

MORE SORE SPOTS APPEAR

One Democrat After Another Gets Turned Down.

SHALLENBERGER FOR CABINET

Opposition to Bryan Hoping to Be Able to Lead Man from Alma as Secretary of Agriculture with Some Reservations.

From a Staff Correspondent. LINCOLN, Neb., Jan. 25.—(Special.)—Another good Democrat walked out of the office of the governor this morning, all covered with sore spots. This man lives in Lincoln, J. W. Rhinehart, and he had been promised the office of food commissioner, which yesterday was given to Clarence Harman, so he remarked.

Another man, who had been announced as a game warden, from Superior, Mr. Weaver, also went away, a very sad and more disappointed than appointed man. From the governor's office it was announced that Mr. Weaver had not been appointed, even though Mr. Weaver, himself may have given out the good news. It was all a mistake, which, of course, does not help the man from Superior.

In the meantime, Governor Morehead and the job hunting democratic party have not worried about the loss of General Custodios Charlie Bryan, who by the time he gets to Florida, will receive news which probably will tend to take some of the pleasure out of his visit. It is the report circulated at the state house this morning that ex-Governor Shallenberger turned down the job on the State Board of Control because his friends believe he has a good chance to become secretary of agriculture under President Wilson. It has long been known that such a place would be appreciated by the Alma man. Of course, the anti-Bryan faction is booming the ex-governor for the place. They pretend to hope for success, even though they realize a postcard to Mr. Wilson signed "C. W. for W. J. B." probably would put them out of the running. They are hoping that Senator Hitchcock may be able to handle some of the Bryan influence at Washington.

Arthur Mullen still has in his claim for \$500 for helping the court see that the Nebraska guaranty bank deposit law was constitutional. This claim was cut in two by the last legislature and then Governor Aldrich lopped off the other half, which left the late general manager nothing. Mr. Mullen made no charge for forcing the legislature to pass the bill. He believes he is entitled to pay for saving its bacon.

GLUT OF NEW BILLS CLOGS THE WHEELS AS BUSINESS LAGS

(Continued from Page One.)

HOWARD IS ADVISED TO PAY

Attorney General Gives Opinion on Employees' Salaries.

From a Staff Correspondent. LINCOLN, Neb., Jan. 25.—(Special.)—He follows the instructions of Attorney General Martin. Auditor Howard will draw warrants for employees of the legislature whenever employees present vouchers signed by the speaker or the president of the senate, unless the auditor is satisfied no labor has been performed.

When Speaker Kelley certified to a list of employees selected by the employees' committee there were eighty-nine names on the list instead of eighty-two. Auditor Howard asked the attorney general for an opinion as to whether he could pay more employees than the law allowed the legislature to hire. Attorney General Martin said the legislature had appropriated \$120,000 to pay the legislators and employees and in the appropriation bill directed the auditor to issue warrants upon certificates or vouchers signed by the speaker or president of the senate.

MANY BILLS ASK FOR CASH

Greatest Number of One Kind Devoted to This Subject.

From a Staff Correspondent. LINCOLN, Neb., Jan. 25.—(Special.)—Bills introduced in the house and printed are divided up as follows: Appropriations, 28; affecting agriculture, 2; appointments, 2; blue sky, 1; cities and towns, 2; constitutional amendments, 1; county boundaries, 1; corporations, 1; civil service, 2; drainage, 1; employees' liability, 7; elections, 5; fees and salaries, 1; township treasurers, 1; district judges, 1; district attorneys, 1; roads of the peace, 2; fish and game, 2; insurance, 1; irrigation, 1; labor laws, 2; liquor laws, 2; live stock and game, 2; medical laws, 2; marriage and divorce, 2; motor vehicles, 1; public schools, 15; railroads, 17; revenue and taxation, 1; commerce, 5; roads and bridges, 15; state boards, 2; state fiscal agent, 1; telephone, telegraph and electric light company, 1; and university, 1.

SUGGEST A NEW LOBBY LAW

Some Would Have Provisions Extended to Executive Jobs.

From a Staff Correspondent. LINCOLN, Neb., Jan. 25.—(Special.)—The latest "general talk" around the legislature is for an amendment to the anti-lobby law, making its provisions apply to the office of the governor. The democrats insisted on the president telling just who recommended candidates for positions on the federal bench and it has been suggested that this democratic house could make a start right at home by having every person coming in to see the governor for a job for himself or a friend, register and file a statement just who he wants appointed or what job he wants himself.

COMMITTEE OVERRIDES CALCULUS

Assistant Sergeant-at-Arms Given His Walking Papers.

From a Staff Correspondent. LINCOLN, Neb., Jan. 25.—(Special.)—The senate committee on measures is so strong that it has overridden the senate caucus and has discharged an employee who was elected at the same time the speaker was chosen. Assistant Sergeant-at-Arms Timothy

RAPS AT EDUCATIONAL LAW

Teachers' Guild in Constitution Give View of Situation.

INVISIBLE MACHINE OPERATING

Declaration Made that Craft and Special Privilege Prevail to Alarming Degree Where Least Suspected.

From a Staff Correspondent. LINCOLN, Neb., Jan. 25.—(Special.)—The Teachers' guild of Nebraska, recently organized, has adopted a lengthy constitution and by-laws attached to a preamble which pokes at the present system of legislation in the state and nation and sets out the fact that superintendents and teachers are dominated by politicians and the schools are exploited by text book companies, teachers' agencies and supply houses.

The preamble says among other things: "The whole educational scheme of the United States is being carried on by a code of ethics which is sound in principle and binding in its effects upon teachers. The teacher or superintendent who stands against these influences encounters immediate hostility, and without the backing of an organized opposition from his ethical and professional ideals of public service encounters an organized opposition from an 'invisible machine' which operates through its own opinion and whose pernicious influence has retarded to a marked degree the higher standards of education in this country."

House Urged to Pass Bill to Protect Birds

WASHINGTON, Jan. 25.—The McLean bill, extending federal protection to all American migratory birds, has passed the senate without a dissenting vote and undoubtedly will be favorably acted upon by the house at this session. There seems to be absolutely no opposition to this measure, for which John Burroughs, Ernest Thompson Seton, Gifford Pinchot, Dr. W. T. Hornaday, the Audubon societies and practically all of the country's most prominent lovers of wild life, have united in a persistent endeavor for immediate action. In spite of the rush in the house to complete the work of this session at this session, there seems to be no chance that this bill will not be overlooked. The public sentiment for it is strong and the need for it is great.

"No question as to the constitutionality of a law extending federal protection to migratory birds can be successfully raised in the opinion of far better lawyers than I am," said Gifford Pinchot today. "The provisions of the constitution under which congress controls interstate commerce, and regulates the nation's rivers and harbors are ample to cover the protection of our migratory birds."

"We must get immediate action in this matter," continued Mr. Pinchot, who is deeply interested. "The state laws afford no real protection and never can, for the birds move from state to state, and their protection in one state often encourages their slaughter in another. Already some of our most valuable birds have entirely disappeared. Forests and crops suffer heavily because of the marked decrease of insect-eating birds. The loss to the country at large from the devastations of harmful insects can hardly be estimated. It probably runs into the billions annually. Against the birds are our only effective defense. Our forests and our farms need their protection badly. A young robin eats more than its own weight in insects every day. That gives some idea of what the countless thousands of our birds accomplish for us."

Stops Issuing Passes and Freight Falls Off

DENVER, Colo., Jan. 25.—John F. Vallery, general agent of the Chicago, Burlington & Quincy railroad, told Interstate Commerce Commissioner Harlan today that his road discontinued the issuance of passes in Colorado five years ago and that its freight business had suffered perceptibly in consequence.

Human Bomb is Convicted by Jury

LOS ANGELES, Cal., Jan. 25.—Carl Riedelbach, the "human bomb" who terrorized the Central Police station several months ago, when he entered it carrying an infernal machine and calmly announced that he intended to blow everything to "kingdom come," was convicted today by a jury on the charge of having deposited dynamite in an inhabited place. The conviction ended Riedelbach's second trial, the first having resulted in a disagreement.

ROCKEFELLER OFFERS MONEY FOR MISSIONS

CHICAGO, Jan. 25.—Announcement was made today that John D. Rockefeller had pledged \$50,000 to the Northern Baptist convention provided the convention raises \$100,000 more than last year, when \$150,000 was obtained. Mr. Rockefeller promised to give an additional \$50,000 if the convention can get a second \$100,000. The total of \$100,000 would be for use of six auxiliary societies of the convention, and be devoted principally to home and foreign missions and publication work. The Northern Baptist convention is a central body of the Baptist churches of the north. It has a constituency of 7,300,000.

WESTERN UNION LOSES CASE

Court Says Company Must Know Who Sends Message.

KIMBALL LEADS IN CONTEST

With One Day More of Counting, Council Bluffs Man Stays Votes Ahead of Goodwin in Fight for Senate Seat.

From a Staff Correspondent. DES MOINES, Ia., Jan. 25.—(Special Telegram.)—Responsibility for knowing that a telegram is sent by the person in authority was fixed by the Iowa supreme court today on the telegraph company sending the same. In a suit by the Citizens National bank of this city to recover \$500 from the Western Union Telegraph company, the court held that the company was negligent in delivering to the bank what purported to be a message from the United States National bank of Omaha three years ago directing the Des Moines bank to pay \$500 to one Clarence King without identification. It was shown that a messenger boy was called to the bank in Omaha to get the message and a stranger in the corridor gave it to him.

Kimball Nears Victory. The Pottawattamie county contest on senator was not finished today, but it will take one more day of counting ballots. At the close of the count today it showed Kimball, republican, sixty ahead of Goodwin; nearly every precinct made slight changes, but Kimball lost the most during the count of the day.

May Identify Assailant. It seems almost certain that Charles Briar, the wounded ex-fireman who was shot a few days ago by a robber, will be able to identify Thomas Burns as the man who assaulted him. Burns was taken to the hospital today where Briar declared that in all respects he resembled his assailant. August Suniak is also detained by the police as one who aided in the attempted murder.

Hotel Windows Are Broken During Riots

NEW YORK, Jan. 25.—A detail of 2,500 extra police was distributed through the hotel district today in an effort to check further rioting of striking waiters. Special officers are assisting the uniformed force and the sheriff is ready to swear in any number of deputies to cope with the situation. With these precautions taken, the Hotel Men's association said today that the idea of calling on the governor for the national guard had been abandoned.

Live Baby is Sent by Parcel Post

BATAVIA, O., Jan. 25.—Vernon O. Lytle, mail carrier on rural route No. 3 out of this place, is the first man to accept and deliver under parcel post conditions a live baby. The baby, a boy, weighing ten and three-quarters pounds, just within the eleven-pound weight limit of parcel post, was wrapped in "padding" of wool. The carrier got it today. Its measurement reached seventy-one inches, almost just within the law, which makes seventy-two inches the limit. Mr. Lytle delivered the "parcel" safely to the address on the card attached, that of its grandmother, Mrs. Louis Beagle, who lives about a mile from its home. The postage was 35 cents and the "parcel" was insured for \$50.

DESIGN FOR MAJOR BUTT MONUMENT IS ACCEPTED

WASHINGTON, Jan. 25.—Design for the memorial to Major Archibald W. Butt, personal aide to President Taft, and Francis D. Millet, the artist, two Washingtonians lost with the Titanic, was approved today by the president. The memorial, a fountain, with a shaft rising from its center, will be on public grounds near the White House. On one side of the shaft will be a figure in bas-relief representing art, and on the opposite a figure representing an armed knight. Daniel French, a New York architect, designed the memorial.

DEMOCRATIC LEADER IS ACCUSED OF EMBEZZLEMENT

CHICAGO, Jan. 25.—Robert E. Burke, former city inspector and a local democratic leader, was indicted today on a charge of embezzling \$50,000 of the county democratic funds while secretary of the organization. The indictment is the result of a fractional fight between members of the organization. Burke charges that the club owes him \$17,000.

Peculiar After Effects of Grip This Year

Leaves Kidneys in Weakened Condition. Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are very distressing and leave the system in a run down condition, particularly the kidneys which seem to suffer most, as every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to more serious sickness, such as dreaded Bright's Disease. Local druggists report a large sale on Dr. Kimmer's Swamp-Root, which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver and bladder remedy, and being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed by those who have visited so many homes. The symptoms of grip this year are very distressing and leave the system in a run down condition, particularly the kidneys which seem to suffer most, as every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to more serious sickness, such as dreaded Bright's Disease.
