American Organization Completes Tabulation of Players.

SHOW SOME HIGH AVERAGES Doring Last Season Each Cut Don Over One Hundred Players as They Try to Steal

Banes.

The seven best throwing ratchers the American league last season we Carisch and O'Neill of Cleveland, Egs and Thomas of Philadelphia, Henry Washington, Schalk of Cleveland as sweeney of New York, these men can bur demon base runners like Clyde Mila Ty Cobb and Tris Speaker, who won the Chalmers trophy, to think twice befo they set out to steal,

Carisch, who joined the Naps late in th weasen, had the highest average of me thrown out per game in attempts steal-1.29-while Sweeney, who was hold-out when the campaign starte nevertheless entered the Hilltop can in time to flag more would-be bar stealers than any other maskman in the American league. He cut down 114 men who attempted the Haffles act. Stanage of Detroit ran a close second to Sweeney in the number of athletes he killed off who were out to filch bases, nailing fill Sweeney's record, however, looks much superior to Stanage's when It is considered that the New Yorker played in 110 games to the Detroiter's 119.

Poorest Thrower. The poorest throwing catcher, according to carefully compiled records, was Paddy Livingston of Cleveland. He stopped only nine thefts in nineteen contests, an average of 0.47 the game. Other poor peggers were Kocher of Detroit. Williams of New York and Easterly, who beld situations with both Cleveland and Chleago.

The greatest number of men thrown out trying to steal in a major league is, according to statisticians; seven. Charles 'Duke") Farrell got this number of vicins when he was eatching for the Washington Nationals in the late '90s. Parrell will help coach the Boston Red Sox pitchers this year.

Another veteran row drawing salars from an American league club who established a major league record in nipping base runners is Jim McGuire of the Pigers. When he was with Brooklyn in 1900 he saved a game for the Superbas by picking three men off the bases in one inning. This feat never has since been duplicated.

If Tris Speaker was asked his opinion as to which club possessed the best staff of throwers in the junior organization in 1912, he would probably reply New York. The reason for such an answer might be found in the running account of the game played between the Highlanders and the Speed Boys on June 22, when Speaker, who thrice started to steal, was cut down each time-twice by Sweeney and once by Sterrett. Another player who was halted thrice when he tried to pilfer was Martin of New York, The man who stopped him was Henry of Washington.

It was the clever base runners who were oftenest thrown out. Thus Ty Cobb was cut down thirty-four times. Clyde Milan thirty-one times. Tris

## Pimples Source of Great Danger

May be Means of Absorbing Disease Germs in Most Unexpected Manner.

The research laboratory of The Swift ecific Co. has collected a vast amount information regarding the spread of sod diseases. In thousands of instances blood diseases. In thousands of instances the most virulent types have been the re-suit of coming in contact with disease germs in public places, and the apparent ly insignificant pimple has been the cause. It spreads with astonishing ra-pidity, often infecting the entire system

in a few days.

It is fortunate, however, that there is s remedy to cope quickly and thoroughly with such a condition, and thanks to the energy of its producers the famous S. S. S. may not be had at almost any drug store in the civilized world.

This preparation stands alone among specific remadles as a blood purifier. It specific remarkes as a blood purifier. It is somewhat revolutionary in its composition, since it accomplishes all that was over claimed for mercury, iodides, arsenic and other destructive mineral drugs, and yet it is absolutely a purely vegetable product. There are more cases of articular rheumatism, locomotor, staxis, paresis, neuritie and similar diseases result and from the use of minerals than from diseases germs direct. These facts are disease germs direct. These facts are irreught out in a highly interesting book complied by the medical department of The Swift Specific Co., 127 Swift Bldg.,
Alianta. Ga. It is mailed free, together
with a special letter of advice to all who
are struggling with a blood disease.
Get a 11.00 bottle of S. S. S. to-day of

## OPEN NEW RALSTON FACTORY

Commercial Club Men Visit Omaha Furniture Manufacturing Co.

#### FIFTY AT WORK IN BIG PLANT

Hotel and Ludge Room Furniture, as Well as that for Home, Being Made-Howard Works Visited.

Omaha dedicated another of its big manufacturing plants yesterday, the Commercial club placing upon it the stamp of approval and officially starting the machinery moving. The plant is that of the Omaha Furniture Manufacturing company at Raiston, Omaha's newest and one of its most thrifty suburbs. At 1:30 o'clock in the afternoon fifty

members of the Commercial club boarded a special car on the Raiston line and under the personal escort of M. C. Powell, manager of the Omaha Furniture Manuinspection.

Organized last summer with a capital stock taken by local people, the Omana Furniture Manufacturing company bought a site at Ralston, where trackage on the Burlington could be had. Here the construction of three buildings was completed last month. The buildings are three-story brick and cement structures, all modern and all built on what is known as the "daylight" plan. This means that The groom is a prominent stock buyer of the lighting is perfection. The wall space of the buildings is about one-half glass, thus affording workmen an abundance of are hung at the centers and swing in and

As a result he is the head of a furniture factory that 'is souipped with the best of everything mod ern and is located in buildings that have been propounced the equal of any in the

country.

The wheels in the factory turned for FINLEY J. SHEPARD the first time less than thirty days ago and, while but little has been attempted aside from getting the plant ready, a large number of orders have come in, buyer filled and sent on, all of them giving the

Fifty People at Work. At this time the company is working on hand has found it necessary to increase the force. It being the intention to

The company is specializing in office otel and lodge room furniture and fix tures, but is putting out a full line of up holstered, parlor, bedroom and kitches furniture. It is making the highest grades possible, as well as cheaper sorts, it has its own light and electrical plant and its own saw and planing mills. It receives the lumber and material in the rough and works it into finished products.

Eighty at Howard Works Over at the plant of the Howard Stove works the Commercial club men found eighty people employed and all as bus as bees. Every part of stove making was in progress. Formerly only heating stoves were manufactured at the plant, but recently ranges of numerous types have een added, as well as a hot air furnace that is said to save the 40 or 50 per cen of heat that goes up the chimney from the average furnace and is lost. The sales of the Howard plant last month aggregated \$90,000, the high mark in the history of the business. The business has grown to the extent that next month Mr. Howard will add twenty men to his working force that he may catch up with orders that are ahead.

(Continued from Page One.)

need of the moral and material support Christian association, from officers of the of the powers to repair the evils of the war, to consolidate its position at Constantinople and to development of its vast Asiatic territories.

The note pointed out that the Turkish government could count on the efficacy of the benevolent support of the powers only so long as it deferred to their counsel inspired by the general interests of Europe and Turkey.

The Fowers then advised Turkey to con sent to the cession of Adrianople and to leave to them the fate of the Aegean islands.

Turkish losses in the naval battle with the Greek fleet off the Dardanelles on January 15 totaled four officers and thirty-six men killed, while 164 others were wounded.

In the course of the fight a Greek shell exploded inside one of the turrets of the Mrs. Russell Sage's gift was a point Turkish battleship Torgut Reis, killing and wounding every man in it and disabling both of the eleven-inch guns. The

The Turkish gunners declare that they

inflicted important losses on the Greeks.

May Surrender Adrianople. VIENNA, Jan. 22.-Turkey has decided to surrender Adrianople to the Bulgarians, according to a semi-official telegram

from Constantinople BERLIN, Jan. 22.-The reported willingness of Turkey to give up the fortress of Adrianople and to make peace on that basis is received here with skepticism The belief prevails that Turkey's reply to the note of the powers will show only an inclination to meet the wishes of Europe, so as to pave the way for further negotiations.

The Turkish embassy here also regards as improbable the report that Turkey is willing to cede Adrianople.

## Suspect in Corson Robbery Arrested

A young man tallying with the description given of one of the men who gagged, bound and robbed Mrs. Myrtle Corson facturing company, went to Raiston. The last week in her home on South Sevenplant during the afternoon thoroughly teenth street was arrested last night by was inspected, after which a visit was Detectives Dunn and Kennelly. At headmade to the plant of the Howard Stove quarters he gave E. S. Grant as his name works, where an hour or so was spent in and said that he lived at 408 North Eighteenth street. He denied complicity in the sensational robbery, but, nevertheless, he of \$100,000, all paid in and most of the will have to face Mrs. Corson today for possible identification.
