Pay of Females Employed in South Omaha Packing Houses is Smaller Than In Other

(From a Staff Correspondent.) LINCOLN, March 28 - (Special.) - Chairman Losey of the special committee appointed to investigate the earnings of female laborers, made his report to the house this morning. The report was the unanimous action of the committee. Some time ago Mr. Losey filed a personal report devoted almost entirely to the unsanitary conditions of the South Omaha packing bouses. He then secured a meeting of the full committee by a motion adopted by the house.

The committee reported that according to the evidence given by the female employes it is impossible for a girl who had no home to live respectably on less than \$8 or \$9 a week. The employers, however, swore that the female employes must serve an apprenticeship for greater or less time before they are qualified to earn those wages. Of the conditions under which girls work the committee said:

Sanitary Conditions Generally Good. We find that the sanitary conditions under which the laboring girls are working in most of the leading manufacturing and business houses of Lincoln and Omaha are good. We would recommend that the labor commissioner investigate the sanitary conditions of the small laundries of the state; the condition of the larger laundries is good.

We find from the evidence that the girls and women employed in the packing houses receive smaller wages than those employed in any line that we investigated and in a number of cases are working under extremely unsanitary

Pay of Girls.

The committee investigated the weekly earnings of 4,750 female employes. Their wages ranged from \$1.50 to \$40 per week. Of those receiving the latter wage there were three; sixteen received \$25 a week; twenty-three received \$20; thirty-six received \$18; seventeen received \$17; fortyfour received \$16; 114 received \$15; fifty received \$14; forty received \$13; 131 received \$12; 342 received \$5; 614 received \$6 311 received \$7; 292 received \$8; 426 received \$8.50; 260 receive \$9; 331 received \$16; one received \$11; one girl received \$1.50; ne received \$1.70; one, \$1.80, and one, \$2.17; forty-seven received \$3; ninety-two re-

The committee further asserted that II feels under obligations to the committee of Omaha women who helped in securing information and especially to Mrs. D. G. Craighead. The business men of Omaha and Lincoln also were commended for assistance in the gathering

5 Per Cent of Our Gross Sales of Saturday and Monday is To Be Given for the Relief of Omaha's Tornado Sufferers

THE need for help by the victims of last Sunday's awful catastrophe is appalling. The terrible suffering and destruction left in the wake of the wind, rain, and fire was added to by the snow storm of Tuesday. Thousands of our citizens are homeless and need immediate help. Every man, woman or child should contribute something, if only a little, and, although you may be of the many who are in need of money your need is not so great as that of the unfortunate sufferers of Sunday. Providence has

been good to you, so share the misfortune of those in need by helping them in some small way. Five Per Cent of our gross sales of Saturday and Monday will be given for the relief of the tornado sufferers; but we need your help to make this amount as great as possible. You are no doubt in need of merchandise of some sort, and if you buy it Saturday or Monday a twentieth part of what you spend goes to the relief fund, and restore. Come and help us to help the needy
