**MOTOR TRAVELERS IN BAD**  
 Auditor Checks Organization for Insurance Work.  
 NO PERMIT GIVEN THEM  
 Governor Aldrich, one of the incorporators, says his connection with company is only in advisory capacity.  
 (From a Staff Correspondent.)  
 LINCOLN, Neb., Feb. 17.—(Special.)—A new corporation formed in January, known as the United Motor Travelers' association, has a pretty good chance to get into trouble with the state auditor if it does not get busy and fix things up. The corporation was formed with ex-Governor Aldrich, H. H. Wilhite, E. H. Holmes, E. J. Paulsen and A. W. Bemis as the board of directors, the object of the corporation to be to promote better roads, create a better condition among all motorists and in general to help along the cause.  
 The state auditor received notice this morning through an advertisement put out by the association that it was soliciting insurance as a fraternal organization, and inasmuch as it has never filed application for a license to do an insurance business in Nebraska, it is liable to get into trouble.  
 Governor Aldrich was called up by phone and the proposition put up to him to explain. He said that he was unaware that such a condition existed and appeared to be much surprised. He said that his connection with the company was only in an advisory way and did not know very much about the matter otherwise, but would immediately go to the state house and have the matter attended to.  
 The advertising put out shows that the company proposes to do a fraternal insurance business among users of automobiles and the officers of the company are: F. A. Ross of Omaha, president; H. H. Wilhite of Lincoln, vice president; E. H. Holmes of Chicago, secretary-treasurer.  
**Order for Medical Corps.**

 "The appointment of Dr. G. H. Bentz of Fairfield as an officer of the medical corps is announced, with the rank of first lieutenant."  
**Fruit growers' institutes.**  
 As a result of the great interest shown in the recent Nebraska apple show at Lincoln a series of special institutes for fruit growers will be held this week under the direction of the University of Nebraska and the State Horticultural society. Prof. J. R. Cooper of the horticultural department of the university will speak to the fruit growers on the value of moisture and the problem of maintaining the proper balance of fertility in the orchard. C. G. Marshall, secretary of the Horticultural society, will talk on spraying and pruning, and Charles Dickinson will deal with the problem of co-operative marketing.  
 Demonstrations in packing and discussion of the best styles of packages in order to compete successfully with growers of other sections will be a feature of each institute, and orchard demonstrations of proper methods of pruning will be given. The following points will be visited:  
 Florence, Monday, February 17.  
 Nebraska City, Tuesday, February 18.

**Mrs. Garrett Warney of Kearney Attacked by Disguised Men**  
 KEARNEY, Neb., Feb. 17.—Mrs. Garrett Warney, wife of a young and prosperous farmer, living one mile north of this city, was victim of a cowardly assault last Sunday afternoon. Mrs. Warney was at home alone and asleep on a couch on which she lay.  
 Looking up she saw three men standing over her. She attempted to raise herself up, when one of them struck her, knocking her insensible. Then they bound and gagged her and left the house.  
 She was found a few hours later by her husband and is suffering severely by a nervous shock.  
 The incentive for the assault is not known, but it is thought that the men were looking for her husband. They were disguised with false mustaches and one was heard to remark that "as long as he was not there they would take it out on her."  
 The suspicion has been placed on three men in the neighborhood, with whom Warney had had a disagreement that was not regarded as serious. Sheriff Andrews and plain clothes men from Kearney are making a thorough investigation and arrests probably will follow immediately.

**High Volt Current Kills Man at Blair As Stands on Tower**  
 BLAIR, Neb., Feb. 17.—(Special Telegram.)—In view of a crowd of visitors going and coming from the river bridge work this afternoon at 5 o'clock, Herman Kotterman, 29 years of age, was electrocuted at the top of a 100-foot steel tower standing on the river bank near the Northwestern railroad bridge across the Missouri river.  
 The steel tower, with a similar one on the Iowa side of the river, supports the cables which carry the 16,000-volt currents of the Nebraska-Iowa Public service company from Missouri Valley to supply the city of Blair. Young Kotterman climbed to the top with his head slightly above the cable and, standing on a cross-bar, turned his back to the tower.  
 While waving one hand to his friends below the body was seen to stiffen and then pitch forward, striking head first on the ground, crushing it terribly. Two burned streaks were found across the palm of the left hand.  
 Kotterman was in the employ of his brother, Carl Kotterman, in the Racket store in this city, and leaves six brothers and his mother, who resides at Colorado, S. D. He was well liked and had just finished a course at Dana college.
