, a three car shipment bringing as much as \$4.85 as against a top of \$4.75 for choice ones on Tuesday's market. Lambs were in somewhat limited supply and nothing really fancy was offered. Several loads, however, brought \$5.75, identical with the highest point reached yesterday. Some shorn lambs commanded \$7.75. Trade on the whole displayed con-Cline & Christie 32 ... Yesterday. Some shorn lambs commanded Other buyers 434 ...
