SENATE COMMITTEE AGAINST PLAN FOR TARIFF HEARINGS

Vote on Proposal, Taken on Strict Party Lines, Indicates General Trend.

WILL SHORTEN CONSIDERATION Decision Sure to Cut Out Much Preliminary Fuss.

GENERAL DEBATE OPENS TODAY Strong Minority and Majority Reports Made in House.

TODAY'S CONFERENCE NOTABLE Meetings Will Demonstrate the Strength Against Special Features of the Measure.

WASHINGTON, April 22.—By a strict party vote the senate finance committee decided finally today that no hearings would be given upon the tariff bill when it reaches the senate. Interested persons will be given a full opportunity, however, to file briefs or statements with the committee bearing on any of the tariff schedules.

The decision is expected materially to shorten the time consumed in getting the tariff bill before the senate for consideration. Tariff debate will open in the house at 11 o'clock tomorrow and in the hope that general debate can be limited to five days, Democratic Leader Underwood will attempt to hold the house to twelve hours of continuous work daily. Another week of consideration under the rule permitting amendments will send the bill to the senate soon after May 6, it is expected.

The tariff bill came back to the house today from the ways and means committee with a vigorous supporting report from the democrats on the committee and an opposing report from the republican members.

The general debate that begins tomorrow will be followed by concerted efforts on the part of the republicans in the house to amend the bill in all its important schedules.

Conferees Today.

While the senate finance committee has decided that further hearings are unnecessary, the democratic members of the committee will confer tomorrow with democratic senators from the Pacific coast and Rocky mountain states who are opposed to the free sugar and free wool provisions of the bill. A number of western senators, including Senators Myers of Montana and Ashurst of Arizona, will not participate in the conference, as they have decided to support the free wool and sugar program if it is approved by the house.

The conference tomorrow will demonstrate the strength against these features of the bill. Those who will participate insist, however, that there has been no effort to form an offensive alliance against the measure, as proof of which they point to the fact that the Louisiana senators and other interested in a change of the free sugar and free wool provisions have not been included in the conference.

Tariff Bill Reported.

Presenting the democratic party report on the tariff bill to the house today, the democrats of the ways and means committee recommended a radical readjustment of the entire fiscal policy of the nation. They proposed to make an income tax the means of accurately adjusting the funds to be raised by taxation to correspond with necessities for government expenditures.

The report after outlining the operations of the proposed income tax said:

"The revenues from all income taxes readily respond to changes of rates and the latter can be raised or lowered within a few days' time without business disturbances such as general tariff changes occasion. It is believed that a budget or other effective system by which congress may be able to calculate and determine in advance the substantial amount of revenue, congress could and if necessary, should annually raise or lower the income tax rates in such manner as would prevent either a deficit or a surplus in the treasury."

Cost of Production Disregarded.

The democrats, outlining their policy in the preparation of the bill, announced an absolute disregard for the cost-of-production theory as regulatory of tariff rates and declared that in the pending bill they had advanced a substantial amount of revenue, congress could and if necessary, should annually raise or lower the income tax rates in such manner as would prevent either a deficit or a surplus in the treasury."

To eliminate protection of profits and to cut off duties which enabled industrial managers to exact a bonus for which no equivalent is rendered. To introduce in every line of industry a competitive tariff basis providing for a substantial amount of importation to the end that no concern shall be able to feel that it has a monopoly of the home market gained other than through the fact that it is able to furnish better goods at lower prices than others."

"Which is the wiser course for our government to take?" the report asked, "the one that demands the protection of profits, the continued policy of hothouse growth of our industries—the stagnation of development that follows where competition ceases, or on the other hand, the reduction of our tariff laws to a basis where the American manufacturer must meet honest competition where he must develop his business along the best and most economical lines; where, when he fights at home to control his market, he is opening the way to extend his trade in the markets of the world. In our judgment the future growth of our great industries lies beyond the seas."

Average Duty Reduced.

A detailed table was presented showing by schedules, the total revenue secured under the Payne law for 1912, and the estimated revenue under the new law for a twelve-month period. The table showed

GOVERNOR MAY USE VETO

Executive Considers Value of Many Appropriation Bills.

SOME ARE IN BAD SHAPE

Measure to Provide Funds to Carry Veterans of Gettysburg to Anniversary Celebration Lacks Vital Clause.

(From a Staff Correspondent.)

LINCOLN, April 22.—(Special.)—Practically all the legislators have left the city and save for the Scoville meetings the town has resumed its ordinary routine.

Governor Morehead still has a big batch of bills to go over, and included in the bunch are a lot of appropriation measures. The governor has shown a disposition to be rather conservative in the matter of spending the money of the state, and has already given the axe to several measures carrying appropriations. So until he gets through a comparison of the appropriations of the last legislature with the relative spending qualities of the two administrations.

This legislature has appropriated between \$700,000 and \$800,000 for new buildings at the various state institutions, none of which was recommended by the Board of Public Lands and Buildings. The governor whacked out the tubercular hospital at Hastings and the may apply the knife to several more of these appropriations.

In going over the bills in his office it has been discovered that some of them are in pretty bad shape. For instance, the bill by Dodge to provide for a workhouse in Douglas county to be managed by a board of inspectors provides the chairman of the Board of County Commissioners shall be a member of this board and he shall appoint the other members, all to be approved by the inspectors. In other words, the inspectors must pass on their own fitness for the places.

Another bill appropriating \$4,000 to pay the veterans of the civil war to the national encampment at Gettysburg, at which the fiftieth anniversary of the battle of Gettysburg will be celebrated reached the governor minus the appropriation.

Bryan Takes Lead in Movement for World-Wide Peace

WASHINGTON, April 22.—Secretary Bryan's preliminary plans for a world-wide peace movement probably will be laid informally before the senate foreign relations committee tomorrow. Mr. Bryan has been at work for some time upon a crystallization of his ideas for international peace, and it is understood that he is now prepared to recommend a series of world-wide treaties for the submission of all disputes to arbitration and a limitation upon armaments.

The usual course of discussing his peace plans first with members of the senate committee has been chosen, it is understood, to pave the way in the senate for any substantial treaties that may be introduced. While members of the senate generally favored the arbitration treaties negotiated with Great Britain and France during former President Taft's administration, those conventions were practically defeated because the senate would not accept the provision for the submission of all disputes to arbitration.

It is understood Mr. Bryan has in mind the arbitration of all disputes. The secretary's suggestions as to the limitation of armament, it is said, will include the proposal that when vital questions have been submitted to a commission of inquiry neither country party to the dispute is in any way increase its armament or make further preparation for war until the commission has reported its findings.

Under direction of Park Commissioner Hummel workers began planting 200 out leaf birch trees along the Northwest boulevard. Several fine maples will also be planted along this boulevard by the park commissioner.

"Plant trees at home," was the advice to the school children when they had finished their Arbor day exercises under the direction of the teachers. Superintendent Graff had asked the teachers to impress on the students the value of trees at home and to urge them to help in beautifying the homes as well as the campus.

DEMOCRATS TURN AGAINST THE PEOPLE

Attitude of Administration on Sanborn Decision May Affect Railroad Rate Regulation.

CALLS IT POLITICAL TRAGEDY

Attorney General Martin Speaks of Changed Views.

RIGHTS OF STATES AT STAKE

Decision to Intervene Will Strike at Work of Last Decade.

TWO-CENT FARE LAW ISSUE

Upholding of Sanborn Decision by United States Supreme Court Would Deprive Commission of Power.

(From a Staff Correspondent.)

LINCOLN, Neb., April 22.—(Special.)—Regarding the action of the democratic national administration in intervening in the cases where the Sanborn decision is being attacked in the United States supreme court, Attorney General Grant Martin gave out the following statement today:

"A great political tragedy was enacted at Washington yesterday. The legal machinery of the present administration was set in motion in the railroad rate cases. The Minnesota and Missouri rate cases were argued in the supreme court of the United States and submitted over a year ago. Now the Department of Justice has made application to intervene and file briefs as a friend of the court."

"The dispatches state that the department contends that the famous Sanborn decision in the Minnesota rate case should be sustained and the states defeated in their efforts to regulate passenger and freight rates on the theory that said rates interfere with interstate commerce."

"Our Nebraska 2-cent passenger and freight reduction laws are dependent upon the outcome of these cases already submitted. Just why the present administration should pursue this course is inexplicable. The Sanborn decision was almost universally condemned by all the people who believed in the right of the states to regulate their own commerce."

Administration Changes.

"This condemnation was more pronounced among democrats and those demanding that the people rule than any other class of citizens. It is the irony of fate that the present administration has seemingly become the co-adjutor of the railroad companies in their efforts to defeat state regulation of public carriers, and thus destroy all of the progressive state rate legislation of the last decade. If successful in its contention, the administration causes the states to lose their 2-cent passenger and freight reduction laws and permits the reinstatement of the old rates."

"Seemingly the present democratic administration breaks away from the party's old moorings and becomes the adversary of states' rights and the champion of concentrated power in the federal government. The corporation press from coast to coast hailed the Sanborn decision as a clear victory for the railroads. Now this new administration seeks to have it sustained."

"Governor Harmon of Ohio brought the Sanborn decision and filed a brief in support of his views with the supreme court of the United States. If the Sanborn decision is sustained the sovereignty of the state becomes a fiction. The state at once is relegated to the domain of police regulation and nothing more. This is the most discouraging thing in it is remembered that the states always led the federal government in the enactment of progressive legislation."
