Legislative Committee Censures Former Kearney School Head.

BOOKKEEPING IS UNDER BAN

Members Declare System Not Equal to that Used in Corner Grocery, While Other Defects Are

Found.

(From a Staff Correspondent.) LINCOLN, April 10 - (Special.) - A very warm report filed by the special committee appointed to investigate conditions at the boys' industrial school was handed in and read by the secretary of the senate this morning and adopted. The report is a severe castigation of ex- Su- of 18 to 11 and the bill recommended for all were of the opinion that the ascuste torney general to begin proceedings first real fight of the kind this session against the former superintendent for the | The balance of the afternoon in the recovery of money unaccounted for. The committee was spent on appropriation from the house several weeks ago twenreport is as follows:

Your special committee appointed to investigate the books and records of the boys industrial school at Kearney beg leave to submit the following report, viz:

The method of bookseeping at this in-The method of bookkeeping at this in-stitution would be a disgrace to a corner grovery. No method is used to keep sep-arate the money expended for different items and no way to determine the daily amount of supplies on hand, for the rea-son that the steward delivers such ar-ticles to the cook and heads of different departments without making a requisi-tion berefor.

The items of expenditure disclose a cckless waste of public funds and gross

and in addition to the above sum the state paid for the return of runaway boys during the same period the sum of

The law provides that each head of an

Everything Sold Cheap.

Mr. Manuel is a believer in reducing the high cost of living and hence sold everything cheap. On September 27, 1919. he sold thirty-two calves, 6 and 7 months old, and eight cows, for \$415, or \$10.30 a head, being about 2 cents per pound or one-half of their value. This sale was made to a sen of one of the employes. be sold thirty-two calves, 6 and 1 months old, and eight cows, for \$15.00 a locad, being about 2 cents per pound of the employes. The testimony before this committee shows that in addition to the thirty-two calves and eight cows, there were six helifers, and the bill of lading of the Union Pacific Railroad at Kearney shows that forty-six head were shipped out. Mr. Manuel has failed to account to the state for the six helfers. On October 1, 1912, he sold twenty-five cales, twenty of which were 6 and 7 months old, for the sum of \$250, being one-half of their real value, On December 30, 1916, Mr. Griffen, an employe bought and crated a 3-months-old calf, which has never been accounted for calf, which has never been accounted for down and calf, which has never been accounted to Lancastan, Children, Marshall, Ollis, Hammel, Kemp, Klechel, calf, which has never been accounted for. In September, 1910, a cow was sold to Mr. Pairchild, an employe, for \$50, which sum has not been accounted for. There are twenty-three horses at the institution. ny more than necessary, and Mr. Man-sold two work horses for \$170 and purhased a riding horse for \$25, used ex- senate today; clusively by his daughter.

Rents Own Typewriter.

The state had a typewriter on hand, but Mr. Manuel conceived the lifea of rening his own machine to the stenographer and drawing vouchers from the state for \$45 each month and compelling the stenographer to pay him \$5 a month, thereby getting 246 for the use of his machine during his term.

this time amount to \$30,000, making a total of \$165,314.

The average number of boys being 150, thereby costing the state \$10.85 per week or \$1.35 per day for each boy. This committee has reached the conclusion that it would be cheaper to maintain the boys at the Lincoln hotel, if such conditions are to prevail in the future.

We recommend that the attorney general commence an action against C. B. Manuel for \$500; to recover the value of six heifers, \$180; one cow sold to Fairchild, \$30; one calf sold to Griffen, \$15; and \$125 balance due for cows and calves sold as above mentioned.

We further recommend that the State Board of Public Lands and Buildings emplay on expert to properly check up the books, vouchers and cash fund, and to trace all transactions made at said institutions during the last four years, and to lo such other things as may be necessary under the laws of this state.

Favored Bills.

(From a Stall Correspondent. LINCOLN, April 16 .- (Special) -The senate was a busy place this forenoon and the legislature ground out legislation in a hurry On reports of standing committees twenty-three bills saw the light of day, while two went the indefinite postponement route. One of them. The institution cash fund falls in nearly however, House Roll No. 228, had another senate. instance to disclose to whom or other glimpse of sunshine just before the at what price stock or stan was solution or receipts are given for money received, which should be done.

The amount paid for coal during the first six months of 1912 shows an expenditure of \$6,102.10. The institution has at all times from sixty-five to eighty-five head of cattle, of which thirty head are mileh cows, and yet the butter and egg account for the first nine mouths of 1912 shows an expenditure of 1951.

Mr. Manuel appears to have enjoyed traveling at state expense and the account for traveling expenses during als four years of tenure amounts to \$2.244.92, and in addition to the above sum the House Roll No. 346, had no friend suffi-

number of twenty-six passed the senate with little or no opposition, except House Roll No. 280, which falled to pass with The law provides that each head of an institution shall make a requisition for supplies each month, but Mr. Manuel did not trust the state board and found it necessary to expend \$1.679.18 for trips to lincoln for buying purposes.

Land Commissioner E. B. Cowles ordered a new pump, and Mr. Manuel, without authority, ordered another, and hence the state has a pump costing \$125 on hand without having any use for it.

The meat account for 1912, while the state has plenty of hogs and cattle to supply the institution with meat, amounts to \$4.375.71.

The Tread That Makes the Brake Effective

Goodrich Safety Tread Tires

Best in the Short Stop.

Goodrich Safety Treads not only give you safety and sureness all the time, driving, turning or stopping-They naturally give you longer wear -greater tire value.

The rows of five thick, tough rubber fingers repeated around the usual thick, tough Goodrich rubber tread add durability and wear to the safety. They are not separate parts—they are made right in the tread, an extra thickness of splendid rubber, compounded in the Goodrich way, which has forty three years of rubber experience in it.

This extra thick, tough tread is obviously certain to give you more

Goodrich Safety Tread tires are not emergency propositions. They are made for all day and all night work, if you so wish to use them.

In addition to the safety and secority they give you it is worth your while to consider the extra value and service you secure in them.

The five thick, tough rubber fingers of the Goodrich Safety Tread, all the time your car is running, are digging right down through the mud, slush, ooze or other slipperiness, and making a constantly clean safe path.

The human hand-grip they get on the road or street is a powerful defense against any chance of a skid. Goodrich Safety Tread Tires are made just as all Goodrich Tires are made-unit molded construction. The strips of fabric, pure rubber, and thick, tough tread are literally molded into a unit in our single vulcanization.

This is one reason why Goodrich treads do not strip or peel. Your tire dealer will show you the Goodrich Safety Tread the will not need to explain it, for its principle and sureness are self evident.

There is nothing in Goodrich Advertising that isn't in Goodrich Tires

AUTO TIRE REDUCTION BY GOODRICH RUBBER COMPANY Increased Efficiency in Manufacture and Drop in Crude Rubber Responsible for Out.

By JOHN C. WETMORE

An announcement of no small moment to the automobile fraternity is made to-day in the advertising columns of The Evening Mail. It is none other than that the H. F. Goodrich Company has made a reduction in the prices of Goodrich three. Officials of the Goodrich Company declare that it is reasonable to assume that the example set by this powerful member of the tire making industry will be followed by the other makers.

No explanation or reasons why are

of the tire making industry will be followed by the other makers.

No explanation or reasons why are given in this announcement, but with crude rubber selling at a somewhat lower figure than that prevailing for a year or more past, and the constant devising and application of new higher efficiency methods of tire manufacture, the reduced Goodrich tire prices are but a natural outcome and show the willingness of a great corporation to give the huying public the benefits derived from changed and improved conditions.

I understand that the reduction betters the present price to the user 5 per cent. This, coupled with the reduction first put into effect by the same company nearly a year ago, enables the purchase of tires by the user now at a material saving over prices prevailing prior to April of last year. New York Evening Mail.

March 31, 1913.
