CUSTER HIGH ENROLLMENT THIRD OF ALL THE SCHOOLS

CUSTER CITY. S. D., March 4.—(Special.)—What is the most unique record in South Dakota, is the percentage of attendance in the Custer City High school the present year. The high school enrollment is now thirty-three per cent of the total enrollment in the schools, the number of bona fide high school pupils being fifty-five. Until recently it was thought that an eastern town in the New England states, held the honor with New England states, held the honor with about twenty-four per cent high school attendance, but the local high school attendance, which is the largest this year n the history of the city, appears to nave a clear field in the matter.

Department Bill

WASHINGTON, March 4-President Taft today signed the bill creating a Department of Labor, with a cabinet portfolio. President Wilson's nomination for his position will be William B. Wilon, now a retiring representative in congress from Pennsylvania.

PROGRAM FOR WILSON'S RECEPTION OUTLINED

AMES, Ia., March 4.-(Special.)-Deans urtiss and Stanton, comprising the lowa State college committee on arrangements for the "Tama Jim" Wilson return-to-Iowa reception at Ames March 12, have settled upon the main parts of the program for the reception.

The retired secretary of agriculture and Governor Clarke of Iowa will address convocation of all students of the colege in state gymnasium at 11:30 o'clock the forenoon. In the evening between he hours of 6 and 7 the Wilson reception will be tendered in Central ball. The banquet, at which Mr. Wilson will be guest of honor, will commence at 7:30 is the women's symnasium.

It is planned to have a large number of former neighbors of the Tama countian present at the reception. Farm people of the state will have a large part in the festivities because of Mr. Wilson's long association with the development of agriculture, both as dean of agriculture at Ames and as the nation's secretary. iss committee on deficiencies is dead Miss Flora Wilson, daughter of the re-

Guess What It Is "HOLSUM"

Heat that lightens labor

The coal question buries many homes in a mountain of labor and expense—for those who handle the shovel or pay the coal bills. This is due to old-fashioned heating methods from which the waste of energy and fuel mount up high. They hold house-owners, housekeepers and servants in bondage to excessive toil, and drain the family living fund. If your home is "in the dumps" this way, why not throw off the overwhelming handicap by putting in

made in sizes for cottages, larger homes, churches, schools, hotels, stores, public buildings, etc. Our Ideal heating wonderfully lightens cleaning

and care-taking.

You have freedom from ash-dirt and soot in the rooms (which means less house labor), easy regulation, warm nights, early morning comfort and all day, with least work. This results from tested heat-making qualities of an IDEAL Boiler, plus the heat-distributing work of AMERICAN Radiators.

240 sq. ft. of 38-in. AMERICAN Radiators, costing the owner \$130, were used to heat this cottage. At this price the goods can be bought of any reputable, competent Pitter. This did not include costs of labor, pipe, valvee, freight, etc., which are extra and vary according to climatic and other conditions.

Large fire-chambers and air-mixing features of our boilers completely burn the coal gases (which in old-fashioned methods pass off unburned). The heat taken from the coal is quickly passed through AMERICAN Radiators, so correctly made inside and outside that they throw out a full supply of warmth in every room in spite of winds. IDEAL Boilers and AMERICAN Radiators and our special heat controlling devices are all subject to same standards of accurate trial at our testing laboratories (a chain of exclusive heating laboratories in the United States, France and Germany), so that the complete IDEAL-AMERICAN outfit fully meets the most exacting demands of American and European standards of economy in coal saving and easy care-taking.

Be sure you get both IDEAL Boiler and AMERICAN Radiators - permit no substitutes of either; you then secure general tested efficiency in both heat-making and heat-distribution, rather than handicapping your outfit by inferior quality radiators, boiler, heat regulators or valves.

Send for our valuable (free) booklet, "Ideal Heating," which points the way to lessen care-taking

A SUCCESSFUL STATIONARY VACUUM CLEANER AT LAST! Our scientific ARCO WAND Vacuum Cleaner has been success fully used under hard tests for two years in residences, apartments, churches, schools, hospitals, stores, hotels, public buildings, etc. Sets in basement; through fron suction pipe (running to each floor), light rubber hose and intake tools, all dirt, lint, insects and dust are drawn instantly to sealed bucket in machine. It cuts down room-cleaning work over four-fifths (also cleans clothing, furs, etc.). No heavy machine to lug; no ri:ky step-ladder work; no after-dusting. (Residence sizes cost \$225.00 up, at dealers, not including installation, piping and freight.) EASILY installed in OLD buildings. May we send new catalogue?

Sold by all dealers.
