DISTRICT IS UNDER MILITIA

Over 600 Troopers Patrolling the Stricken Neighborhood.
ONLY RESIDENTS CAN PASS
Those Residing in or Beyond the Stricken District Must Obtain Passports Before They Can Pass Lines.

Martial law prevails over the stricken districts of Omaha. Lines pass the outer lines of these districts without the required passport is almost worth one's life. Militia men and men of the regular army have been issued orders to tolerate no scenes or disturbances. Every man on duty is equipped with rifles or revolvers which are loaded with ball cartridges and the officers in charge of the troops say order must be kept.

Over 600 troops of militiamen and officers are in Omaha at the present time and more are on the way, according to Captain D. F. Lough, in charge of the commissary at the armory. The troops are divided into three battalions alternating in tours of duty. No sick men have been reported as yet and the state troops are working with a zeal seldom displayed by militia men.

Recruits are being examined and sworn in and put into service continually. Over fifty recruits have been taken in since Monday night and are on duty.
Many Companies on Duty.
The following companies are in Omaha: Company A of York, under command of Captain Christad.
Company C of Beatrice, under command of Captain Brewster.
Company K of Wymore, under command of Captain J. V. Craig.
Company I of Auburn, under command of Captain Loren Davis.
Company F of Lincoln, under command of Captain M. E. Lum.
Signal corps from Fremont, under command of Captain Jess.
Hospital corps from Lincoln, under command of Major C. W. Waldon.
Other officers here are Major Hollingsworth of Beatrice; adjutant to the major, J. Ed C. Fisher, Beatrice; Captain H. L. Hamilton, retired, U. S. A., and Captain Lon C. Casterson, inspector of small arms practice from Lincoln.

Some Curious Freaks of Cyclone's Funny and Strange Antics

The speed and force with which objects were whirled through the air during the storm is curiously yet accurately shown by a large window in a partially destroyed residence at the northwest corner of Thirty-eighth and Dodge streets. The south window on the second story is punctured in six places with smooth round holes such as only a bullet is supposed to make. The glass is not splintered or silvered in the least. Only rarely when a rifle ball is fired squarely into a window pane will it bore a clean hole without silvering the glass. The storm accomplished the feat with pebbles, chunks of flying glass or, perhaps, small fragments of wood.

Levee at La Fayette Breaks.
LA FAYETTE, Ind., March 25.—At 3:15 P. M. West La Fayette, where Purdue university is located, was cut off from this side by the breaking of one of the levees. The other levee is submerged and is expected to break at any moment.

Wild Rumors Bring Hordes of News Men from Other Places

The news of the tornado has brought to the city veritable hordes of newspaper men from other cities. The sad condition of the telegraph wires made it practically impossible to get authoritative news outside of the stricken city itself, and the result was a series of wild rumors, which variously estimated the number of dead and dying from 500 to 2,000 persons. Even from New York special men were rushed to the scene and the hotels, already in an overcrowded condition, owing to the influx of out-of-town friends and relatives, were packed far beyond their capacity.

The first Chicago newspaper men to arrive were John Fay, Chicago correspondent of the New York World; C. V. E. Starrett and Clyde T. Brown of the Chicago Daily News; Richard Fairchild of the Chicago Record-Herald; A. J. Begler of the Chicago American, and John Lovett of the Chicago Tribune. These arrived at midnight. Early morning trains brought others to the city, among

Capital City Places Fund at Call of Omaha

LINCOLN, Neb., March 25.—(Special Telegram.)—The mayor, J. H. Armstrong, and the city council met today and passed a special resolution which states that \$5,000 shall be taken from the city

emergency fund and placed in the First National bank for the relief of the Omaha citizens suffering as the result of the late tornado. Mayor Dahlman of Omaha was telegraphed to draw on this amount for any part or all of it, as he sees fit.

Cots in City Hall for Refugees.
INDIANAPOLIS, Ind., March 25.—One hundred cots are being placed in Tomlinson hall, a municipal building, and other refugees from the flooded districts may have a night's lodging free. Cots also may be placed in a number of the school buildings.
Mayor Shank late today asked the board of safety to appropriate \$2,000 for the relief of flood sufferers.

Organized Relief By Districts Now Being Furnished

The Citizen's relief committee decided at 8 o'clock last night on a committee of four who are to have absolute control of the dispensation of relief. They are C. C. Rosewater, E. F. Denison, Dan V. Butler, J. M. Guild. The six stations are revised at that time are to be stationed at the following places and in charge of the following captains:
1. Sixteenth and Locust streets, W. L. Kierstead.
2. 194 North Twenty-fourth street, Joseph Kelly.
3. 2726 Franklin street, J. L. McCague.
4. Thirty-third and Cuming streets, T. P. Redman.
5. Fortieth and Farnam streets, George H. Kelly.
6. Forty-sixth and Leavenworth streets, tent, J. A. Sunderland.

You Should Enjoy Your Meals

One of the Most Important Questions to Consider in the Search for Happiness and Health.
If your stomach can't digest your food, what will? Where's the relief? The answer is in Stuart's Dyspepsia Tablets, because, as all stomach troubles arise from indigestion and because one ingredient of Stuart's Dyspepsia Tablets is able to thoroughly and completely digest 3,000 grains of food, doesn't it stand to reason that these tablets are going to digest all the food and whatever food you put into your stomach?

You Can Eat With the Appetite of a Lusty Youngster, if You Help Your Stomach.

Science nowadays can digest food without having it enter the stomach at all. And Stuart's Dyspepsia Tablets are the result of this scientific discovery. They digest and digest thoroughly and well, anything and everything you eat.
The burning question to you is, "Are you getting out of life all the pleasure and the health you are entitled to?" If not, why not?
No matter whether every organ and member of your body is in a sound state of health and strength, if your stomach is in any way disordered, you are not going to be "yourself." You are going to be a worried, out-of-sorts, nervous or sullen individual, whose actions will reflect your condition inside, and people will naturally avoid you.
So, if your stomach refuses to work or can't work, and if you suffer from craculations, flat, brash, fermentation, biliousness, sour stomach, heartburn, irritation, indigestion, or dyspepsia of whatever form, just take one or two of Stuart's Dyspepsia Tablets, and see the difference. It doesn't cost you much to prove it. Then you can eat all you want, what you want, whenever you want, if you use these tablets, and you can look the whole world in the face with a beaming eye and you will have a cheerful spirit, a pleasant face, a vigorous body, and a clear mind and memory and everything will look and taste delicious to you. That's life.
Get a 50 cent box of Stuart's Dyspepsia Tablets at any drug store.

Diabetes

Simple Herb Quickly Relieves This Dread Disease.
Diabetes has heretofore been considered incurable, and the only hope held out to the afflicted has been to prolong their years by strict diet. A plant recently discovered in Mexico, called Diabetes Herb, has been found to have a specific effect in the treatment of diabetes, quickly reducing the sugar in the urine and restoring vigor and building up the system.
This harmless vegetable remedy should relieve the patient of his worst symptoms, and to prove it, we will mail the first 50c package for free, with free booklet of special values to the diabetic, containing latest diet lists and exclusive table of food values, giving percentages of starch and sugar (carbohydrates) in 50 different foods.
Tell your afflicted friends of this offer and send the money for a full-sized, Watney Fyler, N. Y. CHEMICAL CO.

ferer.
No relief will be given by the committee at other places. The city Auditorium will be used as a general store house or depot of supplies, but they will not be dispensed from there. Instead they will be distributed from the Auditorium to the various relief stations. Persons having clothing to spare are requested to send it to the auditorium to be used at the various relief stations. Any serviceable clothing that does not come from homes that have had a contagious disease will be welcomed.
All who own houses that are for rent, are requested to report them to the committee at their headquarters in the council chamber of the city hall.
AA cash donations should be made to Robert Cowell, treasurer of the Citizen's relief committee.

Two Arrests Here on Arson Charge

Acting upon information from Chief of Detectives John Halpin of Chicago, Sergeant Russell, Detectives Ring and Van Deussen and Chauffeur Armstrong arrested Solomon and Jacob Ross wanted for arson and burning to defraud insurance companies. Both men skipped from Chicago after having placed a \$25,000 bond to gain their freedom.
Jacob Ross was arrested at 1818 North Twenty-fifth street and Solomon Ross was taken at 919 South Twenty-first street.

TWO PERSONS KILLED IN WASHINGTON COUNTY

BLAIR, Neb., March 25.—(Special.)—Only meager news of the tornado which cut a path through Washington county were obtainable until late last night. Telephone service is partially restored, but telegraphic communication with Omaha is out except by way of Sioux City. The tornado's path was viewed by hundreds of people yesterday afternoon. The storm is supposed by many to be the same one that struck Yutan as the path of both are almost the same. It struck this county between Bennington and the German hall, about nine miles southwest of Blair and left the county and state crossing the river about five miles southeast of Blair and just east of the old DeSoto townsite.

The Stanley family, who live on the M-Thermon farm near DeSoto, were visited on Sunday by Mrs. Stanley's parents, Mr. and Mrs. Fred Steyer, who live south of Cebouin. The house was wrecked and took fire from a cook stove and Mrs. Steyer was killed instantly and one child injured. The tornado then cut a swath through the heavy oak timber on the bluff and demolished the DeSoto school house half mile east of the railroad track and left nothing. The first residence struck by the storm before crossing the river was the house on the lower farm of the old J. E. Markel estate occupied by John Svoboda and family of his wife and five children. Mrs. Svoboda was killed almost instantly and her husband the three of the children badly injured. Mr. Svoboda's worst injury is a deep wound over the right eye and a badly bruised back and leg. A 15-year-old daughter has a badly torn scalp wound and her recovery is not expected.

RELIEF WORK

(Continued from Page One.)
will be used as a place to store some of the furniture and supplies.
The committee issued the following statement:
"Clothing of all kinds is urgently needed for men, women and children. Care must be taken that no clothing is received from homes where there have been contagious diseases of any kind. Clothing should be taken to the Auditorium, where a man will be found at all times to receive it and make proper distribution of it."
Mrs. Lord of 1001 South Twenty-second street, South Omaha, has telephoned the mayor's office that a large force of women of South Omaha have organized themselves to co-operate with the relief committee in Omaha. They offer their services in any part of the city in which they can be used.

The information gathered by a sub-committee under the direction of J. M. Guild in regard to injured, homeless and those in need of immediate necessities of life is being rapidly tabulated into alphabetical form so that it can be conveniently handled.
WILLIS P. KING KANSAS CITY EDITOR, IS DEAD
KANSAS CITY, March 25.—Willis P. King, who for more than fifteen years has been connected with Kansas City newspapers in an editorial capacity, died today of apoplexy. He was 47 years old. During the Spanish-American war he was a war correspondent in Cuba. He had been employed on St. Louis and Memphis newspapers.
Key to the Situation—Bee Advertising.

PIANO PLAYER LASTS PLAYS "THE WEDDING OF THE WINDS"

From the damaged residence of Charles Garvin, 48 North Thirty-eighth avenue, an Angolan player piano was taken to Hayden Bros., where, upon examination it was found that the last roll played on the instrument was "The Wedding of the Winds." It was later ascertained that a member of the family had placed the roll on the instrument scarcely fifteen minutes before the tornado struck the house.

It is The Awful Number of Life NOW ON SALE IN CENTS ALL NEWS-STANDS

Heating that brings tenants

The original owner had liberal ideas—big, airy rooms; plenty of big windows to let in the light and wholesome sunshine; and big, arched openings between the rooms instead of cumbersome doors. But he made the one big mistake—he put in old-fashioned heating—and he and every succeeding owner and tenant has found the place "big and barny"—so full of chill corners, drafty passageways and cold floors. In thousands of such houses formerly handicapped by old-fashioned heating it has since been proved that the one unfailing way to cure houses of cold and lack of tenants is to put in an outfit of

AMERICAN & IDEAL RADIATORS & BOILERS

For the 3-room bungalow up to the largest mansion or public building, we make IDEAL Boilers and AMERICAN Radiators in every size and kind exactly suited to the needs and incomes of wage-earner, salaried man, farmer, or man of investments.
IDEAL Boilers are made in different forms to burn to highest heating advantage hard or soft coals, screenings, pea-coal, run-of-mine, coke, wood, oil, gas, etc. Their heating capacities and economies are figured from scientific standards—fuel-holding capacity; fire and flue-heating surfaces and their position (around and over the fire); time each fuel charge will last; draft and check-damper heat regulation, etc. These things are absolutely known, so that he who pays the fuel bills can be sure to get the highest possible heating results and economies from every pound of fuel—and with the simplest care-taking.
If you have a home, office, store, church, school, theater, bank, hotel, flats, etc., that is lacking in cozy warmth, let us send you our full story of cleanly, healthful, long-lasting IDEAL Boilers and AMERICAN Radiators. Ask for book (free): "Ideal Heating."

We have also brought out the first genuinely practical, automatic, durable Vacuum Cleaner. ALL the dirt and trash are drawn from the rooms through small iron suction pipe leading to big, sealed dust-bucket in cellar. Attach hose to iron suction pipe opening in baseboard of any room, turn on electric button to start the machine in cellar, and with a few gentle strokes of the hollow, magical ARCO WAND, you instantly and thoroughly clean carpets, rugs, floor, walls, ceiling, draperies, moldings, mattresses, drawers, corners, crevices, etc. Put with ease into any old or new dwelling or building. Costs little monthly for electricity to run. Ask for catalog of ARCO WAND Vacuum Cleaner.
Sold by all dealers. No exclusive agents.
