HEAD ITCHED AND BURNED

Ears Swelled Up and Got Raw. Scratched in Sleep and Made Sores. Used Cuticura Soap and Ointment. Now Well.

415 S. W. Boulevard, Rosedale, Kansas.—"My trouble commenced in my ears about fifteen years ago. My ears were red and swollen, and ran a thick yellow mucus. There were small pimples that had a thin yellow fluid in them. When they broke the fluid ran down on my face and neck, which was very painful. Sometimes this would all dry up and the skin would be dry and hot and crack open in places. Then it would all break out again. It itched and burned dreadfully. I would be awake nights for hours. I scratched in my sleep and made sores. Then this yellow fluid would come out of the sores. I suffered a great deal with my head itching and burning and it broke out in pimples around the edge of my hair on the back of my head.
