head; market slow; lambs, \$7.00218.90.

I have a certain cure for rupture without remorting to a painful and uncertain surgical operation. I am the only rep-utable physician in this line of work who will take such cases for treatment who will take such cases for treatment upon a guarantee to cure, or make no charge. You may deposit the money in a bank, in your own name, and when you are satisfied a cure has been made you then instruct the bank to pay the money to me. By doing this you are absolutely certain of a cure, or it will cost you nothing. If I was not perfectly sure of my work I could not do busi-ness in this way very long, but instead, have been doing business so for 20 years, and adopted this plan because so many have been swindled by quacks and fak-ers. Not one of them will permit a pa-tient to deposit his money until a cure has been made. When taking my treatment, patients

must come to my office once each week for four weeks, and if they live nearby

can return home and work during the interval. I do not treatment, as it is dangerous. Call or write for literature I do not use the Parafine Was
