The United States government is continually collecting and publishing such prise that includes butter, eggs and facts; thousand of strangers are continually passing through our borders who spread there facts to the ends of the braska has his correspondents in other states, and other countries, whom he keeps informed as to facts coming under his observation.

Don't you think all that is about advertising, let me call your attention to the well-known fact that for the last twentyfive years we have had an advertising agency in our Bureau of Labor and Industrial Statistics, which, by law is required to "collect, collate and publish ntatistics and facts relative to manuresources of the state." Does not that cover the ground pretty thoroughly? For the next two years Governor John H. years, including a small deficiency, the last legislature appropriated \$5,856.12. What is the matter with that? How

much more is wanted? The proposed law would be benefit to the farmers of the state, to the laboring men, to the business men of our villages and towns or to those drawing of some benefit to promoters, manufacturers, real estate men and the railroads, but would be of bonefit most particularly to the men who would draw the

salaries. The point that such advertising would bring in men to buy homes is not well taken. The tendency would be rather to encourage our farmers to sell their farms to nonresident capitalists and move to town, or to Texas, California, Canada, or elsewhere, as they have been doing for several years past so that we are fast becoming a people of renters instead of a people of farmers who own the soil they till and are boond to the state by
