GRAIN AND PRODUCE MARKET

Sharp Contest on Wheat Market Between Both Sides.

GETTING READY TO PLANT CORN

Farmers Are Arranging Their Seed and There is Little LikeRhood that Crop Will Be Given Increased Acreage.

Decided weakness developed in wheat at the outset yesterday. On a raily in the May price to 80% and over, a rather sharp contest for control of the market developed, a group of Chicago traders on the buying side and the commission houses representing the former heavy holders of the May and cash wheat doing the selling. Minneapolis had a run of over 800 cars again yesterday and stocks there continued to increase moderately, 200,000 bushels so far this week. Kansas City reported the cash wheat demand slow and mills looking for lower prices. The firmness in northwest markets was not easy to understand yesterday unless it was support from Chicago houses. The forecast for more rain and snow for the wheat belt is extremely bearish. The only new feature in the Chicago situation was the claim of cash sales of 250,000 bushels, the bulk of it said to be taken by export houses with Baltimore lonnections. On the said seven boatloads of wheat for export.

Some traders are inclined to advise 55. OMAHA, March 14, 1913. the selling. may be closed before the week is over. In the corresponding week last year the production was 305, 300 barrels. The grain trade at Minneapolis is very optimistic as to crop prospects in the northwest this spring. A heavy, wet anow and rain fell over most of the three states last week and this assures ample moisture to start the crop.

Cash wheat was unchanged.
Farmers in the corn belt are very busy arranging for seed grain and planning for screage for the spring work. It is evident that corn will get more attention than ever unless the question of seed prevents an increase in area planned for that crop. Some corn seed that has been tested proves anything but satisfactory, and if much of it proves to be poor there is likely to be a shortage of seed. Cash corn was unchanged to be lower.

The oats market was very narrow yesterday. The trade in oats is held in check by the uncertainty of the action in corn. Cash oats were unchanged.

Clearances were 480,000 bushels of corn and 8,000 bushels of oats and wheat and flour equal to 312,000 bushels. Liverpool closed unchanged on wheat and who were considered unchanged on wheat and who were any the corn was unchanged.

CHICAGO GRAIN AND PROVISIONS

Fraces on Board of Trade.

CHICAGO, March 14—Extremely favorable crop advices today tended to put wheat on the down grade. Closing prices, though steady, were 15% and proved to the down grade. Closing prices, though steady, were 15% and contains a setback of 25% to 26%. According to a high authority the outlook for wheat is the best in years. In many localities in the winter crop belt the plant was said to be in almost perfect condition. Moreover, the weather map showed abundant moisture in all directions. Under these circumstances, bears took control of the market early in the session and held their advantage throughout.

Disappearance of the recent export demand acted as a further bearish influence. On the other hand the possibility of a substantial renewal of forcign purchasing at the present level served to check enthusiasm on the part of short sellers.

Seaboard clearances of wheat and flour equalied 312,600 bushels. Primary receipts of wheat were 700,000 bushels, against be 56,600 bushels a year ago.

Liquidation by speculative holders was the freature in corn, and, influenced to a greater extent than usual the seiling of cereals. Abundance of shipping demand had much to do with bringing about the bearish feeling that prevailed. Oats eased off in sympathy with corn.

Heavy realizing by outside holders weakened provisions. It was said that oash demand had materially fallen off.

NEW YORK, March it.—Trading was all but suspended on the stock exchange today after a drive at pricess in the foremon had forced down some of the leading lesses a point or so. Speculative interest lagged and periods of soveral minutes slapsed without a transaction. In the noon bour only 12,000 shares of stocks changed hands. In the last hour a spirited rally eliminated the earlier losses in most cases.

Traders were interested chiefly in the Harriman stocks, owing to the effort at the eleventh hour to put through a dissolution plan before the expiration tomorrow of the agreement with the underwriting syndicate. The choice of further opposition from the California Bailroad commission and doubts as to the status of Southern Pacific under the plan confused speculative opinion and there was a strong inclination to allow the market to drift. Southern Pacific was depressed early in the day to 35%, a drop of 2% and a new low point for the long decline.

The upturn in the market in the last hour was based on the hurried calling of a meeting of the Union Pacific board, at which, according to reports in the street, the new dissolution was formally ratified.

New Haven's decline continued, with a further drop in Boston & Maine, a

street, the new dissolution was formally ratified.

New Haven's decline continued, with a further drop in Boston & Maine, a controlled line, in the Boston market on reiterated rumors concerning the dividend policy of the companies.

London did little in this market today. The restraining influence of foreign monetary conditions was still felt and call money loaned up to 5½ per cent. The bond market was steadler today than for some time. Total sales, payvalue, \$1,500,000. United States bonds were unchanged on call.
