Final Clearing Sale Silks Monday

A sweeping clearing of all broken lines and remnants. No matter what they cost, all must go. The new silks are here, we need the room. See silks displayed in Sixteenth street window.

NOTE—The regular prices of these silks were 75c to \$1.50 a yard.

that a member thereof had wanted all the information possible on the bill, and it was impossible to get that information in the meeting last night.

"We may cut the rates 50 per cent instead of 20 per cent so far as I know, but I do not want to pass on this important matter without having heard all the testimony we can get. I want to know the financial condition of the railroads. According to the gentlemen we might have all been millionaires if it had not been for the railroads. To me this is all smoke. Is it not fair to ask for information?"

Doubling Thomases.
"When I gave the committee the comparison between the two states to the net earnings of the roads, my figures were doubted. If I had taken around the Lord's prayer they would have demanded of me that I verify it."

"Heilig insisted that Kieckhefer had been fairly treated. "I called a special meeting for his benefit," he said, "and advanced his bill over several others."
"Stevens of Lincoln insisted that he had been given a fair hearing."
"Trumble of Sherman took the other side and insisted that members should not have to go around and swear their bills are all right."

"Then the talk drifted into the question whether the bill should be lifted from the committee. Kieckhefer insisted he had made no such suggestion and he further said Chairman Heilig had treated him fairly."
"Norton moved, to go into the committee of the whole and the storm was over."

Kieckhefer's Figures.
Mr. Kieckhefer gave some figures to the railroad committee last night and he has compiled another batch which he will present to the house when the bill comes up for action. He has made comparisons of rates charged in Iowa and Nebraska on a mileage basis and also a comparison of the net earnings of the railroads of the two states per mile. These tables show that with little more than half the mileage the Nebraska roads have made approximately twice per mile more than the Iowa roads.

SCHOOL FOR STATEMEN
Legislature Gives Sheldon Chance to Give Pointers.
LINCOLN, Feb. 14.—(Special Telegram.)—The senate is going to boost along A. E. Sheldon's night school for coming statemen. It adopted a resolution yesterday

to turn over the senate chamber to Mr. Sheldon's class every Thursday night when the room is not used for other purposes. The young men will resolve themselves into a legislature and under the direction of the head of the reference bureau they expect to learn all the tricks of the law-making business. These young men are helping Mr. Sheldon in the reference bureau, so the resolution set out, without expense to the state, and therefore the courtesy is due them.

SENATE'S POSTPONER IS BUSY
Hale of Madison Gaining Fame by His Negative Votes.
LINCOLN, Feb. 14.—(Special.)—After listening to a short address by Governor Eberhart of Minnesota the senate on reports of committees indefinitely postponed five bills, passed five more and reported seven for engrossment and third reading. The senate bills indefinitely postponed were: 190, by Bushee of Kimball; 96 by Placek of Saunders; 428 by Hoagland of Lincoln; 126 by Marshall of Lancaster and 204 by Grace of Hartian. None of the bills was of special importance except 204, which sought to repeal the present law in regard to sending newspapers after subscriptions have expired.

Very few of the bills for final passage went through smoothly. No. 179 being voted against by Grossman, Macfarland, Kohl and Macfarland. No. 149 received two nay votes, those of Hale and Robinson; 124 was voted against by Hale, Kohl, Talcott, Robinson and West, while 123 did not meet with the approval of Hale and Klein.

Hale of Madison, bears the distinction of having introduced no bills during the session, and he still further stands a pretty good chance of gaining further prominence with his little objection of "Nay" which is frequently heard on many of the bills up for roll call.
Following are the bills passed:
S. F. 129, by Hoagland of Lincoln—Lengthens the term of jail sentence for bootlegging from one month to three months.
S. F. 149, by Hoagland of Lincoln—Provides for proposed constitutional amendment that right to be heard in all civil cases in the court of last resort shall be regulated by general law.
S. F. 124, by Bushee of Kimball—Provides for state aid for school districts more than twelve square miles in area.
S. F. 82, by Hoagland of Lincoln—Prescribes rules of evidence in action for damages against common carriers.
S. F. 124, by West of Hall—Provides amount of fees to be received by a county sheriff, and places mileage at 10 cents per mile.
The following bills were ordered engrossed for third reading:
S. F. 93, by Saunders of Douglas—Provides for jewelers' lien on jewelry left for repairs.
S. F. 147, by Kiechel of Nemaha—Makes

library tax of 10 cents per pupil mandatory on school districts of the state.
S. F. 124, by Grossman of Douglas—Provides a penalty for obtaining or having in possession fraudulent issued receipt for fraternal insurance dues in any society.
S. F. 100, by Hoagland of Lincoln—Provides that no change in the point of diversion of the river or of aqueduct shall be more than one mile distant from the original point of diversion.
S. F. 211, by Bushee of Kimball—Allows the reports of the university to contract for irrigation rights at experiment stations.
S. F. 232, by Hoagland of Lancaster—Regulates the sale, manufacture and disposal of embalming fluids containing strychnine or arsenic.
S. F. 203, by Grossman of Douglas—Provides for inspection of lined and flaxseed oils.
S. F. 203, by Grossman of Douglas—Provides for inspection of lined and flaxseed oils.
In speaking in favor of the bill for the inspection of oils, Hoagland of Douglas said that the bill was the result of a talk with ex-Food Commissioner Hansen in which he said that no oil which had been inspected, supposed to be good lined or flaxseed oil, had been pure during the time that he had been pure food commissioner, and he believed that this bill would result in a better grade of oil.
The clock in the senate, which has been hanging there since Andrew Jackson was a boy, has been the subject of frequent remarks by the senators, sometimes of a nature which expressed considerable emphasis. It has always persisted in being from five to ten minutes slow and sometimes so slow that it forgot to register at all.
Just before adjournment this noon Henry of Jefferson moved that the sergeant-at-arms be required to fix the clock. Robinson of Holt moved to substitute for the word "fix" the word "regulate." Bushee moved to strike out both words and insert instead the word "regulate." The sergeant-at-arms is of the opinion that the word "regulate" is not to be applied in this case without a special dispensation of Providence.

PIPER WILL SEE ABOUT IT
Legislature Has Tendency to Seek to Oust Him from Job.
LINCOLN, Feb. 14.—(Special.)—This legislature may think it has had some troubles and maybe it thinks it can put up a good fight against the third house, but its troubles have not yet started.
When Joel Piper gets busy on the measure which legislates him out of business, these legislators will discover they are "a hold of a bear." For years legislators have been found with a sufficient lack of discretion to try to legislate this man Piper out of business, but they have all fallen by the wayside. Now this legislature intends to try to put its department—charities and corrections—under the control of the State Board of Control.
The fur will begin to fly on this measure soon.

GROSSMAN LIKELY TO STICK
Senate Not Thought in Mood to Oust Him from Job.
LINCOLN, Feb. 14.—(Special.)—The special committee on the Hancock-Grossman senatorial contest announced today that no decision would be made until Monday.
It is the opinion of many that the committee will decide not to unseat Senator Grossman, but will give the methods used in the Third ward of Omaha, some attention.

and by the president of the United States himself.
Probably what General Diaz desires to secure is a full political recognition of his status, such as can be secured only by the issue by President Taft of a neutrality proclamation, for as a matter of fact this is the only manner, though indirect, in which belligerency can be recognized. Aside from the moral effect of such a proclamation about the only substantial benefit that could be derived from its issue, by an insurgent leader, would be to insure the absolute neutrality of the United States government and prevent the shipment of any more arms or ammunition of war to the Madero government.

STERLING MAN IS GIVEN JUDGMENT AGAINST ROAD
TECUMSEH, Neb., Feb. 14.—(Special Telegram.)—The damage case of John C. Miller of Sterling against the Burlington Railroad company occupied the attention of the district court here for two and one-half days this week. The case came on for trial before a jury Tuesday morning and the jury retired at noon, Thursday, returning a verdict for Miller against the Burlington tonight giving him \$5,000.
John C. Miller is the father of Guy G. Miller, the latter being killed in the Burlington yards in Lincoln at midnight on the night of August 11, 1911. Miller was a brakeman running out of Lincoln and his train was about to depart from the yards, when a switch engine, in charge of Ernest Lee as engineer, ran over Miller and killed him. John C. Miller, who contends that he was dependent upon the son for support, being sickly and infirm for years and 62 years of age, asked damages from the railroad company in the sum of \$20,000.
Numerous witnesses were examined, including several railroad men from Lincoln. The taking of evidence was concluded Wednesday afternoon. Mr. Miller was represented by E. Ross Hitchcock of Sterling and G. A. Adams of Lincoln, while A. R. Wells of Omaha, Judge S. P. Davidson of Tecumseh and Max Begtol of Omaha were for the defense. Engineer Ernest Lee was exonerated.

Hughes McCleary.
JOLIET, Ill., Feb. 14.—(Special Telegram.)—Thomas P. Hughes of Omaha and Goldie McCleary of Dayton, O., were married here today.

Constipated, Headachy, Biliary, Tongue Coated?—Cascarets Sure
Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged, constipated bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will straighten you out by morning—a 10-cent box of your druggist will keep your Liver active, Bowels clean and regular, Stomach sweet, Head clear, and make you feel bully for months. Don't forget the children.

PRESIDENT MADERO RESIGNS HIS OFFICE, BRITONS ANNOUNCE

(Continued from Page One)

government in an informal note to Ambassador Wilson, stating that he was in complete control of the city.

British Legation Under Fire.
Two federal batteries of five guns each stationed near the British legation, poured a constant stream of shells onto the arsenal. Another federal battery posted on San Juan De Letran street joined in.

People of Capital Will Be Glad to Have Strong Action.
MEXICO CITY, Feb. 14.—Five days of fighting in the streets of the capital, has in the opinion of close observers, done more to change the sentiment of Mexicans in regard to intervention than has the whole two-year period of revolution.

Conditions in the capital are steadily growing worse. All business, both public and private, except that connected with the war, has ceased. Even the general postoffice has closed its doors and many of its employees are carrying rifles in the ranks of the federal army.

Prayers and Heavy Walls.
In many of the churches special services were held by the clergy for the restoration of peace to the capital. Thousands of refugees knelt in the old edifices and joined in the prayers, at the same time trusting not a little to the heavy walls for protection against flying projectiles.

Fire Is Continuous.
Nothing of a spectacular nature occurred during the morning's operations, nor did the bombardment appear so terrifying as that of yesterday, although the constant monotonous thunder of the cannon, punctuated by the rattle of small arm fire, left no doubt that both sides were working grimly and doggedly.
