

STEPHENS SEEMS SATISFIED

Declares Burleson's Primary Attitude Makes No Change.

CONGRESSMAN'S O. K. WILL HOLD

Makes No Difference to Postmaster General How Congressman Arrives at Decision Whom He Shall Recommend.

(From a Staff Correspondent.) WASHINGTON, April 18.—Special Telegram.—Postmaster General Burleson's position as to primary elections for postmasters, with especial reference to certain South Dakota primaries, has filled the cup of Representative Stephens to overflowing.

It will be recalled that certain primaries held in the Third district called out rather severe criticism on the head of Mr. Stephens, but the statement of the postmaster general has made the pathway of Mr. Stephens much easier, according to a statement he made today.

Mr. Stephens said: "The statement of Postmaster General Burleson in regard to his attitude toward primary elections in South Dakota is sound and will result in the proper man being appointed. I am informed that he simply meant that any selection method that was approved by a congressman would have every consideration, but a method hatched out by political enemies for the purpose of embarrassing the administration would not be recognized."

"I am assured by the department that the certificates of election of postmasters from my district bearing my endorsement will be recognized."

"Any method of election that meets my approval as being sufficient to secure to the people competent postmasters will be satisfactory to the department."

Can He No Contest.

There are no contests, nor can there be any, in the towns where elections are held in the Third district of Nebraska, for the simple reason that all candidates are pledged to abide by the result of the election. A contest by any defeated candidate would have no standing whatever. Such a contest would not only have the voice of the people against it, but would also be opposed both by myself and the chairman of the county central committee.

"It can readily be seen that if the department could not depend on the election certificate issued by the people and approved by both the congressman and chairman of the county central committee, he would have much less reason for approving of a contestant who was discarded by the people and refused endorsement by the congressman and the chairman of the democratic county central committee. No, there is no question about the candidates for postmasters who have their election certificates issued under the rules I have provided being appointed in due course of time."

Bryan Wing Wins.

The nomination of Jerry B. Sullivan of Iowa to be general appraiser of merchandise, with headquarters in New York, is a triumph for the Bryan wing of the democratic party and would seem to indicate that there is an understanding between Bryan and Wilson as to appointments in certain sections of the country, notwithstanding rumors of friction between the president and his secretary of state.

Banker Worth Ten Millions is Found Guilty of Fraud

BELLINGHAM, Wash., April 18.—Jacob Furth, chairman of the board of directors of the Seattle National bank, who was charged with aiding and abetting William E. Schrieker, former president of the La Crosse Private State bank, in accepting deposits, knowing the bank to be insolvent, was found guilty today by a jury in the superior court here. A motion for a new trial will be made.

Jacob Furth, as the principal banker and financier of Seattle and head of the Boston firm of Stone & Webster's enterprises in Washington, is well known in eastern financial circles. The Seattle National bank is next to the largest bank in the Pacific northwest. He also is president of the First National bank of Snohomish, Wash.; the Seattle Electric company, the Puget Sound Electric company, the Bank of Commerce of Anacortes, Wash., and the Chicago Land and Stock company, and a director in many other financial institutions in the Pacific northwest. He is reputed to be worth \$10,000,000.

The trial ended today was the second, the first having resulted in a disagreement.

William E. Schrieker's private bank at La Crosse was declared bankrupt on April 18, 1912. Its liabilities in excess of assets were said to reach nearly \$500,000. The prosecution proved that Furth was a personal friend of Schrieker's, and that Schrieker carried heavy accounts at all banks with the Seattle National bank, which was his city correspondent bank. On the morning that Schrieker failed to open his bank, according to the contention of the prosecution, the Seattle National messengers cashed checks which Schrieker's bank had filed the day preceding. Instead of submitting them to the clearing house, the Seattle National endorsed the checks and demanded counter payment on them.

Ship With Cargo of Tin Sunk Eighteen Years Ago Found

SEATTLE, Wash., April 18.—The canner schooner, S. F. Callier, lost at sea eighteen years ago, has been called back from the lists of missing ships. Walter McCary of this city, a submarine diver, stumbled on the vessel in sixty feet of water in Chignik lagoon, Alaska, recently, and is preparing to take out of the wreck nearly \$50,000 in tin bullion with which it was laden. He is on his way back to Alaska today to salvage the cargo of the Callier, scraping away the weeds and barnacles he uncovers the name board, but kept his own counsel when he returned to the surface. Investigation showed that the schooner had cleared from San Francisco for the canneries eighteen years ago and foundered off the Alaska coast at a point far from her present resting place. McCary reached an agreement with the owners and consignees by which he will get 10 per cent of the salvage.

BRUSSELS PRINTERS TO QUIT

Union Men on Daily Papers Will Strike Tomorrow.

MOVEMENT SLOWLY SPREADING

Socialist Leaders Keep Their Followers Well in Hand and Few Return to Work and There is Little Violence.

BRUSSELS, April 18.—The strike of all union printers tomorrow will bring home to residents of the Belgian capital the effects of the great national strike far more forcibly than the crippling of industry in other parts of the country has done. Most of the fifteen daily papers issued here will be unable to publish. A few papers will appear in reduced form.

Today's estimates of the number of strikers makes the total between 350,000 and 25,000. The movement maintains its determined character throughout the provinces. The socialist leaders have generally succeeded in keeping their followers well in hand and have prevailed on them to continue passive. Only in a few instances have disturbances occurred and these of a minor character.

In the industrial province of Hainaut a few have returned to work, but the number of accessions to the strike movement fully balances the defections. Shipping has suffered some delay at Antwerp owing to lack of hands for loading freight.

The street cleaners of the capital threaten today to add to the inconvenience of the residents by quitting their work immediately.

Employer Feeds Children. LA LOUCIERE, Belgium, April 18.—The proprietor of the leading machine works here has taken over entire charge of the feeding of the children of 2,000 strikers from his own factory.

LIEGE, Belgium, April 18.—Several hundred men who struck here on Monday returned to work today, but to com-

terbalance this, a larger number laid down their tools in the neighboring district of Herve. JEMAPPES, Belgium, April 18.—Roving bands of rowdies broke hundreds of windows in the houses of non-strikers in this district early today.

Pugilist Killed, Managers Arrested

HARTINGS, Mich., April 18.—Several fighters, wrestlers and managers who participated in the boxing and wrestling matches held here last night have been detained by the authorities, who are investigating the death of Billy Allen of Jackson, a light-weight pugilist, who succumbed a short time after he engaged in a boxing bout with T. L. Brady, also of Jackson.

In the second round Allen was knocked against the ropes. He responded to the gong at the start of the third round, but a moment later sank to the canvas unconscious.

New Opera House at Hampton.

IOWA FALLS, Ia., April 18.—(Special.)—Another modern playhouse will be added to the growing list of up-to-date opera houses in Iowa next Thursday evening, when the opening of the new Windsor theater at Hampton will occur.

The stockholders selected "A Modern Eve" as the opening attraction and seats are being sold for \$5 and \$10 for the opening night. This new theater has just been completed at a cost of \$35,000, and was built by a company known as the Windsor company, incorporated. This company was the outgrowth on the part of the Knights of Pythias lodge at Hampton to own a permanent lodge home. The building is 68x115 feet inside and occupies a prominent corner in the business district of the city. It has two stories and a daylight basement. The exterior is of dressed brick and Bedford stone trimmings and presents a handsome appearance.

A Woman Can Drive It Without Soiling Her Gloves

Haven't you often wished for a car your wife, or sister, or daughter could drive? And haven't they often wished for the same thing?

It is no longer necessary for the woman who likes to motor merely to wish—or wait for a man to take her driving.

The Chalmers is a man's car that his wife can drive. Quite as safely; quite as easily as a man. In fact, every member of the family except the baby can handle the Chalmers.

Pressure on a button on the dash starts the motor.

The touch of the foot on a lever adjusts the carburetor—if it needs it.

A turn of a switch lights any or all of the lights.

The brakes are large and double acting. Chalmers ground gears shift so easily that changing speeds is almost instinctive. The powerful long-stroke motor responds instantly to the slightest adjustment of the throttle. The steering mechanism operates easily—surely.

Driving a Chalmers isn't a matter of strength—just a matter of intelligence and enjoyment.

For a Chalmers handles well—like a perfectly trained horse. It seems to possess an intelligence of its own—that's due to right design.

Let us show you and your wife or daughter how easy it is to drive a Chalmers.
