FLOODED CITIES START THE WORK OF REBUILDING

Improvement in Weather Helps Despatch, but is Dangerous to Public Health.

PURE WATER IS NEEDED
Chairman of Committee Issues Appeal to Other Cities.

DUPOUY FLAYS UNDERTAKERS
Declare that Visitors Are Not Wanted.

PASSENGERS ARE QUESTIONED
Most Dead Were Caught in Streets Going to Work.

BODIES COVERED WITH MUD
Searchers Waded Through Sea of Slimy Ooze--Bodies of Hundreds of Dead Animals Lying in Streets.

Investigations yesterday tended to confirm the estimates of deaths in the floods that swept over a score of cities in Ohio and Indiana last week at between 200 and 300. The latest estimates show the following deaths:

OHIO.	
Dayton	150
Cincinnati	100
Columbus	64
Banaville	10
Delaware	14
Chillicothe	18
Miamisburg	15
Paris	15
Tiffin	15
Mount Vernon	10
Fremont	14
Franklin	4
Troy	9
Ohio total	471

Indiana total: 60

DAYTON, O., March 30.--The work of rehabilitation began here today as the work of rescue approached its end. The all important weather showed improvement as viewed by refugees as it was warmer and pleasant to frost and water chilled bones, but the sanitary experts accepted the rise in temperature with mixed feelings, for the cold had retarded the decomposition of animal matter and refuse.

Secretary of War Garrison conferred with various officials and heads of committees and wired President Wilson that the death list was not near 500, and otherwise epitomized the situation and departed for Cincinnati after a fitting view of the city from an automobile.

It is probable that he will go to Columbus tomorrow.

W. E. Blackwell, in charge of the morgues, estimated the dead at 250.

Members of the citizens' relief committee are apprehensive of a water famine. It is believed there is little chance that the present supply can be made to last until the water mains are in use again.

Ask for Bottled Water.

R. H. Grant, in charge of the relief supplies committee, tonight issued an appeal to all cities in the country, asking that as much bottled water be shipped to Dayton as possible. It is especially desired that this water be pure, as it is practically impossible to boil the water for drinking purposes.

Medical supplies were reported woefully short by Major T. V. Dupuy, who is in charge of sanitary work. Drugs here were largely destroyed and the medical chests of the militia as well as supplies sent by other cities, have, in many instances, been destroyed.

INJURED ARE CONVALESCENT
Tornado Victims Still in Hospitals Reported Doing Nicely.

SURPRISINGLY FEW DIED
In Comparison to Large Number Treated at Different Institutions Not Many Were Fatally Injured.

Reports from the various hospitals yesterday indicated that most of the tornado injured were confined to them were doing nicely. Many have been discharged since the day after the catastrophe and within another week the number will be reduced considerably. After ten only those with major hurts will be obliged to remain.

County Hospital.
W. J. LePage, 453 Martha street, fracture and scalp wound.
Mr. Mathney, 1633 Mason street, Ella Douglas, colored, Twenty-fifth and 14th streets.
Pope Cowie, Twenty-sixth and Q streets.
Hanna Hargadine, Forty-second street and Grand avenue.
William Eagan, Forty-fifth and Marcy streets, not injured.
Mrs. J. S. Eagan and two children, 5411 Mayberry avenue, deep wound, arm and scalp wound.

WOULD JAIL GUY CRAMER
Greatest Fight of the Session is to "Come Off" Today.

CRAMER STRUCK SUGARMAN
Bollen of Knox Will Make Strong Fight Against Resolution to Incarcerate Cramer for Six Hours Without Trial.

(From a Staff Correspondent.)
LINCOLN, Neb., March 30.--(Special.)--The sensational fight of the session will come in the house tomorrow when an effort is made to adopt the resolution introduced by an investigating committee to send Guy Cramer to jail for six hours without a trial on the charge of having struck Representative Sugarman.

Bollen of Knox expects to make a fight against the adoption of the resolution, and if pressed too hard he may make some disclosures that may put the house up against the proposition of suspending or expelling one of its members.

The committee appointed to investigate the Cramer-Sugarman incident, through its chairman, Nichols of Madison, has made two reports to the house which flatly contradict each other, and Bollen will rely on these conflicting reports to prevent the house taking any summary action against Cramer.

In the first report Nichols reports Cramer hit Sugarman after adjournment, or words to that effect, and he reported examining several witnesses to prove the assault had occurred.

In the second report Nichols reports the assault occurred in the presence of the house of representatives in representative hall.

Madison Will Aid the Omaha Tornado Victims

MADISON, Neb., March 30.--(Special.)--A mass meeting of the citizens of Madison will be held Monday evening at 8 o'clock at the Haskins theater, to consider what should be done to assist the Omaha cyclone sufferers. The meeting is called by Mayor Fred H. Davis. The citizens of Madison desire to extend their sympathy to the unfortunate in Omaha in a substantial way, and it is thought that the action of this meeting will result in a plan, which will comprehend the entire city and make it possible for all to do something, thus distributing the burden from a few to many.

LEGISLATURE IS WAKING UP

Lawmakers Are Beginning to See Error of Laying on the Job.

TOOK THEMSELVES SERIOUSLY
Star Chamber Session Attempts to Pick Out Bills of Real Importance from Among Mass that Has Accumulated.

(From a Staff Correspondent.)
LINCOLN, Neb., March 30.--(Special.)--Though late in the season and the scales are beginning to drop from the eyes of some of the house members and they are beginning to take a tumble to themselves. These several house members have concluded they have been taking themselves too seriously and that really making the laws for the state an exemplified by the present house is a delusion and a snare and a roaring farce.

Those present at the meeting were Fallstead of Richardson, Busch of Otoe, Elwood of Antelope, Rebeche of Dawes and one or two others. On the outside with no invitation to enter was Bollen of Cedar, and Knox, while down the street was Potts of Pawnee, chairman respondent.

CONVICTS FOOD IS VILE
Report of Committee Suggests May Prison Reforms of Importance.

KITCHEN IS DISGRACEFUL
Modern Language Says the Joint Committee of Senate and House Cannot Describe Food Condition in Nebraska Penas.

(From a Staff Correspondent.)
LINCOLN, Neb., March 30.--(Special.)--The joint committee of the senate and house has made its report on the condition of the state penitentiary and its recommendations are included. It reports the condition of the kitchen and the facilities for preparing food, a disgrace to a decent state in the following language: "It is difficult to report upon the condition of the kitchen and the manner of handling the food, and use moderate language if your committee were to describe the condition of the kitchen as it was when visited by your committee to picture the restaurant in which the food was prepared, the condition of the room in which it was prepared, the details would be so unpleasant, the veracity of your committee might be questioned."

Food already cooked and prepared for the table was sent out from the Auditorium yesterday morning and afternoon to the various relief stations for the benefit of the sufferers who have no place to prepare food, even if it were received.

COOKED FOOD FOR HOMELESS
Relief Committee Sending Out Prepared Victuals to Stations.

MANY USELESS DONATIONS
A Great Many People Are Sending in Articles Out of Repair and of Practically No Real Service.

The dining room is in a basement, crowded to such an extent that some of the prisoners are being fed in the corridors of the cell house. The kitchen is a semi-basement structure reached by a tunnel from the dining room and is a filthy, impossible to keep clean in the kitchen on chunks of ice and the drainage from the closet sinks into the kitchen. It seems remarkable that one picnic has not rotted from the conditions as they now exist. The great set need of the penitentiary is a new kitchen and dining room.

Hospital is a Farce.
The report condemns the hospital as unworthy of the name and suggest the building of a second floor in the east cell house to be used for hospital and bath purposes. It is estimated that the cost not less than \$100,000.

Regarding the possibility of recreation grounds the committee says: "Your committee is of the opinion that the board of commissioners should ultimately plan to remove the existing plant in the yard to a point outside of the yard in order to do away with the danger of outbreaks and the introduction of 'dope' by the daily taking in and out of coal cars. As this would be an expensive removal at this time, and other improvements are so much more badly needed, we pass this suggestion merely with our recommendation."

Would Tear Down Horse Barns.
We recommend, however, that the board of public lands and buildings or the board of commissioners take steps immediately to tear down the old horse barn, which is inside the yard, and which is the original territorial prison. The few horses in the barn can be easily accommodated in the farm buildings outside, and this space will be needed when the dining room and kitchen is erected. The present solitary cell houses and hospital in the green house, the Lee Broom and Duster office, the heating plant and the horse barn should all be taken out of the yard and this space given up for recreation and recreation of the men. But as these removals and changes will take time and money, it is recommended that the board of commissioners take immediate steps to be taken and an appropriation made for the erection of an eighteen-foot wire fence made of strong material, with guardhouses at proper intervals and that this enclosure be made on the high ground in front of and to the north of the penitentiary and that the prisoners be given opportunity to exercise in the open air, for at least a few minutes each day and on Saturdays, which is inside the yard, and were permitted to take part in such sports as is conducive to health and physical strength.

PAT CROWE RELEASED FOR HIS ROBBERY STORIES
MINNEAPOLIS, March 30.--Pat Crowe, who was serving a ninety days' sentence for ordering more chop suey at a local restaurant than he had money to pay for, was released from the workhouse Saturday with two-thirds of his time yet to serve. This action was taken by the court because Frank McDonald, superintendent of the prison told the judge that the stories he was telling of his numerous escapades in the old days were having an evil influence on the young prisoners, many of them serving their first sentence for trivial offenses.

RELIEF WORK TO REQUIRE LARGER SUMS OF MONEY

Committee to Systematically Go About Work of Securing Additional Sums.

CHECK UP THE LARGE FIRMS
Will Ask for Contributions from Those Not on the Lists.

COMMITTEE GOES TO LINCOLN
Has Relief Measure Asking for Right to Vote Bonds.

GOVERNOR TO RECOMMEND IT
Only Way in Which Such Bill May Now Be Introduced.

REAL ESTATE MEN ARE ACTIVE
Find They Have Undertaken a Huge Task to Check Up the List of Property Damaged by the Cyclone.

With the general relief fund for the tornado sufferers amounting to \$100,000 in round numbers, the general relief committee expects this morning to set to work systematically to inquire farther for relief money from some of the business firms of the city. A list of the business firms that have contributed has been made up alphabetically and the amount they have contributed will be placed after their names. This is for the use of the committee alone in making further solicitations. "We have thus far not asked a single one of our firms to contribute," said one of the committee yesterday evening and the money has been pouring in splendidly. When we come to look over the list of firms in the city and the amounts they have given, there really are not so very many that have not contributed up to date. We have no doubt all of them are willing to contribute and we are going to call them up one by one and ask them if they will contribute and how much."

Expect to Swell List.
This evening is expected to swell the list materially before this evening, although it will perhaps take several days or maybe a week to reach all of them. "The money is coming in splendidly," said Treasurer Cowell when asked about the finances yesterday, "but the need is terrific, the need is terrific."

Seek Bond Authorization.
A committee from the special finance committee of the general relief committee, headed by John L. Kennedy, will go to Lincoln this morning to present the needs of Omaha before the state legislature. They will ask for the enactment of laws permitting Douglas county to vote \$1,000,000 in bonds to be used for the rebuilding of the destroyed homes.

This committee leaves at 9:15 this morning for Lincoln. There are fourteen in the committee, and a roll call last night indicated that about a dozen of these would be able to go. They will take with them a draft of the proposed bill they desire the legislature to consider, empowering Douglas county to vote bonds in the sum of \$1,000,000. The committee will go directly to the governor with the proposal, as it is only through the recommendation of the governor that a bill can be introduced in the legislature now that the twenty days fixed by law for the introduction of bills have past.

Real Estate Men Active.
The committee of real estate men working in the affected district gathering information in regard to the amounts of damage in the various homes, the condition of mortgages, etc., has been working faithfully, but will not likely be through for several days. Members of the committee say it is the most difficult task they have ever undertaken. Only by the aid of the maps and charts kept by all real estate men are they able to determine the house number of most places where the wreck was worst, as several houses are often piled together in one tangled mass of kindling wood, with no house number to be found anywhere in the ruins. When the committee does learn the number of the houses that stood there, the next task is to find the owner or the renter. If the house is destroyed or damaged to any great extent the family has necessarily moved and in most cases no one in the neighborhood is able to tell where the family has gone.

Changed Addresses.
As yet no very effective method of listing new addresses has been devised. Miss Clara Cooper has on her own authority established a bureau of changed addresses in the city council chamber. She has a card system and has lists of a great many changed addresses, but as yet no very systematic method of reporting.
