Ordinance of Far Reaching Effect and Pushed Through to Safeguard Health of ReWsidentsof the City.

An ordinance that will probably create the streets yesterday and the home promore commotion than any that has ever been passed by the city council was approved last night under suspension of the

rules and unless it is vetoed by Mayor sired concerning the bill of E. A. Wick-Maloney will become operative at once. ham for refilling Harrison street after If compels residence and business prop- the filling had been out out by storm erty in all parts of the city where such floods, and his claim was laid over for connections are possible to make con- one week. The amount was \$380.25 for 768 nections with sanitary sewers. A fine loads of approximately a yard and a half of not less than \$5 or more than \$100 each. An itemized bill was rendered is provided as the penalty and every showing that the work had been done at outside closet maintained is defined as a separate offense.

It is estimated that it will entail a cost of somewhere between \$25,000 and \$100,000. The time limit when all such connections must be made was fixed at December 1. It was first suggested by some of the aldermen to make it June 1. but when Mayor Maloney pointed out ment was \$25.35. City Solicitor Stuart rethat it would take more than a year to ported the appraisers' report of the damdo the work, the longer limit was fixed. Mayor Maloney also intimated that he would not sign the ordinance until he had given it most careful consideration, expressing his conviction that it was a bigger thing than the aldermen apparently believed it to be. There are several hundred houses, perhaps 1.000, that are affected. Bath rooms will cost from \$150

to \$500 each, and the total cost may thus In the face of the report made by Chairnan Flood of the streets and alleys comlittee, supported by Aldermen Beebe and

**MOTHER'S DAY SET APART** Governor Morehead Asks Sons to Honor Them. NEXT SUNDAY IS THE DAY Sets It Apart as Time for Sending

Token of Affection or Doing Something to Recall Her Loving Kindness.

LINCOLN, Neb., May 6 .-- (Special.)-LINCOLN, Neb., May 3.-(Special.)-Governor Morehead has appended his signature to a tribute to the mothers of the state in the proclamation setting the day apart, which is as follows:

"By force of precedent the second Sunday in May of each year has come to be known as Mother's day in many states. of the union.

"Being in full sympathy with the sentiment which sets aside one day in the year to do honor to motherhood, I hereby designate Sunday, May 11, 1913, as Mother's day.

"To every true man every day in the year is Mother's day, but it is well to set aside one day from all the rest to give public expression to the loftlest of all human sentiments, the love and affection that is due to motherhood. To this end, I ask that every adult in Nebrasks perform some act of kindness on that day. If your mother be living, visit her; if you cannot do this, send her flowers with a word of affection and

appreciation. "I recommend that this day be so observed that it will bring hope and cheer to the unfortunate and peace and joy to all, and that your charity be as broad and tender as a mother's love.

egram.)-It was announced today that the Paddock hotel, the leading hostelry of this city, would close this week. Lath of business is assigned as the cause. The present the property of General Colby.

**M** Or it may be caused by too-light a "body." In that the oil fails to carry-through to the end of the piston stroke. The piston rings then rub directly against the walls. break. Scoring and scratching of the cylinders will result. and I In time they break. Hissing of the motor follows.

A third result of wrong "body" or low lubricating quality is worn wrist-pins. This trouble causes a dull, metallic (A) knock. In extreme cases the wrist-pins break.

A fourth result is worn connecting rod or main bearings. The unnecessary wear is caused either by the low lubricating quality of the oll, or by an oil whose "body" is unadapted to the fit of the bearings.

The bearings in different motors differ widely. For proper lubrication they require oils of different "body."

A fifth common result is loss of compression and escape of the explosion.

The oil's actual lubricating quality plays no part in this loss. The escape is attributable wholly to the oil's incorrect "body."

With certain types of piston rings a light-bodied oil forms too thin a film around the ring. Loss of compression, escaping explosion and reduced power result. **A** 

There is no plain symptom by which this escape can be discovered—other than the lessened power of the motor.

To avoid these troubles you must use an oil of the highest lubricating quality, and of correct "body."

There is only one way to determine the correct "body." That is, to carefully analyze the construction of the motor.

Any less-thorough method can only be a hazardous guess.

To meet this problem, each season we carefully analyze the motor-construction of every make of automobile.

Based on this analysis, and on practical experience, we determine the correct oil for each car.

The results of these conclusions are compiled in a lubricating chart-printed in part on the right. This chart specifies the correct grade of Gar-goyle Mobiloil for your car.

The efficiency of the oils recommended has been thoroughly demonstrated in practical use.

In sheer lubricating quality they stand alone.

Oil of the guality and "body" recommended is an absolutely necessary step toward

The greatest horse-power efficiency. (2) The smoothest operation.
 (3) The fewest repair troubles. (4) The lowest operating cost per mile.
 (5) The longest life to your motor. (6) The greatest second-hand value.

If you use an oil of less-correct "body" or of lower lubricating quality than that recommended, winecessary friction, unnecessary carbon deposit, loss of power, and ultimate serious damage must result.

The various grades, refined and filtered to remove free carbon, are: Gar-goyle Mobiloli "A," Gargoyle Mobiloli "B," Gargoyle Mobiloli "D," Gargoyle Mobiloli "E," Gargoyle Mobiloli "Arctic."

They are put up in t and 5 gallon sealed cans, in half-barrels and barrels. They are sold throughout the world. All are branded with the Gargoyle, which is our mark of manufacture.

The dealers listed below carry ample stocks of Gargoyle Mobiloils and are provided with our complete chart of recommendations. This will enable them to select the correct grade for your car.

VACUUM OIL CO., Rochester, U. S. A. CHICAGO PHILADELPHIA INDIANAPOLIS Indiana Pythias Hide Distributing warehouses in the principal cities of the world.
