Imagine the situation of W. H. McMains of Derby, lows. Back broken two years ago paralyzed from waist down, no power of retention, terrible wounds. Think of the heroism of Mrs. McMains, who in addition to the tremendous burden implied by the care of her husband and small children, night and morning, necessarily does six washings a week—the task is beyond a woman's strength. With their own home and \$10 a month they could live.

home and \$10 s month they could live.

Wm. Harrah; a victim of our frequent mine disasters. Picked up twelve years ago, terribly crushed, spine broken. All these years he has lain with body lifeless from hips down. Destitute, with his wife and small children—but for an occasional notice by "Uncle Charley" in "Comfort" they could scarcely have survived. In addition to her other duties, Mrs. Harrah took charge of a large garden, their main support, until two years ago, she succombed. \$10 a month would enable this man to spend his last days with his children in his own home, which is his only wish.

How many know the story of C. E. Crowe, the wheel-chair printer of St. Paul, Neb. Illness in childhood left him totally deaf, and without any use of his limbs. Can only stand with the aid of crutches. Educated himself, learned printing for years has published a little paper. Of necessity he cooks and sleeps in his shop. \$10 s month will enable this man to pay the mortgage on his machinery, else he will be deprived of his only means of support.

be deprived of his only means of support.

In her letter, last June, our secretary spoke of a woman slowly dying from dropsy, who necessarily supported her family of young children on \$20 a month, the wages of the oldest boy. The mother has since died, leaving these five children (3 girls) to govern their own home, with scant help or guidance. \$5 a month is recommended, but if the oldest boy could be awakened to a pride of his responsibility, \$10 would be advisable.

Mrs. Dahlgren is another of Miss Camenzind's wards. For half a lifetime, this aged woman, now greatly enfeebled, has labored to provide shelter for her blind mother and deformed and legless son. \$5 or \$10 a month would be mercy incalculable.

Mrs. Alquist, city missionary, reccommends aid for Mrs. Densiow, aged \$1. For nearly \$ years Mrs. A. has paid for a room for this lone woman, whose only reliance is a monthly credit of \$5 for groceries Mrs. A. says an additional \$5 would insure frugal comfort. Mrs. Selina Johnson, a woman in years, with a childs' body. Strange as it seems, this girl must support herself and mother, aged 69. Illness in infancy deprived her of growth and the use of her limbs. Her mother lifts her into her chair, where she spends the day making artificial flowers, occasionally, weather permitting, she sells triffies in her whisel chair on the street. Mrs. A. says Selms must have \$10 a month.

This provides for an expenditure of \$50 a month. Success will permit a distribution of over \$165 a month. Space forbids the entire list, but among them all NONE are in greater peril than myself, because NONE are friendless. Except those merely aged, all have mother, wife or husband to lean on, or they could NOT have survived. I AM UTTERLY ALONE.

Imagine my difficulty, without functional control, with incurable wounds, unable even to sit erect, to be compelled to advertise for a woman to keep house and take care of me for \$5 a week—the truth is, dependent wholly on strangers. I NEVER know the hour when I may be DESERTED.

Otherwise I will be left without either nurse or help within a year.

Now, I must have 300 subscriptions by April 28th. Eillions read these magazines. Thousands purchase the Eaturday Evening Post on news stands who could save \$1.10 a year. I wrote 1300 last April, surely 300 will place their order or renewal at once to save this \$3000.
