GOVERNOR PRODS UP LAWMAKERS TO PASS BILL FOR NEW BOARD

Executive Anxious to Clear Decks So He May Make Most Important Appointments.

SOME WANT TO KNOW DUTIES Will Not Accept Jobs Before Their Work is Outlined.

CAMPING ON GOVERNOR'S TRAIL Others Not So Anxious and Will Take Job, Anyway.

TO INVESTIGATE PENITENTIARY Senators Decide to Let Prison Committee Conduct Probe of State Prison Over Plan Proposed by Mr. Placek.

Would Rush New Bill. In the meantime the governor is anxious for a board of control bill to be passed within the next ten days so he can make up his board before the rest of the democratic party quits work and locates in Lincoln in hope of getting places on his board. Speaker Kelley introduced such a measure during the day.

Over in the House Fries of Howard, who is chairman of the committee on employees, is liable to go running for Auditor Howard because the latter demanded a certified copy of the names of employees entitled to pay before he issues warrants to them. Members of this committee take this action of the auditor as an affront, as they insist it is their intention to conform to the statutes in the number of employees put on the payroll.

But worse than the governor's fight with disappointed and to be disappointed office seekers and worse than any senate fight or any house fight, insofar as damage to the democratic party is concerned, is the fact that it is to lose temporarily its general custodian and general manager, who leaves Monday for Florida for a conference with his brother, W. J. Bryan. When Charles Bryan returns it is expected he will bring with him the program, thus making easy for the house and chief executive to get along with no trouble. And he expects to be back in ten days.

NEW BOARD OF CONTROL BILL Speaker Kelley Introduces Measure Along This Line. LINCOLN, Jan. 23.—(Special.)—The legislature will take no chances on that board of control to be appointed by the governor. Members of this committee take this action of the auditor as an affront, as they insist it is their intention to conform to the statutes in the number of employees put on the payroll.

The board is to have charge of the various state institutions and each board member is to visit all the institutions at least once every three months and talk with as many of the inmates as possible in order to keep posted on the conduct of

Maxims in Operation

Ever stop to think that not the maxim but the result that comes from its operation brings success? One personality lives anxious, unaware of it. Another strives hard to make ideal maxims live factors of his life and needs assistance in carrying out his purposes. A majority of men are in this "need of assistance" class. Some weaken their own powers in relying on friends. Others become independent and self-reliant by utilizing such maxims as Bee Wants afford in bringing about achievements—through quick results.

Use Bee Wants for calling help, good assistants, reliable men—for business or home needs—of the hundreds of other demands they can quickly fill.
