## High Compliment to Sir Horace is Paid by President Taft

WASHINGTON, Jan. 28.-"In our workaday politics one gets just a little bit tired of the use of the term progressive by gentlemen who work no progress except for platform purposes, and so when we meet a man who has made progress for the people such as we are all seeking he is entitled to our respect."

That was President Taft's tribute to Sir Horace Plunkett, member of the English Parliament and originator of the scheme of agricultural co-operative finance in Ireland, at a banquet here tonight of the Southern Commercial congress. "We once thought in this country," the

president continued, "that we could not learn anything about agriculture from countries on the other side. Now we culate that unless we do something to improve agriculture we will have to import what we eat and be dependent on other countries.

"We have a great deal to learn and I have no doubt that from such men as Sir Horace we can learn a great deal. He has shown by what he's done and not by what he has said that he is a real progressive."

Sir Horace and Senator Fletcher of Florida also spoke on the proposed system of low credits for farmers of the United States.
