Lodge Pole Defeats Peru Alumni

LODGE POLE, Neb., Feb. 10.—(Special.)—The Lodge Pole High school basketball team defeated a team representing the Peru State Normal alumni by the score of 14 to 6. The game was played during the Cheyenne County Teachers' association convention, which was held here last week and was one of the fastest and most exciting games ever seen on the local floor. The game was exceedingly rough throughout and time was called twice to allow players to attend to injuries. The lineup:

LODGE POLE. ALUMNI. Barlow R.G. R.G. Chambers Dehruener R.F. R.F. McMillen Pavlov C.C. C.C. Deboit Kucera R.G. R.G. Lee Tate L.G. L.G. Cowin

DUSTY RHODES SIGNS UP WITH ST. JOE DRUMMERS

The St. Joseph Drummers will have at least one veteran pitcher of winning caliber during the coming season, for Charles "Dusty" Rhodes, a member of

Rheumatic Blood is Whole Story

Wonderful Specific for Sciatica, Lumbago, and a Cure for Dreaded Articular Rheumatism.

There is a host of pills, powders, tablets and what-not for rheumatism, but they all lack the first essential to being a natural medicine. To begin with, rheumatism is simply a name given to designate a variety of pains, and can only be reached by irrigating the entire blood supply with a naturally assimilative antidote. True, the pains may be eased with narcotics or the acids may be neutralized for the time being with other acids. But these merely temporize and do not even lead to a cure. There is but one standard rheumatism remedy, and it reflects the best thought of the day. It is prepared in the great Swift Laboratory in Atlanta, Ga., and sold in all drug stores under the name of S. S. S. at \$1.00 a bottle.

Starvation has been advocated by many as a cure for rheumatism, and yet S. S. S. accomplishes in fact what fastidists proclaim in theory and will out the punishment of starvation. Hot springs and sweating are often recommended, but S. S. S. does all that is expected of these expensive and weakening methods. It is conceded by the clearest students of the subject that rheumatism is caused in most cases by an acid condition of the blood and aggravated by the remedies commonly used for relief. In other cases rheumatism is the result of nerve depression; in still others it is the effect of some scrofulous blood condition, having been treated with mercury, iodides, arsenic and other poisonous mineral drugs. The recoveries of all these types of rheumatism is of such a nature that you would like to consult a great specialist confidentially, write to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga.

City Treasurer Ure Says Bonding Firm is Knocking Omaha

City Treasurer Ure appeared before the city commission this morning and declared that in his opinion C. H. Venner & Co. of New York are attempting to knock this city by continually circulating literature misrepresenting the financial condition of Omaha. He asked the city legal department to be advised of the situation and asked to take some action. Treasurer Ure said that while Venner's circulars had not prevented the sale of Omaha bonds they had taken the "edge off some of them now in the hands of purchasers." Mr. Ure came to the council principally to ask permission to invest money accumulated in improvement district funds in outstanding bonds. The matter was taken under advisement. "If you don't pass a resolution forbidding me to do it I will take the responsibility of buying these bonds myself," said Ure. "There is no danger of us getting our fingers burnt. Last year I saved the city \$50,000 by the right investment of these moneys." Ure will get out his annual report within the next two or three weeks. He has asked for enough money to have the report published in pamphlet form, but the city commission has not granted the request. The matter has been referred to the city purchasing agent and Mr. Ure will discuss with him the cost of publishing 200 or 300 of these reports.

Car Fare Ordinance Postponed Until in Early Part of March

Action on an ordinance providing that the street railway company sell seven tickets for 25 cents was postponed by the city commission until March 6. The reason for this was that several bills are pending in the legislature which if passed would interfere with the provisions of this ordinance and the city council decided to withhold action until the legislature has finished its proceedings. Another ordinance introduced by John O. Yelzer providing that lighting companies be heavily fined for discriminating between big and little consumers was referred to the legal department. No action will be taken on it by the commissioners, who do not favor any interference with the light company now, as the legal department at present is busy handling a case in the United States supreme court which comes up for final settlement this month and involves the light company's franchise. Commissioner Withnell's request for 10,000 feet of fire hose was referred to the legal department which will determine out of which city fund the money can be taken. The commission will meet at 9 o'clock this morning and adjourn, today being a primary election day.

Four Conventions Billed for Omaha for Present Week

Four conventions are scheduled for Omaha this week, the first being the Nebraska Hardware Dealers' association, which opens at the Hotel Rome this afternoon. The Retail Jewelers' association will hold a convention at the Paxton hotel Wednesday and Thursday, and the Nebraska Optical association will follow there Thursday and Friday. The Central Whist association will hold a convention and tournament at the Home hotel Thursday, Friday and Saturday. Thirty-eight whist clubs from Iowa, Kansas, Missouri, Oklahoma, South Dakota, Colorado and Nebraska will be represented in the meet. The opening prize play will be held Thursday, and on Friday will come the opening round for the Richards trophy. The final rounds will be played Saturday night, a free for all affair, for the Schmeitler trophy. Manager E. V. Parrish of the Commercial club publicity bureau is arranging entertainment details for the various conventions of the week.

NEW SYSTEM OF RATING MAIL CLERKS CONSIDERED

Superintendent E. L. Rice of the Fourteenth division of the railway mail service, with headquarters in the federal building, has returned to Omaha after having served for several weeks on a committee in Washington composed of the superintendents of all the divisions in the country. The committee has been working over matters of the service and has completed a new system of rating clerks in the service. It has long been believed that the system of rating railway mail service and the system of rating clerks in the postal service should be more nearly in harmony. It was partly to this end that the committee worked. Some matters of handling the parcel post business were also taken up, but Superintendent Rice says the parcel post is giving the railway mail service no special trouble and that it is being handled very nicely so far.

BURGLARS STEAL LITTLE IN TWO FLORENCE HOMES

Burglars broke into the homes of Frank Wight and Paul Haskell at Florence last night, but seemed to be looking for money, and after ransacking the rooms gave up in disgust. In both places they avoided going into the bedrooms where the owners were asleep and left them undisturbed. Orders for Steel Decrease. NEW YORK, Feb. 10.—The unfilled tonnage of the United States Steel corporation on January 31 totalled 1,377,350 tons, a decrease of 104,700 tons over the previous month. This is the first time in ten months that this item has failed to show an increase.

BOSTON'S STAR HOLDING OUT

LANE ISSUES MOST OPTIMISTIC GRAIN REPORT FOR THE WEST

While it is too early to make estimates on yields General Freight Agent Lane of the Union Pacific has issued a crop report covering the last month and pertaining to the territory along the Nebraska lines. Mr. Lane refers to the lack of moisture so far this winter, but takes the position that so far this lack of precipitation has not worked any injury to the winter wheat, the acreage of which he places at 95.75 of 1912. He says that the condition of the grain at this time is good and that the outlook is promising. Touching upon live stock, not only in Nebraska, but through Colorado and Wyoming, Mr. Lane says cattle, sheep and horses have done well and are coming through the winter with the losses at the lowest minimum ever known. At no time during the last winter have the ranges been covered with snow to a depth that would prevent grazing. Little hay has been fed and the animals have come through without grain. Cattle are in good flesh and will take on fat rapidly as soon as the new grass starts.

STEARL FROM PARENTS TO "PUNCH" BOARDS

As a result of testimony of two small boys in juvenile court that they rifled their father's pockets for money to pay gambling debts, complaint charging E. L. Rolph, a South Omaha druggist, with aiding juvenile delinquency, was filed in county court by Juvenile Officer Bernstein Monday. The boys said they had been patronizing a "punch board" in the drug store, the prizes being boxes of candy. They confessed to taking \$1.75 from their father's pockets. Bernstein has asked the Omaha and South Omaha police to order druggists having "punch boards" and similar devices and games in which there is an element of chance not to permit children to patronize them. Mrs. S. S. Van Buren St. Kingston, N. Y. (full name furnished on application) had such decided benefit from using Foley's Honey & Tar Compound that she shares her good fortune with others. She writes: "Foley's Honey & Tar Compound brought my voice back to me during a severe case of bronchitis and laryngitis. Oh, how many people I have recommended it to." Remember the name—Foley's Honey & Tar Compound and refuse substitutes. Contains no opiates. For sale by all dealers everywhere.

CANAL CITIES ARE MODERN

Panama and Colon Made Clean and Cultured by Uncle Sam. NEBRASKAN MUCH INTERESTED. George Tyler of Hastings Returns from Canal Zone Enthusiastic Over Great Progress Made by the Americans.

"The only modern cities I saw on my trip to the Panama canal were Panama and Colon, the two cities redeemed by the United States government," said George Tyler of Hastings, stopping in Omaha after six weeks down on the canal zone. "Our government has wrought amazing transformations in Panama and Colon, paving streets, introducing sanitary systems of sewerage and all other accessories to a well ordered, clean, modern city. The contrast between these places and, for instance, Jose, in Costa Rica, a city of some 25,000, where I spent three days, is marked enough to make Americans appreciate the progress achieved under their own regime. In Costa Rica some of the coffee planters are immensely wealthy and live in luxury. They have a theater in San Jose that cost \$1,500,000 and the debonair society would make one think he were in Paris. But go out of this gilded palace of pleasure and you are on streets paved with antique cobble stones, over which rattle with deafening confusion the primitive old ox carts, still serving the purpose of commercial vehicles. The cart wheels are of solid wood, just as if sawed off logs and make a hideous noise with their ominous impact upon these cobble stones. Yet, I was told, that coffee planters make immense profits and some of their homes, that I saw, were palatial. City Forty Miles Long. "Getting back to Panama, it is a city of some 40,000 population and extends for a distance along the canal of almost forty miles, with its camps and headquarters. The government conducts some very fine hotels here. The canal, itself, must strike anyone as a prodigious enterprise. That Culebra cut is a wonder. And it is still cutting. I mean, they are having lots of trouble with it, the earth still badly sliding where the cut is some 400 feet. The other day one of these slides totally covered and demolished an entire freight train. This is due, they say, to a fault in the earth's crust and they will just keep working away until a safe stratum is reached. "There is no grafting on the Panama. Our government has looked out for that. Everything is above board and everybody has his shoulder honestly to the wheel, pushing, not pulling back."

EXPLORER FROZEN TO DEATH

Captain Scott and Party Lose Lives in Blizzard. REACHED SOUTH POLE YEAR AGO. Long Coveted Goal Attained About a Month After the Amundsen Party Had Arrived There.

LONDON, Feb. 10.—News reached the world today that Captain Robert F. Scott, the Antarctic explorer, and an unknown number of his companions perished in the Antarctic while on their return journey from the South pole. They reached their goal on January 18, 1912, about a month after Captain Roald Amundsen, the Norwegian, had planted the flag of his country there. Then they turned back toward the bases they had formed on their outward journey, but were overtaken, overwhelmed and destroyed by a blizzard. The news of the deaths were brought to civilization today by the captain of the Terra Nova, the vessel which had taken Scott's expedition to the south and which had gone again to fetch it back after the accomplishment of the task. Bodies and Records Recovered. A searching expedition recovered the bodies and records of the party of sixty. Only a few brief bulletins were sent today from the New Zealand port of Oamaru by the captain of the Terra Nova, who related simply the fate of the party, and then proceeded with his vessel for the port of Littleton, where he should arrive Thursday. The disaster came as an utter surprise to London and cast a gloom over the community which has been unequalled since the death of King Edward. It is believed here that the disaster does not involve all of the Scott party of sixty-six, but probably only Scott himself and the four others selected by him for the final dash to the pole. There are supposed to be Dr. Wilson, chief of the scientific staff; Captain L. E. Goates of Inneshilling dragoons; Lieutenant H. Bowers, of the Royal Indian marine, the commissariat officer and petty officer, E. Evans, of the British royal navy. Amundsen's Hut Found. OMAHA, N. Z., Feb. 10.—Captain Robert F. Scott, and his party were overwhelmed by a blizzard on their return journey from the south pole. The entire party perished. They reached the south pole on January 18, 1912. Captain Scott's party reached the exact point where Roald Amundsen planted the Norwegian flag at the south pole. They found there the hut constructed and left behind by Amundsen's party. These facts were recorded in the documents found on the bodies of the dead explorers when they were recovered. FORMER POLICEMAN FINED ON A DISORDERLY CHARGE. The Bellman, former police officer, who was arrested Saturday and charged with conducting a disorderly house at 115 South Twelfth street, was fined \$50 and costs by Police Magistrate Foster. The eighteen inmates arrested in the raid upon the chill parlor failed to appear for trial and their cash bonds of \$10 each were forfeited. Judge Foster warned Bellman if arrested again the fine would be increased to \$100 and he would have to serve thirty days in jail. The raid was made by Sergeants Cook, Vancous and Samuelson. Each testified that beer was found in the restaurant and the inmates were dancing and playing the piano. Butch Ames and J. M. Antkol were fined \$25 and costs on the same charge. Antkol appealed his case. The inmates forfeited cash bonds of \$10 each. Nearly \$400 was taken in by Clerk of the Court Tom O'Connor by bond forfeitures. ELY'S CREAM BALM OPENS CLOGGED NOSTRILS AND HEAD--CATARRH GOES

Instantly Clears Air Passages; You Breathe Freely, Nasty Discharge Stops, Head Colds and Bull Headache Vanish. Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of clearing, soothing relief comes immediately. Don't lay awake tonight struggling for breath with head stuffed; nostrils closed; hawking and blowing. Catarrh or a cold with its running nose, foul mucus dropping into the throat, and raw dryness is distressing but truly needless. Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear—Advertisement.
