**GRAIN AND PRODUCE MARKET** Holders of Wheat Are at the Mercy of the Buyers.

CORN SITUATION IS UNCHANGED

Open Interest is Large and Both Shorts and Longs Belleve that They Have the Market

Sized Up Right.

OMARA: Feb. 15, 1915. The holdings of wheat in Minneapolis and Duluth are around the 55,000,000 bushel mark. The average trader in this grain is unable to figure out as to the probable placing of this big line of probable placing of this big line of breadstuffs. There is no demand at the Dresent time from cash buyers in the United States or foreign countries, which

places the holders of this grain at the mercy of the buyers, unless there is something unforeseen to materialize to change the entire situation. A crop scare in the winter wheat helt would prove the most valuable asset for the holders of white, 12 cars, 22c. No 5 white, 7 cars, 11%c. No grade, 1 car, 11%c. RYE-No 4 1 car, 55c.

but it would doubtless develop a demand from importing countries of the world and a large part of the surplus would find new resting spots in this country as find new reating spots in this country as well as in foreign markets. There is little fear from the political

BARLEY-Malting, Mapole; No. 1 feed.

There is little fear from the political situation abroad, although there are a few possibilities of a change for the worse, which would act as a builtsh factor in the markets of the old world. There has been some talk of each wheat of this country being purchased by men with almost unlimited means, with the intention of holding this grain for a profit. These rumors have been current for some time, but they have again dis-appeared without any pronounced action being visible. The stock of wheat at Minneapolls and Duiuth is pretty well concentrated in the matter of holders and the same may be said of stocks at Chi-cago and Kamas City. The holders of this arain have suffered heavy losses on the built side of the market, but 'hey seem to be willing to take another chance as believers in higher prices. as believers in higher prices. Cash wheat barilge lower. The situation in corn remains without any marked change, as the open interest large, and both the longs and shorts believe they are correct in their ideas. An improved business on export account has developed in the last few days, and the east is also taking more corn than a forthight ago. The opinion is advanced by one of the leading operators in the foreign markets that Argentine holders became sellers at a price which dis-counted the very large crop. Cash cora

Owing to a small movement and light Owing to a small movement and light accumulations of outs in the Chicago market one of the strongest concerns has made a stand in a quiet way on the buil side. There is only a fair demand for the cash article, but stocks in the east are not cumbersome, and when Argen-tina is filling up the importing countries it is expected that there will be a con-immation of steadhests shown in Lab nuation of steadiness shown in the nited States, Cash oats, 4034c lower.
