Perhaps Never Again In Your Life Time Will There Ever Be as Great a Scarcity of Telegraphers-Be as Loud Crying Demand For Telegraphers as That Existing Today

Now comes your great opportunity. It's when telegraphers are scarce that salaries are high. Then it is when chances to climb high in railroad circles, using telegraphy as your steepling stone, are greater.

The big railroad men of today—the men making \$5,000.00 and \$15,000.00 a year—nearly \$0 per cent of them started in as telegraphers—when telegraphers were scarce—and the railroads of today need nearly ten times as many telegraphers were scarce—and the railroads of today need nearly ten times as many telegraphers were scarce—and the railroads of today need nearly ten times as many telegraphers today as they did ten years ago.

We simply cannot supply the demand for telegraphers, big as our school is. Hardly a day passes but what the superintendent of telegraphy of the Union Pacific R. R. or the superintendent of telegraphy of some other road isn't calling on us for more, more telegraphers and telling us to use every last effort to urge you young men to take up telegraphy at once—to come jere, and in a few months become telegrapher. They declare, "Get them, and we'll gladly give them positions. We need them. They won't be given the old-time helper's job rustling trunks and doing janitor work for one or two years before being put upon the regular schedule of pay. And just as soon as you get through reading this ad and are ready to request a copy of the catalogue, also ask for copy of the schodule of pay for telegraphers on the Union Pacific R. R.

You'll be surprised at the fine salaries you will receive. Investigate this opportunity!. It may be the step that will lead you into your chosen field—into which you will fit best—in which you will grow greatest.

Don't he content with what we say about it. If you wish, write personally to the Superintendent of Telegraph of the Union Pacific R. R., and you will find that they will confirm every word of this announcement—and will urge you to through our big file chance. Call here at the college—let us conduct you through our big file chance. Call here at the college—let Electrical Utilities Exchange, 352 Bee Bldg.

Declares for the Stenotype

Within the last year a practically new profession has come into being has grown out of the necessity for faster transactions of business details.

So Now We Have the Profession of Stenotypy

This is the profession that provides the need felt in the business world for a more accurate record of all dictation—a speedier record of all dictation than that hitherto supplied by shorthand. The Stenotype recently enabled one 17 year old girl to record dicta-

of 595 words per minute—beating the best record ever achieved by any shorthand writer by almost two to one—and without the use of shorthand hooks, loops, dots or dashes. Are you interested? Would you like to know more about the Steno-

Don't you want to pay us a visit and have the Stenotype demonstratto you?

We invite you. Or if you can't call, write for special booklet about the Stenotype which will be sent with our regular catalogue.

New classes in all departments will be organized tomorrow and every
