MEMORIAL ARMORY ASSURED

Bill for Same in Nebraska City Passes Senate.

TWENTY THOUSAND SET APART

Otoe County Statesman Has in Addition Secured Passage of Bill Permitting Sunday Base Ball.

(From a Staff Correspondent.) LINCOLN, April 11.—(Special.)—Senator Bartling of Nebraska City will go home from the legislature exceedingly happy. This morning his happiness was made complete when house roll 726, a bill appropriating \$20,000 for a memorial armory at Nebraska City, after passing the house came over to the senate and passed with only three votes against it.

For years Nebraska City has tried to get the legislature of Nebraska fittingly to mark the site of old Fort Kearney, the first block house or Indiana fort in the state. In a fitting manner and this session sees the culmination of the hopes and ambitions of the people of Nebraska City realized.

Senator Bartling in addition to sponsoring the memorial armory is the author of the first Sunday base ball bill adopted by a Nebraska legislature, notwithstanding efforts for the passage of such a measure several times before.

Cabinet Considers Message from New Republic of China

WASHINGTON, April 11.—The formal address of the new Chinese republic to the world was received here today by cable and taken up by President Wilson and the cabinet. Its text may be made public later. The cabinet discussed the question of recognition. No action was taken, but word went out that as soon as organization of the assembly is finished, which probably will be tomorrow, formal recognition of Yuan Shi Kai's government will be made by the United States.

Members of the cabinet talked of the address as a diplomatic utterance that breathed the spirit of liberty of an awakened people.

The fact that Brazil, Peru and Mexico already have recognized China did not create any impression of regret that the United States has not actually been the first to recognize the new republic. Members of the cabinet pointed out that the United States in appealing to the nations of the world for joint action had in effect been the first to demonstrate its attitude. It will be a matter of only a few days, too, they said, when the new republic would be taken into the family of nations at Washington. Reports of attempted assassinations and political unrest are not disturbing the administration, they declared.

The cabinet took under consideration also today the questions created by the pending alien land law legislation in California, with the expressed hope that California would not enact any law to impair treaty obligations. The friendly feeling of this country for China, whose citizens also cannot be naturalized was cited as an evidence that the Wilson administration was anxious to promote good feeling in the far east and was especially anxious to retain the friendship of Japan.

Alleged Marrying Thief is Identified as E. C. C. Von Klein

CHICAGO, April 11.—While the local police had previously satisfied themselves that "Jack Lewis," alias "Weaver B. Clark," alleged "marrying swindler," was really E. C. C. Von Klein, a diamond broker of Minneapolis, the identification was confirmed by W. A. Pemberton, head houseman of the Elks club rooms here. Hereafter the prisoner will be known to the police as Von Klein.

At the county jail, when Jailer Davies ordered Von Klein brought to the office, the latter sent back word that he was ill.

"Bring him down on a stretcher then," commanded Davies, and the order was promptly obeyed. The prisoner had tied a handkerchief around his face and struggled to keep it there, but it was torn away.

"Sure, that's Von Klein," said Pemberton. "I've known him for five years; I couldn't be mistaken. He is a member of the Elks' lodge No. 44 at Minneapolis and I've taken care of his things at the lodge there many times. I'd know him if I saw only the back of his head."

The difficulty of identifying the prisoner awoke great interest in his case. He refused to identify himself. His family at Minneapolis insisted that some horrible error had been made. His father, Dr. Carl Von Klein, of this city, world-renowned as an investigator of old and writer on ancient medical lore, who has spent a fortune in that pursuit, declared that the prisoner was not his son, but declined to confirm his denial by visiting the jail.

Von Klein is accused of swindling two women out of jewelry of an aggregate

Great Earthslide Moves Into Canal

WASHINGTON, April 11.—A giant shoulder of rock that for the last few years had prevented a mountain of earth from slipping into Culebra cut on the Panama canal at last has given way, and, according to official reports received today, the slide has moved into the canal a distance of eighty feet and is still traveling.

A battery of steam shovels is now tearing away at the earth and rock. At the end of March thirty-two of these engines were working in the canal proper at this point, and besides this many shovels were engaged in terracing the banks and miscellaneous operations.

As a result the obstacle has been so far overcome that excavation has reached grade in all but 8,000 feet of the ten miles of the cut. By October 1, 5,000,000 yards of material will have been taken out by the steam shovels, when the water will be turned on and the shovel will retreat before the dredges, leaving them between 2,000,000 and 3,000,000 cubic yards of material to remove. Up to January 31 last, the United States gov-

Mothers' Pension Bill is Passed by Ohio Legislature

COLUMBUS, O., April 11.—The Green-lund bill providing for pensions for mothers, an administration bill, was passed in the house today and now goes to Governor Cox, whose approval is assured. The bill makes provision for an annual tax levy for one-tenth of a mill, which is expected to create a fund each year of not less than \$700,000 for the mothers' pension fund.

Destitute widows, women whose husbands are disabled, have deserted them or are serving prison sentences, are to be cared for under the provisions of the measure.

Juvenile courts are to be authorized to pay such women \$15 a month for a child under 14 years of age and \$1 a month for each additional child under that age. The bill makes drastic changes in the juvenile code. Under the latter as amended boys under 14 are prohibited from selling newspapers or chewing gum on the streets.

Militant Women Burn Grandstand

LONDON, April 11.—Militant suffragettes early this morning set fire to the grandstand of the Great Cricket ground at Tunbridge, Wales. They left behind them a photograph of Mrs. Pankhurst. An alleged suffragette attempt to destroy by fire the dirigible balloon sheds and aeroplanes parks of the army flying

corps was reported today from Farnborough. The fire was extinguished before any damage had been done.

It is understood that a member of the House of Commons who is friendly to woman suffrage will ask Reginald McKenna, home secretary, next week whether he is contemplating deportation of Miss Emerson and other foreign militant suffragettes guilty of breaking English laws as undesirable citizens.

Under the law, Mr. McKenna could do this, hence the report has caused consternation among the American women here who have jail records, as well as among those whose affiliation with the militant suffragettes' organization might lead to their being sentenced to prison terms.
