BOMB IN LINCOLN CAMP

Anti-Removalists Hard Hit by Committee's Plan.

BIG JAR TO CITY SALOONS

If Campus Stays Where it is, Purpose is to Bar Liquor Sales and Pool Halls Within Three Blocks.

(From a Staff Correspondent.) LINCOLN, April 5.—(Special).—Had a bomb exploded in the midst of the bunch of Lincoln patriots who consider the dollar of more consequence than the man, it would not have caused a greater consternation than the publication this morning that the committee appointed to agree upon a plan for university extension had practically selected a plan that in case the university was moved to the state farm or remained in its present location, there should be no saloons allowed within three blocks of the university grounds.

This puts the advocates of university extension on the present location or the six blocks adjoining it, up in the air. The men who have been advocating extension of the university on the downtown lots because it gave them a better chance to get the dollars which the students might have loose in their pockets, were going about today looking sideways at everything for fear that something new is going to be sprung.

The fact that the committee is practically unanimous in the plan has upset every calculation made by the anti-removalists and now that the committee is considering changing the resolution to make it impossible to have saloons or pool halls within five blocks instead of three, is rather more than the average anti-removalist can stand.

This will practically cause every saloon in Lincoln to seek a new location with the exception of two and will put every pool hall out of the business section. Even the hotels will be hit by the change and will have to discontinue their wet goods emporiums or move their hotels.

It puts the proposition squarely before the people of Lincoln whether they would rather keep their saloons or the university. If the university is moved to the state farm, the saloons can remain in their present locations, but if the university stays where it is the saloons will

Could Not Sleep on Account of Kidney Trouble

I have been a resident of Couderesport for thirty years. My age is 52, and I wish to testify to the wonderful results of the use of Dr. Kilmer's Swamp-Root. I have used it off and on in my family for the past twelve years, and always with immediate benefit.

About two years ago my husband had a severe attack of kidney trouble, was unable to sleep and suffered great pain. Could eat no breakfast and became very thin in flesh. After he had taken half a bottle of Swamp-Root, he felt much better. The pain in his back left him and his appetite returned. I have never doctor'd with the doctors because of my faith in Swamp-Root.

I heartily recommend it to anyone in a run down condition from trouble with the kidneys. Yours very truly, MRS. JAMES MORAN, Couderesport, Pa.

On this 22d day of May, 1913, before me a Notary Public in and for the County of Potter and State of Pennsylvania, personally appeared Mrs. James Moran, to me well known and in due form of words she made oath that the above and foregoing statement is correct and true. Witness my hand and Notarial seal, ARTHUR B. MANN, Notary Public.

From What Swamp-Root Will Do for You Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention The Omaha Sunday Bee. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

RIVER FALLING AT CAIRO

(Continued from Page One.)

account of this break, and if this is the case all danger will be ended so far as Cairo is concerned.

A relief expedition was sent to Mound City, Ill., today. The conditions there are said to be becoming strenuous for both the residents and soldiers, and some of them may be brought out of there if Colonel Morarity, who will go personally to inspect the place, sees fit. The sun was bright and warm today.

Relief Rescues De Koven.

DE KOVEN, Ky., April 4.—The Ohio river has risen only one-tenth of an inch since yesterday morning. It is believed the worst of the flood is over, as only slight rises are reported from Evansville, Ind., and Shawneetown, Ill. No rain has fallen for twenty-four hours. All fear of distress among the lower Ohio river flood victims has been allayed by the arrival of two relief steamers, the Isabella from Evansville, and the Raids from Cairo. These two boats now are carrying supplies to Shawneetown, Uniontown, Caseyville and smaller places laid waste by the flood.

Point Pleasant Levee Holds.

MEMPHIS, April 5.—Rumors that the levee at Point Pleasant gave way last night, flooding the St. Francis basin, were denied by United States engineers here today. It was stated that officers were in telephone communication with Point Pleasant after midnight and that the levee was intact.

Major Markham received a telegram today stating that conditions from Cairo to Point Pleasant were satisfactory throughout the night. He expressed belief that levees would hold.

The fall at Cairo is attributed to the flooding of the upper St. Francis basin by water flowing over an old stretch of levee above New Madrid on which work has been abandoned. While this relieves the pressure at Cairo it will not affect the lower river because the water will return to the Mississippi below New Madrid.

THREE MEN KILLED BY EXPLOSION OF SLAG

PITTSBURGH, April 5.—Three men were burned to death and two others probably fatally injured in an explosion at the Homestead works of the United States Steel corporation this morning. Twenty men were at work in that section of the plant where slag from the furnaces is broken up, when from some cause, at present unknown, a terrific explosion occurred. Men were tossed about in all directions, some of them being thrown beyond the range of the flying

Helpers at 33rd and Lincoln Boulevard

metal. The three who were killed were buried under a mass of slag and burned beyond recognition. The names of the dead and injured will not be known until the company's roll books have been examined.

REPORT HUERTA IS TO RESIGN IS DENIED

NEW ORLEANS, La., April 5.—Official denial of the reported intention of General Huerta to resign the presidency of Mexico in favor of Pedro Lascurain, minister of foreign relations in the Madero cabinet, was received here today.

"News relating to the appointment of Senator Lascurain absolutely false."

LAREDO, Tex., April 5.—Full details of the three days' battle between federals and Carranza followers at Sattillo, Mexico, March 22, 23 and 24, received here today, state the number of killed was 200. The federal loss was small compared to that of the rebels, it was declared.

DEATH RECORD.

J. A. Strain. M'COOK, Neb., April 5.—(Special).—J. A. Strain of Danbury, this county, died yesterday morning, aged 72 years. The body will be shipped to Iowa for burial. Mrs. Catherine R. Spracklin. CHADRON, Neb., April 5.—(Special).—Mrs. Catherine Russell Spracklin died

Wednesday at Homingford while visiting a son. Deceased had lived near Chadron for over twenty-five years. She leaves five sons, two daughters, forty-nine grandchildren and sixteen great-grandchildren.

Blue Sky Measure Changed by House

(From a Staff Correspondent.) LINCOLN, Neb., April 5.—(Special Telegram).—In the committee of the whole this afternoon the house recommended for passage the Cordell blue sky bill, after amending the meat out of it. One amendment exempts from operations of the bill those mining concerns organized for five years past in any state, providing the directors and officers are residents of Nebraska.

Real estate men are exempt from the provisions of the bill, but the state conservation commission is to answer any questions regarding a real estate proposition and pass on such propositions for the public. That is, Frank Odell and Dr. G. E. Condra will tell the public whether or not to buy. The one is a bee expert, and the other makes his living as a member of the university faculty.

Tornado Benefit at Chadron.

CHADRON, Neb., April 5.—(Special).—Last evening P. B. Nelson donated the use of his opera house and A. W. Paxton, assisted by LeRoy McNeil of Sheridan, Wyo., gave an exhibition of his numerous feats of handling firearms, for the benefit of the tornado sufferers in Omaha. The night was stormy and the admission being only 10 cents, but \$300 was added to the fund, which is now over \$700.

Powers Slow to Follow Lead of the United States

WASHINGTON, April 5.—At least one great power already has declined to join the United States in recognizing the new republic at this stage and there is reason to expect some of the other powers to take a similar attitude. No protest has been lodged against the course to be taken by the United States, but there exists at some foreign capitals such doubt of the success of the attempt of the constituent assembly to organize a complete and stable government on April 8 that some of the powers deem it prudent to withhold formal recognition for the present at least.

The appearance of at least one rival candidate for the presidential office, when it was shown that Yuan Shi Kai's selection practically was assured, with reports of powerful support for this new candidate from southern China, is believed to be the basis for the hesitation shown by some of the powers in dealing with the question of recognition.

At any rate it is certain that while Secretary Bryan's proposition will receive the cordial support of a number of the governments addressed by him, there will surely be a certain number of the powers holding aloof, though not in any sense protesting against the independent action of the United States.

American Buys Historic Chateau

PARIS, April 5.—The historic chateau of Chenonceaux belonging to Count Stanislas de Castellane, brother of Count Boni de Castellane was purchased today for \$25,000 by a Parisian lawyer, who is said to be acting on behalf of an American millionaire whose name has not been made public.

According to the French law the name of the new proprietor must be disclosed within three days after the change of property ownership.

ENGINEER O'BRIEN KILLED AT PLACE OF FORMER WRECK

GOTHENBURG, Neb., April 5.—(Special Telegram).—Engineer D. J. O'Brien of Union Pacific train No. 9 was struck and instantly killed this afternoon by the engine of train No. 8. O'Brien was offing his engine and stepped onto the eastbound track just ahead of the engine of train No. 8, which was going through without stopping here. O'Brien is a married man, his widow and family living at North Platte. The body was taken to North Platte. O'Brien was pulling No. 4, in the wreck here March 11, and his engine stood at the same spot that this accident occurred.

Will Dig Tunnel Sixteen Miles Long

WINNIPEG, Man., April 5.—The Canadian Pacific railway announced today it would begin construction of the longest tunnel in America. The tunnel will be built through Kicking Horse pass in the Rocky mountains and will be sixteen miles long, costing \$14,000,000. It will take seven years, it is estimated, to build it. The great hole through the mountain will be four miles longer than the famous Simpson tunnel through the Alps. Railroad officials assert that the construction of this tunnel will eliminate many miles of dangerous snow sheds.
