TRADERS LET MARKET DRIFT Money Demand Shows Firmer Tendency, with Bankers Predicting

Decided Stiffening of Rates

in Next Few Weeks.

NEW YORK, Feb. 78.—There was no strong demand for stocks today from any quarter. Frice movements were small and variable and trading was dull. With the change in administration at Washington only a few days off, traders were inclined to let the market drift. The only wide fluctuations of the slay were among the less stable stocks, such as Can. Woolworth. Sears-Roebuck and Goodrich, which fell sharply in the early part of the day.

The money market showed a firmer tendency today. Call money touched 4½ per cent, the highest in some time. German bankers were bidding actively for money. As much as a per cent for thirty days was offered: Local bankers look for a decided stiffening of rates within the next few weeks, basing their opinions largely on the strained monetary conditions abroad, further proof of which was furnished by the Bank of England's lattest statement. Tightening of call rates today was attributed to preparations for March interest disbursements tomorrow. Declaration of 24 per cant back dividends on Can preferred after the close of the market yesterday proved to have been Declaration of 24 per cant back dividends on Can preferred after the close of the market yesterday proved to have been discounted. Both common and preferred sold off sharply, although subsequently they recovered part of the losses. Baltimore & Ohio was depressed temporarily by a further hitch in plans for the new bond issue.

The improvement in bonds was halted and there were some traces of heaviness. Total sales, par value, \$1,83,000. United States 2s declined % on call.

HOGS—Light receipts at all points caused a general reaction in the market this morning. Shippers and speculators were rather free buyers all morning at figures that were about 10c higher than yesterday, the long end of their purchases being made at \$8.20. In spite of the advance trade was slow from the outset. Packer buyers were late in setthe advance trade was slow from the outset. Packer buyers were late in getting out in the yards and during the first rounds were inclined to be a little conservative in their bids, so that by the time they were ready to trade there were at least half of the hogs soid. The prices they paid were largely a big dime higher than on Thursday, with \$8.15 and \$8.20 the popular figures. The market was draggy, however, all the way through, and notwithstanding the smallness of the supply it was well along in the forenoon before a clearance was finally made. The quality of the offerings was very good, a fact which materially increased the number of sales made on speculative and shipping account.
